B.—The following rights are admitted within the block:—

(i) Survey No. 11 (Bagayat) of Tammadikoppa village and the adjoining katte known as Guddatotadakere are treated as enclosures within the block, with access to them by means of a cart-track leading from Survey No. 13 of Thammadikoppa. It enters the forest in the western boundary about 20 chains south-east from the south-east corner of Survey No. 12 of the Thammadikoppa village, runs east through Survey No. 10 of the same village to Survey No. 11.

(ii) Tangalavadi tank in Survey No. 56 of Arasalu village and the channel drawn from it are treated as enclosures within the block, for irrigating the lands below the said tank.

(iii) The raiyats of Tangalvadi (Dakle village of Arasalu) are entitled to graze their cattle (50) free in the reserve during the prescribed period of the year and to remove 20 cart loads of fuel from the unreserved and unclassified trees for the use of each house per annum.

(iv) The khatedar of Survey No. 11 of Thammadikoppa is entitled to remove 20 cart loads of soppu from the unreserved and unclassified trees within the reserve, every year, for manuring his bagayet lands (Survey No. 11) ordered to be treated as enclosure.

No. 212.

GOVERNMENT OF INDIA.

## DEPARTMENT OF EDUCATION.

### ECCLESIASTICAL.

*Simla, the 10th May 1913.*

## NOTIFICATION.

The rules providing (I) for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay; (II) for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India; (III) for the levy of other ecclesiastical fees throughout India; (IV) for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the town and suburbs of Calcutta; and (V) for the regulation of grants for the building of churches; the supply of church furniture; and for the payment of compensation for accommodation provided for soldiers in churches neither belonging to, nor rented by Government, have been revised and consolidated and are published for general information and guidance:—

## Part I.

*Rules for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay.*

### CHARGE OF THE CEMETERY.

RULE 1.—(1) The resident chaplain of a station has charge of the general cemetery, and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1 of the Home Department* Resolution Nos. 6—370-382, dated 9th November 1876.

(2) The term "resident chaplain" includes a clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other clergyman of the Church of England placed in charge by the Bishop.

(3) Where there are lay trustees or a church committee they will have the same powers and responsibilities in regard to the cemetery as in regard to the church. At stations where there are no trustees or committee, if there is no resident chaplain or during the temporary absence of the chaplain, the charge of the cemetery vests in the chief magistrate on the spot, or the senior military officer if the cemetery is attached to a military cantonment.

(4) At out-stations where there is a church committee the charge of the cemetery will vest in the senior member of the committee, provided that, if the station does not contain a church which is the property of the Government, the appointment of the senior member of the committee to hold charge of the cemetery will be subject to the approval of the Bishop or Archdeacon who may, if he consider it advisable, appoint some other person to the charge. At out-stations where there is no church committee the charge of the cemetery will vest in such person as may

* Appendix A.

be nominated thereto from time to time by the Magistrate or Deputy Commissioner of the district, but subject to the control of such Magistrate or Deputy Commissioner.

(5) All projects for original works in connection with cemeteries attached to Government churches in civil stations and cemeteries in Imperial Provinces without provincial settlements whether attached to Government churches or not, which require the administrative sanction of the Government of India, should under the Home Department orders Nos. 49—65, dated the 8th February 1907, be submitted by the ecclesiastical authorities to the local Government, which after examining them will transmit them, with any remarks that it may desire to offer, to the Government of India in the Department of Education for consideration. All proposals relating to the construction or alteration of cemeteries attached to Government churches in cantonments and of other cemeteries in charge of the Military Works Services whether attached to Government churches or not should under the Home Department orders Nos. 58—71, dated the 18th February 1909, be submitted by the ecclesiastical authorities to the General Officer Commanding the Division or Independent Brigade within whose jursidiction the cantonment is situated, who will forward them to the Director-General of Military Works when the cost of the work is less than Rs. 2,500 and to the Quartermaster-General in India when the cost exceeds Rs. 2,500. The Director-General will submit proposals forwarded to him direct to the Department of Education after consulting the Quartermaster-General unofficially. In the cases of the larger cost the Quartermaster-General after satisfying himself of the necessity for the work proposed will, when the work is to be carried out by the Military Works Services, request the Director-General of Military Works to submit the proposals, together with approximate estimates of their cost and the reports of the local military officers, for the consideration of the Department of Education. When the work is to be carried out by the Public Works Department the Quartermaster-General will request the General Officer Commanding concerned to forward the proposals to the local Government which, after examination, will transmit them, with any remarks it may desire to offer, to the Government of India in the Department of Education for consideration. Proposals in connection with cemeteries attached to Government churches in railway colonies should be submitted by the managers or agents of the railways concerned to the Railway Board for consideration. Projects for original works in connection with cemeteries not attached to Government churches the charges for which will be debitable to Provincial revenues should be dealt with under the orders of the local Government concerned.

RULE 2.—Each cemetery is allowed a mali-chaukidar or chaukidars in accordance with the scale prescribed in paragraph 2 of the Home Department Resolution* Nos. 6—370-382, dated 9th November 1876. These chaukidars are paid by Government through the resident chaplain, by whom they are appointed and dismissed. In stations where there is no resident chaplain, the chaukidars are paid, appointed, and dismissed by the other officers named in rule 1. House accommodation for cemetery chaukidars may be provided at the cost of the State.

* Appendix A.

RULE 3.—Every reasonable effort should be made by the resident chaplain or other officer in charge under rule 1, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—Expenditure under this rule will be met in the manner indicated in paragraph 1 of the Home Department Resolution† Nos. 6—370-382, dated 9th November 1876.

† Appendix A.

RULE 4.—The chaukidar will keep the key of the cemetery under the direction of the officer in charge.

RULE 5.—The officer who has charge of the cemetery under the operation of rule 1 will perform all the duties assigned to the chaplain by rules 7, 8, 9, 10, 11, and 12, with the exception of the approval of designs of tombstones and of inscriptions to be cut on them. In the case of a tombstone in that part of the cemetery which is reserved for the Church of England, the proposed design and inscription must be forwarded to the resident or visiting chaplain, or, if there be none, to the Archdeacon, no action being taken to erect the monument till his sanction has been obtained. In all other cases the design and inscription must be approved by the minister of the particular denomination to which the deceased belonged. Should there be no resident or visiting minister of that denomination, the inscription and design must be approved by the senior minister belonging to it in the province, or, if there be none, then by the local Government or Administration. Should a design or inscription be disapproved, it may be referred, if those who are interested desire this, through the ecclesiastical superior of the denomination concerned, to the local Government or Administration for decision. (*Vide* rules 14 to 20 and Part IV of these rules.)

## PERSONS WHO MAY CONDUCT INTERMENTS.

RULE. 6.—(1) The chaplain will bury Christians of all denominations whose friends desire his services, as laid down in the orders of the Government of India in the Home Department,* No. 159, dated the 6th June 1877, using always the service of the Church of England and the consecrated portion of the cemetery.

* Appendix B.

(2) A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in rule 1.

RULE 7.—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations, who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given by the chaplain or minister of the denomination to which the deceased belonged or, in his absence from the station, by the friends of the deceased, to the chaplain in charge of the burial ground, or, in the absence of the chaplain, to the officer who may be in current charge. The chaplain or officer in current charge of the cemetery should, on receipt of the notice, give the conducting chaplain or minister, or, in his absence, the friends of the deceased, a certificate as to the hour when the funeral may take place. The period herein prescribed may, for special reasons, be shortened, with the permission of the chaplain or officer in charge of the cemetery. Such chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

NOTE.—The provisions laid down in this rule apply only to civil funerals. Military funerals are regulated by the orders laid down in Army form A-27.

(2) In the cases in which the deceased was in the military or civil employment of Government and the death occurred in a military station it is the duty of the officer commanding the corps or head of the department concerned to inform the minister of the denomination to which the deceased belonged, of the hour at which the funeral may be expected at the cemetery. This report is to be in addition to that required by rule 7 (1).

(3) A certificate of burial drawn up according to the required form must be sent to the chaplain or to the Registrar of births, deaths and marriages, to be entered in the register kept up by him. The officer commanding the station or regiment or the local head of the department with which the deceased was connected is responsible for the submission of the certificate.

RULE 8.—(1) No burial can, as a general rule, take place in that part of a Government cemetery, which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England.

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorised by the person having charge of such burial, may conduct such service or take part in any religious act thereat.

(4) Notice of any burial which it is intended to conduct under the provisions of clauses (2) and (3) shall be given to the chaplain or other officer in charge of the burial-ground in the manner prescribed by rule 7.

## ARRANGEMENTS FOR BURYING.

RULE 9.—Where there is a resident chaplain he is responsible for the arrangements for digging a grave and for the preparation of a coffin. Should he find or anticipate difficulty in making private arrangements for digging a grave and preparing a coffin he should apply in military stations to the senior military officer and in civil stations to the chief local magistrate to make the necessary arrangements; and these officers are authorized to direct any local Public Works officer to do all that is necessary. The local Public Works officer will usually be the Assistant Commanding Royal Engineer in military stations and the Civil Executive Engineer in civil stations; but the senior military officer in a military station and the chief local magistrate in a civil station may, in cases of emergency, direct the Civil Executive Engineer or the Assistant Commanding Royal Engineer, respectively, to make the necessary arrangements. The resident chaplain is in all such cases responsible that timely notice is given to the Government officers who may be called upon to arrange for digging a grave and preparing a coffin.

The senior military officer in a military station and the chief local magistrate in a civil station may, should the resident chaplain report that private arrangements for digging graves and preparing coffins are not feasible, issue a general order on the Assistant Commanding Royal Engineer and the Civil Executive Engineer, respectively, to dig graves and prepare coffins upon the requisition of the resident chaplain. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account till repaid by the officer under whose special or general order it was incurred.

During the absence of the resident chaplain from the station the senior military officer in a military station and the chief local magistrate in a civil station shall be responsible for the arrangements for digging graves and preparing coffins.

NOTE.—The expenses incurred in connection with the burial of paupers who die within cantonment limits will be defrayed from cantonment funds under the authority of section 29 (1) (*l*) of the Cantonment Code. In the case of paupers who die out of cantonment limits, the expenses will be defrayed by the magistrate of the district.

RULE 10.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department or Military Works Services, with references written upon it, in a book, in which the names of parties interred are recorded, this plan and book being kept with the church registers.

NOTE.—The Executive Engineer shall maintain a plan of the cemetery showing on it all the existing graves and the spaces allotted for future graves, giving them all consecutive numbers and giving plot lines also consecutive numbers when he thinks this desirable. Suitable number plates may be provided for the graves.

RULE 11.—The officer in charge of the cemetery may reserve grave space, as limited by rule 12 below, on the application of near relatives of persons already buried in the cemetery and for the burial of the persons named in the application. A double ground fee shall be levied in advance before granting any such application and each grant shall be registered in a book to be kept for the purpose and indicated on the plan. The ground will then be reserved for ten years. Before the expiry of that period, a fresh application should be made and a further double fee paid, failing which the ground will be resumed.

RULE 12.—The size of each grave, whether of masonry or not, is ordinarily limited to 9′ × 4′, and the area of ground to be enclosed to 11′ × 7′ by external measurement. The local Government may, however, relax these limits at its discretion.

RULE 13.—(1) All graves must be at least 6 feet in depth. Masonry graves need not be provided with floors.

(2) No body shall be buried in any vault or masonry grave provided with a permanent floor which it is intended at any after time within 14 years to re-open, unless the coffin be separately entombed in an air-tight manner by properly cemented stone or brick work, which shall never be disturbed.

(3) One body only shall be buried in a grave at one time, unless the bodies be those of members of the same family.

(4) No non-masonry grave or masonry grave unprovided with the separate air-tight compartment prescribed in clause (2) shall be re-opened within 14 years after the burial of a person above 12 years of age, or within eight years after the burial of a child under 12 years of age, unless to bury another member of the same family, in which case a layer of earth not less than one foot thick shall be left undisturbed over the previously buried coffin. If on re-opening the grave any soil is found to be offensive, such soil shall be left undisturbed.

(5) There shall never be less than three feet of earth between the topmost coffin in a grave and the surface of the ground.

## ERECTION AND REPAIR OF MONUMENTS.

RULE 14.—Monuments may be erected by any interested person. The inscription before being cut and the design, when the monument is other than a simple headstone, must first be approved of as laid down in rule 5.

RULE 15.—When a grave is not of masonry the only monument ordinarily allowed over it is a simple cross or headstone on an adequate masonry foundation at least 3′ × 2′ × 1½′; and the whole structure must not stand higher than 3 from the ground level. But, with the permission of the officer in charge of the cemetery, a monument, such as may be erected over a masonry grave, may be placed over a non-masonry grave when adequate masonry foundations are provided on which the monument may rest.

RULE 16.—No monument, of whatever material constructed, shall exceed 8′ × 4′ at the base without the previous sanction of the local Government.

RULE 17.—No monument of *masonry* standing higher than 3 feet from the ground level shall be erected without the sanction of the local Government.

RULE 18.—No cenotaph more than 6 feet square at the base shall be erected without the sanction of the local Government.

RULE 19.—The enclosure of ground round a grave must be by a metal railing, or by chains or bars of metal supported on masonry or metal pillars or by a plain granite or marble curb on a concrete foundation. Wooden or masonry enclosures are not permitted. The previous sanction of the Archdeacon, or in his absence, of the Bishop, is necessary to the enclosure of a non-masonry grave; and no such sanction will be given unless the fee required by rule 1 of Part II has been paid.

RULE 20.—All work connected with monuments must, as far as possible, be carried on outside the cemetery.

## INSPECTION.

RULE 21.—The cemetery should be inspected annually by the officer who has charge of it under the operation of rule 1, in company with the executive engineer, the plan and book kept under rule 10 being also examined, and a report made to the Archdeacon, and recorded in the ecclesiastical record-book of the station, and also in the engineer's office. In stations where there is no resident chaplain and there is a difficulty in arranging for a joint inspection by the officer in charge of the cemetery and the executive engineer, the annual inspection may be made by the executive engineer alone, who will forward the report to the Archdeacon through the officer who has charge of the cemetery.

RULE 22.—(1) Commissioners of divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours, and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments and to report to local Governments any matter calling for notice.

## MISCELLANEOUS.

RULE 23.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on the march, in order that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities, who should inspect them frequently and see that they are preserved in good order. Interments should, as far as practicable, be carried out in Government land.

## PART II.

*Rules for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India.*

RULE 1.—The following are the rates of fees chargeable :—

| | Rs. | a. | p. |
|---|---|---|---|
| (1) For every square foot of ground occupied by a grave, whether masonry or not ... | 0 | 8 | 0 |
| NOTES.—(1) This fee is independent of the actual charge for making a grave. | | | |
| (2) By the terms *ground occupied* in this rule is meant in the case of an unenclosed grave the area actually occupied by the grave; and in the case of enclosed graves, graves with monuments or graves partly covered by monuments and partly enclosed, the area actually occupied by the grave *plus* all additional space either enclosed or occupied by a monument. | | | |
| The fee of eight annas in question is irrespective of all charges leviable under clauses (2) to (5) of this rule. | | | |
| (2) For a masonry monument, per square foot ... ... ... ... ... | 1 | 0 | 0 |
| (3) For a cut stone or marble monument, per square foot ... ... ... ... | 0 | 8 | 0 |
| NOTE.—The lower fee of 8 annas per square foot shall be charged only if the whole structure above the ground level is made of cut stone or marble. | | | |
| Provided that no fee under (2) or (3) shall be less than ... ... ... ... ... | 5 | 0 | 0 |
| (4) Additional fee when a cut stone or marble monument stands higher than 3 feet from the ground level ... ... ... ... ... ... ... | 16 | 0 | 0 |
| (5) For a headstone or cross over a non-masonry grave ... ... ... ... ... | 5 | 0 | 0 |
| (6) For a faculty for the erection of a monument in a church ... ... ... ... | 75 | 0 | 0 |
| NOTES.—(1) A tablet on the wall of a cemetery shall be regarded as a monument. | | | |
| (2) The term "stone or marble" does not include "slate". | | | |
| (3) The fee of Rs. 75 levied on a faculty is in all cases to be spent in charity. | | | |
| (7) For a cenotaph, in addition to the ground fee, a special fee of ... ... ... | 50 | 0 | 0 |
| NOTE.—If any of the persons commemorated are interred beneath a monument, it should not be classed as a cenotaph. | | | |
| (8) For burial in a family vault ... ... ... ... ... ... | 3 | 0 | 0 |

RULE 2.—Fees are leviable over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the established Church.

(2) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the established Church of England forms no part of the general cemetery, but is separate from it, or where, although, not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State then if the community by which the ground is used so desire, the Government will give up all claim to fees on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the established Church or the general Christian community provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

## EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE 3.—No fee shall be levied from regimental and non-departmental warrant officers, British non-commissioned officers and soldiers for the construction of graves for, or the erection of monuments to the memory of, their wives, children, or comrades; or from their wives or children for the construction of graves for, or the erection of monuments to, such warrant officers, non-commissioned officers and soldiers; provided that the monument is a plain stone monument consisting of a simple cross or head-stone fixed in a stone or marble socket, or a slab over a masonry foundation 3′×2′ and whose total height does not exceed 3 feet above the level of the ground. No exemption shall be granted, however, to such persons from the fees prescribed in rule 1 (6) and (7) of there rules.

NOTES.—(1) This rule applies to regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers whether in military or civil employ.

Native Christians belonging to His Majesty's army are British soldiers within the meaning of this rule.

(2) Plain stone monuments erected under this rule which are subscribed for partly by regimental or non-departmental warrant officers, non-commissioned officers and men and partly by officers are likewise exempted from the prescribed fee.

(3) Departmental warrant officers and volunteers are not exempted from payment of ecclesiastical fees.

(4) The addition of masonry borders round plain stone monuments in respect of the erection of which exemption is granted by this rule will not necessitate the levying of a fee for their erection, provided that the borders are kept within reasonable limits, so that the cost of repairing the monuments is not materially increased.

RULE 4.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are, therefore, entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE 5.—The chaplain may, at his discretion, reduce, or in cases of extreme proverty altogether remit, the fee leviable on the construction of graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

## PERSONS BY WHOM FEES MAY BE COLLECTED.

RULE 6.—The chaplain or other officer in charge of a cemetery may appoint an official mason, who may be granted a monopoly of the whole or any portion of the masonry work beneath the surface within the cemetery, subject to such conditions as may be agreed upon at the time of making the appointment; and may, subject to the same conditions, discharge him at his discretion. When an official mason has been appointed, he shall be responsible for the collection and payment to the chaplain or other officer as aforesaid of the requisite fees in respect of all work executed by him. Fees in respect of all work in the cemetery must be paid in advance before the work is begun. The maximum rates for all works beneath the surface should be fixed by the officer in charge of the cemetery in consultation with the Executive Engineer or Assistant Commanding Royal Engineer, and should is no case be exceeded unless they are proved to the satisfaction of both officers to be inadequate. The rates should not ordinarily exceed the current rates for public works in the district.

## PERSONS TO WHOM FEES MAY BE PAID.

RULE 7.—The fees prescribed in rule 1 should be paid to the chaplain or, in the absence of the chaplain, to the officer in charge of the cemetery and remitted at once to the civil treasury, except fees for monuments in churches, which should be paid over by the chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

## CEMETERY RECEIPTS AND CHARGES.

RULE 8.—All cemetery receipts and charges are to be regulated as laid down in paragraph 1 of the Home Department resolution* No. 6--370-382, dated the 9th November 1876.

* Appendix A.

## MISCELLANEOUS.

RULE 9.—(1) A person may not purchase a portion of a Government cemetery as a burial place for himself and his family so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with and special cases as they arise may require exceptional treatment. In such special cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2) All private rights must, however, cease if, for sanitary or other public reasons, the cemetery is closed against burials, or even that portion of it in which the private ground is situated; but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No *kachcha* grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon which must be accompanied by a certificate from the principal medical officer, that this may be done without risk to the public health.

RULE 10.—(1) When a piece of ground is granted by Government as a cemetery to a railway company for the interment of its own servants, and the company afterwards keeps it to repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing are left to the decision of the railway company which maintains the cemetery in good order and repair.

(2) The Commissioner of the district or judicial officer, and in military stations the officer commanding should inspect such cemeteries and report to Government if they find them negligently kept.

## PART III.

*Rules for the levy of other ecclesiastical fees throughout India.*

RULE 1.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE 2.—In addition to the fee for the surrogate's license a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the military or naval service of His Majesty.

RULE 3.—The fee for a surrogate's license shall be Rs. 50, both at the presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE 4.—When registers are searched and a copy of any entry given, a fee of one rupee shall be charged for the first year,* and four annas for every additional year over which the search may extend, as well as a fee of one rupee for the certificate. Soldiers, sailors, and non-commissioned and petty officers are exempted from payment.

*The first year shall be taken to mean any one year indicated by the applicant.

NOTE.—(1) The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each local Government.

(2) The chaplain may, at his discretion, reduce, or altogether remit in cases of extreme poverty, the fee for searching registers.

## PART IV.

*Rules for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the town and suburbs of Calcutta.*

### APPLICATION FOR ERECTION OF A MONUMENT.

1. A person desiring to erect a monument should submit to the chaplain or other officer in charge of the cemetery an application in the form A (annexed), with a working drawing of the monument drawn to scale.

2. If the proposed monument (*a*) is not a single stone monument as defined in rule 6, or (*b*) is a single stone monument in respect of which exemption from

payment of endowment fee is granted by note (1) to this rule, or (*c*) is a single stone monument which it is proposed to endow, the chaplain or other officer in charge of the cemetery will send on the application and the drawing with a forwarding letter (in form B annexed) to the executive engineer in charge of the cemetery. The executive engineer will examine the proposals, and, if he approves of them, will fill in the certificate below the application, examine and countersign the drawing, and return the papers to the chaplain.

If any fragile or costly work liable to receive damage is proposed, the executive engineer will not take this into consideration in entering the classification of the monument in column 7 (*b*) of the application, as the repair of such work cannot be undertaken by Government. The executive engineer may decline to take over any monument for the purpose of maintenance if he considers that the work is defective from a structural point of view.

If the monument is a single stone monument and is *not* to be endowed, the chaplain or other officer in charge need not forward the application to the executive engineer unless he desires his advice, but may deal with it at once in accordance with rule 3.

NOTES.—(1) No endowment fee shall be levied in respect of monuments erected by British soldiers or non-commissioned officers to their wives, children or comrades, or by their wives or children to British soldiers or non-commissioned officers, provided that the monuments are simple crosses, head-stones or slabs. Native Christians belonging to His Majesty's Army or British soldiers within the meaning of this note.

(2) The addition of masonry borders round single stone monuments in respect of which exemption from endowment fee is granted by note (1) above will not necessitate the levying of a fee, provided that the borders are kept within reasonable limits, so that the cost of repairs of the monuments is not materially increased.

(3) When a monument is to be placed over a masonry grave any portion of the masonry which projects above the ground level shall be demolished.

3. On return of the papers, duly approved by the executive engineer, the chaplain will see that the application in form A is correctly filled in, sign the memorandum at the foot of the form and forward it with the drawing to the Archdeacon. If the deceased belonged to some other denomination than that of the Church of England, the chaplain will obtain a certificate of approval of the design from the minister of the denomination to which the deceased belonged and forward it with the application to the Archdeacon.

4. The Archdeacon will permit the monument to be erected or refuse to do so. If permission is given, the chaplain will advise the applicant of the sanction in form D (annexed) and instruct him to pay the amount of the endowment calculated as in rule 6 to the executive engineer, who will grant the applicant a receipt in form C (annexed).

5. The chaplain will return the sanctioned application (with enclosures) to the executive engineer for disposal and record. On receiving adequate notice from the applicant (usually *not less* than a week) of the date and hour of erection, the executive engineer will depute a responsible subordinate to supervise the erection of the monument in accordance with the sanction design and specification. If it is erected to his satisfaction, the executive engineer will assume charge of the monument for future repairs by the Public Works Department and will issue to the applicant a certificate in form I that the monument has been properly erected. The chaplain will, on receipt from the executive engineer, send in April every year to the Archdeacon a list of the monuments erected and endowed during the year ending March 31st, together with the amounts of the endowment fees.

## CLASSES OF MONUMENTS AND AMOUNT OF ENDOWMENT FEES.

6. For the purpose of these rules monuments are classified as follows :—

CLASS A. *Single stone monuments.*—Monuments consisting of (*a*) simple crosses or head-stones not exceeding 3 feet in height from the ground level and having the full section of the stone embedded to a depth of at least 12 inches, in masonry foundations measuring at least 3′ × 2′ in size by 1½ feet in depth, or (*b*) slabs not exceeding 11 ft. × 7 ft. in size over unexposed masonry foundations.

CLASS B. *Plain and solid monuments.*—Monuments, including railings round graves, not falling in class A. which are likely to require only occasional repair.

CLASS C. *Elaborate monuments.*—Monuments which are likely to require special attention or frequent repair.

The endowment of a monument in class A is optional, and the fee may be paid at any time, either before or after the erection of the monument. Permission will not be given to erect other monuments unless the endowment fee has been paid. The minimum fees are as follows :—

| Class of monument | Endowment fee | | Remarks |
|---|---|---|---|
| | Child's monument | Adult's monument | |
| | Rs. | Rs. | |
| A | 15 | 15 | (1) A child's monument covering more than 15 square feet is to be charged for as an adult's monument. |
| B | 20 (1), (2) | 30 (2) | (2) These are minimum fees, and when they are considered insufficient such fees may be charged as the superintending engineer thinks necessary. |
| C | 50 (1), (2) | 75 (2) | |

The classification of monuments rests with the executive engineer, but any person who objects to his decision may appeal to the superintending engineer.

No addition to an existing monument in a Government cemetery will be allowed beyond mere lettering on existing slabs, head-stones or crosses, unless the whole monument is endowed.

7. The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering and repairs, but not the risk of accidents due to floods or earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the executive or superintending engineer under rule 6. This special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute.

8. When an endowment is paid to the executive engineer, in accordance with rules 4 and 6, the amount must be entered in the divisional cash book as a deposit received and paid into the treasury with a remittance note in the form G (annexed) for credit to the civil department. The executive engineer will forward the treasury officer's receipt with his monthly accounts to the examiner of accounts in support of the debit to "deposits", a note to the effect that this has been done being entered in red ink across the black foil of the remittance note.

The examiner will, from these receipts, maintain a register in form H (annexed) showing the endowments for each cemetery in his province. The civil account officer will credit to a head cemetery endowment fund under the major head Savings Bank Deposits—Bank Accounts all sums received on account of these endowments, but will show no details regarding the cemeteries.

After the amount has been paid into the treasury the executive engineer will enter it in the register of endowments, form E (annexed) (Part I).

NOTE.—A clear distinction must be maintained between (1) *ordinary*, and (2) *special* endowments (*vide* rule 7) in all the documents and accounts mentioned in this rule.

9. The executive engineer shall maintain an account of all ordinary and special endowments, form E (annexed) (Part II). A separate ledger account shall be opened in form E (annexed) (Part III) for each monument for which a special endowment exceeding Rs. 25 has been made under rule 7.

NOTE.—The provision as to separate accounts should be applied, as far as possible, to endowments made prior to the issue of these rules.

10. The interest calculated under rule 11 on the deposit shall be used in meeting the expenditure for the repair of those monuments for whose preservation deposits have been made. In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument. The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs : provided that the interests on deposits for which separate accounts are opened under rule 9 shall be used exclusively for the particular monument on account of which the deposit is made.

If a monument becomes so damaged as not to admit of repair, the officer in charge of the cemetery shall communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the Gazette of the Province; and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order: provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

NOTES.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the Gazette is met by the Government.

(3) The State will defray the cost of keeping in repair monuments erected by or over the graves of British soldiers and non-commissioned officers in respect of which exemption from payment of endowment fee is granted by note (1) to rule 2 of this part.

11. Joint estimates shall be framed in October of each year by the executive engineer and the chaplain, or other officer in charge of the cemetery, of the cost of repairs of endowed tombs, during the following official year, and the aggregate of the sums so estimated shall not exceed the estimated interest at 3¼ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March preceding, *plus* the unspent balance at the end of the previous year. The executive engineer should budget annually for the grant required; such grant should be entered in a lump sum under the head "civil works" without any distinction between ordinary and special endowments.

12. The civil account officer of each province will, in his final accounts for March, debit to 14—Interest, by credit to the Public Works Department the interest at 3½ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March. On receipt of the credit the examiner of public works accounts will distribute the amounts between the cemeteries of the province and advise the executive engineer concerned of the amounts so credited. On receipt of such intimation the executive engineer will credit the amount in his divisional accounts as public works revenue under the head "Interest on endowments for repairs of monuments" and then fill in the interest column in form E (Part II).

13. Endowment funds invested in Government securities will be held in trust by the Comptroller-General or the Accountant-General, Bombay (as the case may be), on behalf of the examiner of public works accounts concerned, under the rules contained in chapter II of the Civil Account Code. The interest will, on realization, be remitted to the examiner and will be credited in his accounts and distributed as provided in rule 12.

## ENDOWMENT OF EXISTING MONUMENTS.

14. When application is made for the endowment of an existing monument the above procedure should be followed as far as applicable.

15. In order that the local Government or Administration may know that the tombs are kept in proper repair, an annual report in form F (annexed) should be forwarded as soon as possible after the close of the accounts for a financial year, by the executive engineer with respect to their condition, for each cemetery, to the examiner of public works accounts, who will consolidate the returns so received and render a general return to the local Government or Administration. The account will merely show the totals for each cemetery as taken from the executive engineer's accounts.

The reports sent to the examiner should contain remarks, both by the chaplain and executive engineer, as to the state of the tombs for which endowments have been made.

NOTE.—The foregoing rules are applicable to cenotaphs erected in church compounds, but the previous consent of the local Government to the construction of a cenotaph is in every case necessary.

## PART V.

*Rules regulating grants for the building of churches; the supply of church furniture; and for the payment of compensation for accommodation provided for soldiers in churches neither belonging to, nor rented by, Government.*

RULE 1.—All State charges for churches (except those referred to in rule 21 (*b*) (2) which are debitable to "23—Ecclesiastical") in civil, military or State railway stations are provided from Public Works funds from the ordinary grant for Imperial Works under "45—Civil Works".

RULE 2.—The provision of churches from Public Works funds is authorised under the limitations given in the following rules. All projects for original works in connection with churches in civil stations which require the administrative sanction of the Government of India should, under the Home Department orders Nos. 49—65, dated the 5th February 1907, be submitted by the ecclesiastical authorities to the local Government, which, after examining them, will transmit them with any remarks that it may desire to offer to the Government of India in the Department of Education for consideration. All proposals relating to the construction or alteration of churches in cantonments should, under the Home Department orders Nos. 58—71, dated the 18th February 1909, be submitted by the ecclesiastical authorities to the General Officer Commanding the Division or Independent Brigade within whose jurisdiction the cantonment is situated, who will forward them to the Director-General of Military Works when the cost of the work is less than Rs. 2,500 and to the Quartermaster-General in India when the cost exceeds Rs. 2,500. The Director-General will, except in cases which fall under rule 23 A, submit proposals forwarded to him direct to the Department of Education after consulting the Quartermaster-General unofficially. In the cases of the larger cost the Quartermaster-General after satisfying himself of the necessity for the work proposed will, when the work is to be carried out by the Military Works Services, request the Director-General of Military Works to instruct his subordinate officers to forward the proposals, together with approximate estimates of their cost and the reports of the local military officers to the local Government, which should then submit them for the consideration of the Government of India in the Department of Education. When the work is to be carried out by the Public Works Department the Quartermaster-General will request the General Officer Commanding concerned to forward the proposals to the local Government, which, after examination, will transmit them, with any remarks it may desire to offer, to the Government of India in the Department of Education for consideration. Proposals in connection with churches in railway colonies should be submitted by the managers or agents of the railways concerned to the Railway Board for consideration.

### MILITARY STATIONS.

RULE 3.—At all permanent military stations, churches will be provided by the Government for its Protestant and Roman Catholic European British-born soldiers on the scale laid down in rule 6.

NOTE.—The term "Protestant" includes members of the Church of England and of the established Church of Scotland, Presbyterians, Wesleyans, and such other denominations of Christians as may from time to time be included by the Government of India.

RULE 4.—The amount of the Government grant for a Protestant church will in no case exceed such a sum as will suffice to provide a plain substantial building of the simplest ecclesiastical design, together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting architectural decorations to the building should they desire to do so, and also of supplying additional furniture, including apparatus for lighting of a more costly description.

NOTE.—On no account should Government funds be utilised for the erection of a reredos.

RULE 5.—The same principles will regulate the grant for Roman Catholic churches.

RULE 6.—The maximum number of seats to be provided will be calculated on the following scale :—

| Unit | Church of England, Church of Scotland and other Protestant denominations recognised by the Government of India | Roman Catholics |
|---|---|---|
| Battalion of British Infantry ... ... | 450 | 340 |
| Head-quarters Wing, British Infantry ... ... | 250 | 190 |
| Detached Wing, British Infantry ... ... | 200 | 150 |
| Regiment of British Cavalry ... ... | 275 | 210 |
| Battery of Royal Horse or Field Artillery ... ... | 70 | 55 |
| Garrison Company, Royal Artillery ... ... | 65 | 50 |
| Mountain Battery, Royal Artillery ... ... | 50 | 35 |
| Heavy Field Battery, Royal Artillery ... ... | 45 | 35 |
| Convalescent depôts and miscellaneous detachments, per section of 100 men. | 45 | 35 |

NOTE.—These numbers include soldiers' families.

RULE 7.—Any provision that may be necessary may also be made for staff officers, officers of Indian regiments, and where no civil church exists, for European British-born subjects in the service of Government, or for railway servants in accordance with the scale and terms hereinafter prescribed for civil and railway stations respectively.

RULE 8.—As a rule, only one Protestant and one Roman Catholic church will be provided; and where the number of sittings required for the troops according to the scale above given is very large, the size of the church may be regulated so as to allow of at least one-half of the troops attending service at one time.

RULE 9.—The Government grants for churches will be calculated on the following basis. The executive engineer shall prepare a ground plan, which shall afford—

(a) accommodation for the total congregation to be provided for according to the scale laid down in rules 6 and 7, and allowing six superficial feet per sitting;

(b) passages, chancel, vestry, porch of such moderate dimensions as may be reasonable in each case, and verandahs where necessary;

(c) tower or belfry, as may be required according to the dimensions, general design, and locality of the building.

The maximum grant will be found by multiplying the cubic content of the approved design by a rate 15 per cent. in excess of the local rate per cubic foot for ordinary first class single-storied buildings of substantial construction, such as court-houses.

The cubic content of a building will be arrived at by multiplying the plinth areas of the different parts, such as main rooms, verandahs, tower, etc., by the heights from plinth to roof-level of these parts, and then by adding them together. In the case of a sloping roof the height will be measured to the mean height of the slope.

In addition to the above grant for the main building, the cost within reasonable limits of acquiring, laying out and enclosing the site, inclusive of roads, culverts, drains, latrines, compound wall, gates, well of an inexpensive kind, and any other subsidiary work which may be considered to be legitimate, may be authorised by the Government of India as a State charge.

## CIVIL STATIONS.

RULE 10.—At the chief civil station of a district, where there are at least 25 European British-born subjects (as defined in section 4 (i) of the Criminal Procedure Code, 1898), Protestants or Roman Catholics, as the case may be, in the general service of Government, and where no suitable church provision for them exists already, the Government will contribute towards church accommodation upon the following terms :—

| (1)<br>*Number of sittings required.* | (2)<br>*Maximum Government grant.*<br>Rs. |
|---|---|
| 25 | 2 000 |
| 50 | 3,500 |
| 100 | 5,000 |
| 150 | 6,000 |
| 200 | 7,000 |
| 250 | 8,000 |
| 300 | 9,000 |
| 350 | 10,500 |
| 400 | 12,000 |
| For any excess over ... ... 400 | Rs. 30 per seat in excess. |

NOTES.—(1) When the number of seats to be provided lies between any two numbers given in the table the grant for the portion of the whole number of seats represented by the lower numerical figure in the table will be the grant shown against that figure, the rate per sitting for the excess number of seats over such lower figure being arrived at by dividing the difference between the maximum grant shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus for 110 seats the Government grant for 100 seats will be Rs. 5,000 and for the remaining 10 at the rate of $\frac{6{,}000-5{,}000}{150-100}$ =Rs. 20 per seat.

(2) As a rule, only one Protestant and one Roman Catholic church will be provided. In the case of Protestant churches accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government, and pensioned soldiers and their families may be taken into account : two children being counted as one adult.

(4) In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State, but no grant for more than 200 sittings will be made except at seats of local Governments and Administrations, or at hill sanitaria. In the latter case, the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a church of greater accommodation than 200 sittings.

RULE 11.—No Government grant for a church in a civil station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the church.

## RAILWAY STATIONS.

RULE 12.—Whenever there are, at any State railway station or depôt, so situated that other church accommodation does not exist or is not available with reasonable convenience, at least 25 persons in the railway service who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion, whether Protestant or Roman Catholic, churches will be provided by the Government for them in accordance with rules 4, 5 and 8; the number of sittings being calculated on the principle, *mutatis mutandis*, of rule 10, notes (2) and (3), and the grant being in conformity with rule 9.

RULE 13.—Whenever such separate churches are not required, church accommodation for any such persons may be provided in the plans of any church which is about to be erected at a military or civil station ; but in the case of a church at a civil station, the restrictions in rule 10, note (4), and in rule 11, shall not apply in respect of the numbers of, and grants for, such persons.

RULE 14.—In cases where a State railway station or depôt is considered by the railway administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided, as the Railway Department may, in each case, sanction.

NOTE.—Rules 12 to 14 apply only to State railways worked by the State and in other cases when the State is in the position of the employer of labour.

RULE 15.—In the case of church accommodation for servants of a railway not worked by State agency and not falling within the note to rule 14, it will be within the discretion of the Board of Directors or other duly empowered representative of the Company, with the approval of the Government of India, to provide funds for church accommodation under rules 12 to 14. In such cases the cost will be chargeable to the capital or revenue account of the railway as the circumstances of each case may suggest.

## GENERAL.

RULE 16.—It is desirable, whenever such a course will not be attended by inconvenience, to combine the civil or railway with the military church of a station, the grant allowed for the church accommodation of the British troops or State railway servants before given being supplemented by a grant according to the scale shown in rules 10 and 11, or 12 to 15, as the case may be. In special cases buildings may be rented for divine service with the previous sanction of the Government of India.

RULE 17.—In addition to church accommodation as above prescribed, a house for the chaukidar or resident bearer may be provided. In cases, however, where the church is distant from the bazar, and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the church compounds; but when within them, they should be erected in keeping with the other church buildings.

RULE 18.—Grants for ecclesiastical buildings will be sanctioned only by the Government of India in the Public Works Department.

RULE 19.—The scales of accommodation and expense for all churches above laid down are in no case to be exceeded without a reference to the Government of India.

RULE 20.—Church accommodation will not usually be provided at the expense of the State for non-official residents, either British-born Europeans or others, or for official residents other than British-born or State railway servants.

RULE 21.—When private contributions are combined with a Government grant towards building a church, the procedure to be adopted is as follows:—

(*a*) (1) Under ordinary circumstances, the amount of private contributions being known, a definite design and estimate will be prepared by the executive engineer and submitted for sanction in the usual way, the limit by which the executive engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding rules, and the amount of private contributions actually realised.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government treasury, or guaranted by sufficient security, and carried to credit of deposits in the accounts of the department.

NOTE.—In the case of a grant from the Church Building Fund for the diocese of Calcutta a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or Administration concerned respecting the precise date on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as a grant-in-aid of private contributions, and the responsibility of officers of the Public Works Department or Military Works Services with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

NOTE.—In the case of State railways, the functions assigned in this and succeeding rules to the executive engineer will devolve on the manager.

(*b*) (1) In special cases, however, the Government grant for a church may, with the sanction of the Government of India, be treated as a grant-in-aid of private contributions raised for a church intended for the use of Government servants within the meaning of these rules are partly for the use of non-official residents or others for whom grants are not admissible under these rules.

(2) In such cases the plans and specifications shall be submitted to the executive engineer for the approval of the proper officers in the Public Works Department or Military Works Services, who shall sanction them on satisfying themselves that they are safe and suitable and can be executed for the estimated amount. The construction of the building may then be left to the managers or trustees of the private contributions raised, with whom must rest the responsibility for excess,

if any, over the amount of this sanctioned estimate. The grant-in-aid will be paid by the civil department on the certificate of the executive engineer, *vide* rule 21 (*b*) (3) below, and adjusted as a civil charge under the head "23—Ecclesiastical" as stated in rule 1 above.

(3) In such cases the grant will ordinarily not be paid in full by the civil account officer until the executive engineer has certified that the building has been completed in accordance with the sanctioned plans and specifications, and the trust deed referred to in clause (4) below, where required, has been duly executed; but the executive engineer may authorize advances out of the sanctioned grant on receiving sufficient proof that the building is proceeding satisfactorily, and on the managers or trustees certifying that all subscriptions relied on in support of the application for the grant have been paid up in full or guaranteed by sufficient security.

(4) When a grant is made under clause (*b*) of this rule for a church intended partly for the use of non-official residents and others for whom grants are not admissible under these rules, there shall be a trust deed, duly executed by the Chief Magistrate of the district in which the church is situated and the chaplain and registered,—(1) declaring that the building is granted in trust for church purposes only; (2) giving to Governmant a prior lien on the building for the recovery of the grant in the event of the former being diverted to other purposes; (3) providing for the legal ownership of the building; and (4) indicating sufficient sources for its proper maintenance.

RULE 22.—In any case in which a church is built partly from private contributions and partly from a Government grant, the Government is entitled at any time to require that a proportion of the seats in the church, not exceeding the proportion which the Government grant bears to the whole expenditure incurred in building the church, shall be reserved for troops and other Government servants who may be allowed free seats under rule 27.

NOTE.—This rule does not apply to cases in which pewage reduced by the amount of interest calculated at 4 per cent on the Government grant towards the cost of construction is paid on account of seats used by troops.

RULE 23.—The preceding rules shall apply, as far as may be, to the enlargement of existing churches.

RULE 23A.—Local Governments including the Director-General of Military Works are authorised to incur, when necessary, expenditure which is in excess of that permissible under, or is not covered by, the preceding rules, up to a limit of Rs. 500 in each case, on the understanding that this sum represents the maximum aggregate expenditure which may be sanctioned by them for additions and alterations to any one church.

## CHURCH FURNITURE.

RULE 24.—The supply of church furniture will be regulated by the following rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the rules laid down for that purpose:—

(1) Each Protestant church, civil, railway or military (cathedrals excepted), will be supplied by the Public Works Department with the following articles of furniture, the cost of which will be allowed in addition to the grant for the building. The renewal and repair of such articles will also be provided for by the Public Works Department subject to the conditions of rule 27:—

| | Maximum cost<br>Rs. |

(*k*) One bell of reasonable size to summon the congregation to church, at a cost not exceeding Rs. 300, for a first class church (*viz.*, those containing more than 400 sittings), and Rs. 200 for a second class church (*viz.*, those containing not more than 400 sittings).

| | |
|---|---|
| (*l*) Chicks or bamboo blinds for doors and windows where absolutely necessary. | At market rates. |
| (*m*) Matting where absolutely necessary for churches with terraced floors. | |

The "reading desk" should be simply a desk (however appropriately shaped) and not an enclosure, expensive from its size and occupying needless space.

(2) The civil department will provide the following articles of service on the executive engineer's certificate of the necessity of supply. The renewal and repair of such articles will also be provided for by the civil department, subject to the conditions of rule 27, and on the production of the executive engineer's certificate as to the necessity for the expenditure :—

| | Rs. |
|---|---|
| * Suitable set of communion plate ... ... ... | 150 |
| A strong box to be made in India, which may be locally purchased, for the custody of the communion plate, and also for records ... ... ... ... | 150 |

| * Bibles and prayer-book for the clergyman ... ... | 50 |
| * Fair linen cloth and napkins for the communion service ... | 35 |
| * Two service books for the communion table ... ... | 30 |

*NOTE 1.—Where the congregation choose to contribute in order to procure any of these articles (or those mentioned in clause I) of a richer design or material, the fixed grant may, if so desired, be paid to the chaplain, and the purchase of the articles left to his and their joint discretion.

NOTE 2.—The cost of re-gilding articles of plate supplied under clause 2, rule 24, will be met by the civil department subject to the conditions of rule 27, and on the production of the executive engineer's certificate as to the necessity for the expenditure.

(3) In cathedrals of the Church of England, the renewal and repair of furniture and articles of service shall be provided out of the fixed monthly grants made by the civil department towards the maintenance of service, supplemented, if necessary, by contributions from the congregation.

(4) Each Roman Catholic church built by Government, civil, railway or military, will be supplied by the Public Works Department with the following articles of furniture, the cost of which will be allowed in addition to the grant for the building. The renewal and repair of such articles will also be provided for by the Public Works Department, subject to the conditions of rule 27 :—

| | Maximum cost Rs. |
|---|---|
| (*a*) One bookstand ... ... ... ... | 8 |
| (*b*) One almirah for altar vestments, etc., at least 4 feet long by 2 feet 5 inches broad ... ... ... | 45 |

| (m) One bell as in (k), clause I | |
| (n) Chicks or bamboo blinds for doors and windows where absolutely necessary. | At market rates. |
| (o) Matting, where absolutely necessary, for churches with terraced floors. | |

A second altar table may be supplied to churches intended to accommodates more than 500 persons.

(5) The following articles of service will be supplied to Roman Catholic churhes by the military department on the executive engineer's certificate of the necessity of original supply. The renewal and repair of such articles will also be provided for, subject to the conditions of rule 27, and on the production of the executive engineer's certificate as to the necessity for the expenditure. The articles required for churches at military stations will be supplied and repaired or renewed by the military department, and those for churches at civil and State railway stations by the civil department :—

| | Rs. |
|---|---|
| (1) One tabernacle, inside covered with silk ... ... ... | 150 |
| (2) One pyx with silver cup, inside gilt ... ... ... | 100 |
| (3) One chalice ... ... ... ... ... | 100 |

| (11) Two copes, one white and one black, of silk ... ... ... | 120 |
| (12) Humeral for benediction ... ... ... ... | 30 |
| (13) Altar linen, comprising albs, altar covers, communion cloth, etc. ... | 80 |

NOTE.—The cost of re-gilding articles of plate supplied under the foregoing rule will be met by the military or civil department, subject to the conditions of rule 27, and on the production of the executive engineer's certificate as to the necessity for the expenditure.

(6) Churches rented by Government or Government buildings set apart temporarily as churches, for the use of European troops or European-born subjects in the service of Government, or of State railway servants, should be supplied by the departments concerned (*vide* clauses 1, 2, 4 and 5) with such church furniture and articles of service as are absolutely necessary for the performance of divine service. The number and description of the articles to be supplied should be determined by a committee, consisting of the chaplain, the executive engineer, and the chief local magistrate. In the case of churches for troops or for State railway servants, the senior military officer, or the manager of the railway, will take the place of the chief local magistrate.

The articles of furniture and service should be of the plainest description unless there is under construction by Government a church for which church furniture and articles of service would have to be supplied under clauses 1, 2, 4 and 5.

Articles supplied for use in temporary churches should be returned into store when the building ceases to be used as a church, unless they are required for supply to a permanent church built by Government.

(7) All applications for funds for the supply to Roman Catholic churches of the articles of service mentioned in clause 5 should be submitted through the Roman Catholic Bishop of the diocese in which the church is situated.

(8) The following articles of furniture will be supplied by the Public Works Department for lych-gates of Government cemeteries :—

| | Maximum cost.<br>Rs. |
|---|---|
| Two benches at Rs. 9 each ... ... ... ... ... | 18 |
| One small table ... ... ... ... ... | 12 |
| Two chairs at Rs. 5 each ... ... ... ... ... | 10 |
| A wheeled bier ... ... ... ... ... | 350 |

NOTE.—In stations where no hearse or other suitable means of conveyance are available. the use of the bier is permissible for the conveyance of the dead to the cemetery.

(9) While the rates shown in clauses (1), (2), (4), (5) and (8) of this rule should not ordinarily be exceeded, local Governments may sanction excess expenditure on particular articles of furniture, provided that the excess is covered by savings on other articles, the supply of which is admissible under the rules and for which definite rates have been fixed.

RULE 25.—The executive engineer will be guided, in granting the certificate alluded to in clauses 2 and 5 of rule 24, by the following principles :—

*Class I, churches built by Government.*—The certificate should state that the church was built by Government for the use of European troops or European British-born subjects in the service of Government, or of State railway servants, and is still maintained for the same purpose.

*Class II, churches which have received building grants from Government.*—The certificate should state that the church received a building grant of Rs.——, equal to the——part of the total cost of the building, and that the grant was made on account of European troops or European British-born subjects in the service of Government or of State railway servants, and that the building is still used by them.

For this class of churches a proportion of the standard cost of the articles of service will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

*Class III, churches rented by Government and Government buildings temporarily set apart as churches.*—The certificate should state that the building is wholly rented by Government or is a Government building temporarily set apart as a church for the use of European troops or European British-born subjects in the service of Government, or of State railway servants.

NOTE—The required certificates should afford information as to when the article was originally supplied and by whom, and the reason for recommending its renewal. When however, Government pay for the use of a certain varying number of seats in a church, the hire of the seats should include everything necessary for the performance of service.

RULE 26.—When a church, whether Protestant or Roman Catholic, is to be furnished, the executive engineer should communicate with the ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of articles to which note 1 to clause (2) of rule 24 applies, which may be purchased as therein allowed.

In cases in which articles of furniture supplied wholly or in part from Government funds are considered to have become obsolete or unsuitable, though not necessarily unserviceable, they may, with the previous approval of the local Government, be sold and the sale proceeds utilized towards the cost of replacing them, provided always that sufficient private subscriptions are forthcoming to ensure the replacement of the old articles by new ones of greater value or more appropriate design.

RULE 27.—Government will not ordinarily undertake the cost of the renewal and repair of furniture and articles of service in churches, which are not primarily intended for the accommodation of troops. Where pew rents are charged, the cost of such renewals and repairs will be met from the pew rent fund ; where pew rents are not charged, it is expected that the cost will be met from contributions by private persons and members of the congregation. In churches in which a portion of the seats are actually reserved by Government for troops or other Government servants entitled to free seats, the Government will pay a share of the cost of renewals and repairs equal to the proportion which the number of seats so reserved bears to the whole number of seats in the church. Seats will be reserved by Government under this rule only for troops and military officers on duty with troops, and for such Government servants of the classes described in rule 10, and State railway servants of the classes described in rule 12, as cannot afford to pay for seats. But all Government servants (other than troops and military officers on duty with them), who are in a position to pay for seats, will be liable to be charged pew rents.

RULE 28.—In cases in which articles of furniture belonging to a Government church are stolen, an immediate enquiry should be held in view to ascertaining whether the loss was caused through the negligence of the person responsible for the custody of such furniture. In the case of Protestant churches at civil or railway stations, the enquiry should be conducted by the chaplain and the members of the church committee; and in the case of Roman Catholic churches at such stations, by the chaplain in charge and the chief civil officer of the place, or such other person or persons as the chief civil officer may nominate for that purpose. As regards Protestant and Roman Catholic churches in cantonments, the investigation should be made by a committee assembled under the orders of the officer commanding, as is the case in respect of all other enquiries into loss of Government property, the chaplain in charge being invited either to be a member of the committee or to give evidence before it.

(2) If the result of the enquiry should be to show that the loss was occasioned by negligence on the part of the person responsible for the custody of the furniture, such person should, if possible, be required to make good the loss: or if it should appear that the loss was due to circumstances beyond the control of the responsible officer, then the Government of India will be prepared to consider an application for the replacement, at the public expense, of the articles stolen. Such application should be submitted through the ordinary channels, and should be accompanied by a full report of the enquiry.

RULE 29.—The care of church clocks is to be charged against the pew rent fund, where it exists. Where no such fund exists, the cost of maintaining the clocks will be borne by Government.

RULE 30.—The pay of chaukidars of churches will be disbursed through chaplains.

RULE 31.—Anglican and Roman Catholic churches are under the control of the Bishop of the diocese in respect to the erection of tablets, ornaments, etc., while in course of construction, as well as after completion and consecration.

## OWNERSHIP AND REPAIR OF CHURCHES.

RULE 32.—All churches built under these rules, except rule 21, clause (*b*), shall be considered the property of Government.

As a general rule, all churches, whether Protestant or Roman Catholic, which have in past times been built by Government, are the property of Government.

Churches whether built wholly by private contributions or by such contributions jointly with State grants, which have been borne for a series of years on the books of the Public Works Department or Military Works Services and have been repaired and otherwise dealt with, unchallenged, as Government buildings, shall be deemed to be the property of Government.

Churches built wholly or in part by private contributions which have not been so borne, repaired or dealt with, but which may be taken over on behalf of Government, under sanction of competent authority, shall be brought on the books of the Public Works Department or Military Works Services as the property of Government.

RULE 33.—All churches which are the property of Government shall be in charge of the executive engineer, and shall be repaired under the ordinary rules of the Public Works Department.

In every case in which any alteration in a church belonging to Government, which affects its structure or its permanent fittings, may be desired by the chaplain or other clergy, the executive engineer must be consulted and his consent obtained in writing before the alteration is carried out.

## COMPENSATION FOR ACCOMMODATION IN CHURCHES NEITHER BELONGING TO, NOR RENTED BY, GOVERNMENT.

RULE 34.—The rate of compensation for sittings for Protestant and Roman Catholic soldiers is fixed at Rs. 7 per seat per annum. Broken periods within the year shall be counted as a year; but when sittings are occupied consecutively for any period exceeding twelve months, payment will be made for the number of months in excess of the year, for which the sittings are so occupied, at the rate fixed for the year.

NOTE 1.—The payment should, as far as possible, be regulated by the official year.

NOTE 2.—Whenever a church has been built with the aid of a grant from Government under rule 21 (*b*), the pewage otherwise admissible for seats occupied in that church will be reduced by the amount of interest calculated at 4 per cent on the sum contributed by Government towards the cost of its construction.

RULE 35.—The number of sittings for which compensation is allowed will be regulated by the highest attendance at a parade service during the year of soldiers and their families (two children up to the age of 16 being counted as one adult) actually quartered in the station, subject to the following maximum limits:—

| Unit | Church of England, Church of Scotland and other Protestant denominations recognised by the Government of India | Roman Catholics |
|---|---|---|
| Battalion of British Infantry ... ... ... ... ... | 450 | 340 |
| Head-quarters Wing, British Infantry ... ... ... ... | 200 | 190 |
| Detached Wing, British Infantry ... ... ... ... ... | 200 | 150 |
| Regiment of British Cavalry ... ... ... ... ... | 275 | 210 |
| Battery of Royal Horse or Field Artillery ... ... ... ... | 70 | 55 |
| Garrison Company, Royal Artillery ... ... ... ... ... | 65 | 50 |
| Mountain Battery, Royal Artillery ... ... ... ... ... | 50 | 35 |
| Heavy Field Battery, Royal Artillery ... ... ... ... | 45 | 35 |
| Convalescent depots and miscellaneous detachments, per section of 100 men ... | 45 | 35 |

NOTE.—These numbers include soldiers' families.

RULE 36.—Compensation may be charged for sittings provided for British-born commissioned and non-commissioned officers (including families) employed on the staff or with Indian regiments, in addition to the number of sittings for which compensation is admissable under rule 35.

RULE 37.—Compensation may, under the conditions of rule 34, be paid for Protestant or Roman Catholic State railway servants for whom church accommodation has not been provided by Government; the number of sittings for which compensation may be allowed being regulated by the highest attendance on any one occasion during the year of railway servants and their families (two children up to 16 being taken as one adult) who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion.

RULE 38.—Local Governments and Administrations are authorised to sanction the payment of compensation for sittings on the condition that the rules are strictly observed, and that all cases in which the application of the rules is doubtful are submitted for the orders of the Government of India. Applications for compensation must be supported by a certificate from the officer commanding the station or the manager of the railway of the number of soldiers or State railway servants, and their families for whom accommodation has been obtained under rules 35, 36 and 37.

RULE.—39.—The outlay will appear in the departmental budget estimates and accounts under head of Civil Buildings—Repairs.

## APPENDIX A.

*Home Department Resolution Nos. 6-370-382 (Ecclesiastical), dated Simla, the 9th November 1876.*

Read—

The Home Department Resolution Nos. 314 to 318, dated 6th October 1875, appointing a committee to report upon the following matters connected with ecclesiastical administration :—

(1) The framing of joint estimates for expenditure on cemeteries or churches by the executive engineer and clergyman in charge.
(2) A revision of establishments for cemeteries according to their area.
(3) The size of monuments and amount of ground that may be enclosed.
(4) The provision for planting cemeteries and preserving them in decent order.
(5) Mode of supply of certain articles of church furniture.
(6) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read—

The report of the committee, dated 29th October 1875.

RESOLUTION.—The report of the committee has been considered by the Governor-General in Council, who desires to express to the committee his satisfaction at the result of their labours.

The following rules have been approved relative to the subjects referred to the committee for report :—

1. Churches and Cemeteries have already been divided into two classes :—(1) those in stations where there are military cantonments and the military works which are under charge of the *Director-General of Military Works*; and (2) those in other military cantonments and civil stations.

Public Works Department, No. 486-A.G., dated the 13th July 1874.

In both classes of stations joint estimates * of expenditure should be framed annually by the undermentioned officers :—

(a) In the case of all expenditure connected with the establishments, *e.g.*, pay of servants; alterations in their pay or number; etc; also all expenditure by Government connected with the provision of articles of church furniture supplied by the civil department.

(Financial Department Resolution No. 87, dated the 9th January 1875.)

By the chief magistrate of the district and by the chaplain.

* The estimates should be for the financial year, and should be prepared in advance as is prescribed for other budget estimates.

NOTE.—Modifications of the original orders are shown in italics.

Funds for the above will be provided by the Civil Department.

(*b*) In the case of all expenditure connected with (*a*) repairs and additions to church fabric, to church compound or cemetery walls, to church or cemetery gates, walks, wells, chaukidars or other church servants' houses, (*b*) provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department.

By the executive engineer and by the chaplain.

(Financial Department Resolutions, No. 87, dated the 9th January 1875; No. 2024, dated the 31st March 1875; and No. 675, dated the 9th February 1876.)

Funds for the above will be provided by the Public Works Department.

The estimates of expenditure to be prepared by the executive engineer and the chaplain should show distinctly the probable charge under each of the following heads:—

(I) New works connected with additions to existing churches and improvements to Church compound.
(II) New supplies of furniture for churches and sanctioned articles of church use.
(III) New works connected with additions to existing burial-grounds.
(IV) Repairs to churches and church furniture and maintenance of church compound.
(V) Repairs to burial-grounds to be executed by Public Works officers.
(VI) Repairs to burial-grounds, including planting and cleaning, to be entrusted to the chaplain or chief civil or military officer of the station or cantonment, under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the budget estimate of the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the superintending or chief engineer or local Government or Administration, according to the rules in force in the Public Works Department.

*The incidence of cost of burial-grounds is given in Volume I, paragraph 829, of the Public Works Department Code, and provision will accordingly be made for such charges in the Imperial or Provincial Budget Estimates as the case may be.*

2. The following scale of establishments should be maintained at all cemeteries:—

(I) For a cemetery of which the area is 5 acres or less, one mali-chaukidar;
(II) For a cemetery of which the area is more than 5 and less than 10 acres, one mali-chaukidar and one assistant coolie;
(III) For a cemetery of which the area in more than 10 and less than 15 acres, one mali-chaukidar and two assistant coolies; and
(IV) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

Where the above scale of establishment is considered insufficient for preserving a cemetery in decent order, the local Government may, subject to the ordinary rules regulating its financial powers, sanction the employment (permanent or temporary) of an additional assistant coolie in each of the cases mentioned above.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. *The charge will be included in the Civil Budget Estimate under Imperial or Provincial, as the case may be.*

* * * * * * * *

4. No portion of the receipts from cemeteries and church compounds should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the civil treasury to the credit of Government under "XXXI—Civil Works," Imperial or Provincial, as the case may be. But the amount passed upon the joint estimate framed by the executive engineer and chaplain to provide for planting a cemetery and preserving it in decent* order should

---

* NOTE—The term "decent order" means that Government will provide for the ordinary planting of trees and shrubs and their up-keep including reasonable expenditure on watering [including, when necessary, the employment of bullocks and attendants], necessary implements and plants. The outlay on operations having for their object the ornamentation or embellishment of cemeteries or the maintenance of a high standard of gardening should be met otherwise than from State Funds.

be entrusted to the chaplain where there is one. Where there is no resident chaplain, the amount should be placed at the disposal of the chief magistrate on the spot, or of the senior military officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the executive engineer concerned to the chaplain or civil or military officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the executive engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the miscellaneous advance account of the executive engineer. All planting of shrubs and trees* by private persons in cemeteries should be under the control of the chaplain if resident, otherwise under that of the magistrate or senior military officer, as the case may be. When practicable, a well should be sunk in or near every cemetery.

* * * * * * * *

5. It should be understood that the Government cannot provide cemeteries at the public expense for native Christian communities.

NOTE.—Where their number is small the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's consideration whether, if the necessity of dealing and the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

*Finance Department resolution No. 2202 (Expenditure), dated Simla, the 15th August 1876.*

Read certain papers relative to the reduction of minor charges on account of church establishments in India.

RESOLUTION.—After consultation with the several local Governments and Administrations it was decided in February 1875 to reduce the cost of church establishment in India. To carry out this decision, the scale of charges (shown in the margin) was fixed for general adoption, with the reservation that in some places somewhat higher charges might be allowed under exceptional circumstances; and that in the case of third class (non-military) churches, with fluctuating and very limited congregations, a moderate fixed allowance might be granted for lighting and sacramental elements. In accordance with this decision, the several local Governments and Administrations were requested to submit a fresh classification of military churches, and a scale of charges in accordance with the principles thus laid down.

First class (churches, the property of Government, containing more than 400 sittings at stations where there are European troops):—

| | Rs. |
|---|---|
| 1 clerk ... ... | 12 |
| 1 chaukidar-bearer ... ... | 6 |
| 1 water-carrier ... ... | 5 |
| 1 sweeper ... ... | 4 |
| Lighting ... ... | 20 |
| Total ... | 47 a month. |

Second class (churches, the property of Government, containing less than 400 sittings at stations where there are European troops):—

| | Rs. |
|---|---|
| 1 chaukidar-bearer ... ... | 5 |
| 1 sweeper ... ... | 4 |
| Lighting ... ... | 10 |
| Total ... | 19 a month. |

Third class (churches, the property of Government, at stations with no troops, or with only Native troops):—

| | Rs. |
|---|---|
| 1 chaukidar-bearer ... ... | 5 |

2. After consideration of the reports called for, the Governor-General in Council is pleased to pass the following orders.

---

Home Department letter to the Ven'ble the Archdeacon of Calcutta, No. 110, dated 22nd May 1883.

* In regard to churches and cemeteries situated within the limits of a military cantonment the Government of India have decided—

(1) that the chaplain is required to obtain the permission of the officer commanding the station before ordering a tree to be cut down in a cemetery or church compound situated within the limits of a cantonment;

(2) that the officer commanding the station may order a tree to be cut down in the cemetery or church compound without the chaplain's concent;

(3) that it rests with the chaplain to sell the trees cut down in the cemetery or church compound the proceeds being paid in, as required by the standing rules, to the civil treasury to the credit of the Public Works Department; and

(4) that the consent of the Cantonment authorities should be obtained in respect of all repairs or alterations over which they may exercise control under Chapter VII of the Cantonment Code, 1912.

Home Department letter to the Ven'ble the Archdeacon of Calcutta, No. 148, dated the 26th June 1883.

These orders, however, do not interfere with the duty of the chaplain to see that the cemetery is kept clean of rank vegetation, shrubs, and undergrowth which are not included under the designation of trees.

3. If a clerk is now employed in any second class military church he need not be dismissed; the full reduction of the establishment must await the occurrence of a vacancy.

4. In Madras, including Mysore, but excluding Berar, there are 56 churches* and the cost of establishments on the scale laid down by the Government of India would amount to Rs. 700 a month as against a present charge of Rs. 1,917¼. The Government of Madras recommend, however, that the pay of chaukidar-bearers be fixed at Rs. 7 instead of Rs. 5 each a month; that an establishment of Rs. 47 a month be allowed to the church at Black Town; and that to five of the remaining thirty-six 3rd class non-military churches, the marginally noted† special allowances be allowed. These proposals are approved with effect from 1st April 1877. A tabular statement showing the financial results of the measure, and including, as a temporary charge, the pay of such clerks as are now on the establishments of the 2nd class military churches, should be forwarded for formal sanction.

| | Number of churches. |
|---|---|
| *1st class (military) | ... 8 |
| 2nd „ „ | ... 6 |
| 3rd „ (non-military) | ... 42 |
| Total | ... 56 |

| | Rs. |
|---|---|
| †1 bearer ... | ... 7 |
| 1 sweeper ... | ... 5 |
| Lighting allowance | ... 18 |
| Total | ... 30 each. |

5. The Government of Bombay propose (1) to raise the pay of chaukidar-bearers; (2) to allow a peon to each chaplain; (3) to retain clerks for 2nd class military churches; (4) to do away with water-carriers and sweepers, and provide for the duties from the contingent allowance of Rs. 20 a month for lighting for 1st class churches; and (5) to allow a small contingent allowance to poor 3rd class non-military churches. The tabular statement submitted by the Bombay Government also shows other variations from the standard scale fixed in 1875. The Governer-General in Council regrets that he is unable to sanction peons for chaplains in Bombay; but he is pleased to sanction the following scale for adoption in the Bombay presidency from 1st April 1877, with a request that a tabular statement showing the charges now made may be forwarded to Government for communication to the audit department:—

| — | 1st class military churches | 2nd class military churches | 3rd class military churches |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| 1 clerk ... ... ... ... ... | A | ... | ... |
| 1 chaukidar-bearer ... ... ... ... | 7 | 7 | 7 |
| Contingent allowance to cover lighting, and sweepers' and water-carriers' wages. | 20 | 10 | B |

A.—On the pay proposed by the Archdeacon of Bombay.

B.—A list of the poorer churches, for which a special contingent allowance is asked, should be entered in the tabular statement.

6. The proposal of the Government of Bengal in respect to the six military (1st class) churches, including the two within Fort William, for which the authorised allowance of Rs. 47 a month is considered to be sufficient, is sanctioned with effect from the 1st April 1876; Rs. 100 a month is also allowed for each of the four (3rd class) non-military presidency churches‡, from 1st April 1877, for two years, subject to reconsideration at the end of that period; and an allowance of Rs. 55 a month is sanctioned for St. Stephen's church, Kidderpore, and the church at Howrah, on the same terms. Considering the peculiar character of St. Andrew's kirk in Calcutta and its use by the military, the recommendation of the Reverend Mr. Thomson for an allowance of Rs. 100 when there are two chaplains, and Rs. 185 a month when there is one, is approved from the same date. The necessity for so large an allowance as§ Rs. 32 a month for the care of the clock must be further established. The entire services of a competent native artisan could probably be secured for a much smaller sum.

‡St. John's.
Old Church.
St. James's.
St. Thomas's.

§This charge was subsequently accepted by the Government of India as an ecclesiastical charge and as part of the church allowance which is given in consideration of the benefit derived by the public from the use of the clock. Letter to Government of Bengal, No. 316, dated the 27th September 1877.

7. In respect to the non-military (3rd class) churches in Bengal, the Governor-General in Council considers that the scale laid down in February 1875 should be more closely adhered to than is proposed by the Government of Bengal. The exceptional allowances there contemplated were intended only for churches with *fluctuating and limited congregations* and not for general adoption. The churches at Dacca, Cuttack, Berhampur, and other palces do not appear to be of this class. His Excellency in Council desires, therefore, that the Government of Bengal will submit a tabular statement more in accordance with the scale laid down in February 1875, and showing the financial results of the arrangements now sanctioned for church establishments in Bengal.

8. The classification of churches, submitted by the Government of the North-Western Provinces, shows that there are 36* churches, the proposed cost for the establishment of which is Rs. 670. But it appears doubtful if this classification includes the Episcopalian and Presbyterian churches at Allahabad. This should now be made clear; and the church at Chunar should be ranked as a 3rd class (non-military) church, and not as a second class military church. The usual tabular statement should also be submitted showing the financial result of the charges now authorised with effect from the beginning of the next financial year.

*7 (1st class) military; including three Roman Catholic churches; 14 (2nd class) military, including three Roman Catholic churches; and 15 (3rd class) non-military churches.

9. There are 48 churches in the Panjab, and the cost of the establishments proposed for them is Rs. 878 a month. It is also recommended that Rs. 50 a month may be placed at the disposal of the Government of the Punjab for allotments when necessary, to the poorer 3rd class (non-military) churches. The proposals of the Government of the Punjab are sanctioned with effect from 1st April 1877. The usual tabular statement should be submitted.

10. There are 15 churches in the Central Provinces, the cost of the establishments of which is Rs. 205 a month. Revised establishments as shown below are sanctioned for these churches, resulting in an increase of Rs. 17 a month over the existing charge.

| — | Existing cost per mensem | Now sanctioned per mensem |
|---|---|---|
| | Rs. | Rs. |
| 1st class church at Kamptee ... ... ... ... ... | 71 | 47 A |
| Ditto at Saugor ... ... ... ... ... | 39 | 47 |
| 2nd class church at Jubbulpore ... ... ... ... ... | 38 | 31 B |
| Ditto at Sitabuldi, Nagpur ... ... ... | 40 | 31 |
| 3rd class church at Narsingpur, Nimar and Seoni ... ... ... | 17 | 18 |
| Ditto 1 Chanda, 2 Wardha, 3 Bhandarra, 4 Raipur, 5 Hoshangabad, 6 Damoh, 7 Betul, and 8 Chindwara. | ... | 48 |
| Total ... | 205 | 222 |
| | Increase ... | 17 |

A.—As detailed in paragraph 1 of this resolution.
B.— Ditto *plus* the pay of a clerk, temporarily, as sanctioned in paragraph 3.

11. The Chief Commissioner of British Burma submits a list of church establishments in that province, and recommends "that the establishments should be restricted to the scale fixed by the Government of India; but that the rates of pay should be in accordance with those which are customary throughout Burma, where the cost of living is greately in excess of that of India". He also recommends that an allowance of Rs. 30 a month may be granted to the Roman Catholic Church at Thayetmyo. In accordance with these recommendations the establishments

noted below, which are in conformity with the scale laid down in February 1875, are sanctioned for the churches in British Burma with effect from 1st April 1877:—

| | 1st class Rangoon church | 1st class Rangoon town | 1st class Thayetmyo Protestant church | 2nd class Thayetmyo Roman Catholic church | 1st class Toungoo | 3rd Class | | | | Total |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | Bassein | Moulmein | Akyab | Kyoukphyoo | |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| 1 clerk ... | 12 | 12 | 12 | ... | 12 | ... | ... | ... | ... | 48 |
| 1 chaukidar-bearer ... | 10 | 10 | 10 | 10 | 10 | 10 | 10 | 8 | 8 | 86 |
| 1 water-carrier ... | 9 | ... | 10 | ... | 8 | ... | ... | ... | ... | 27 |

| | | | | | | | | | Decrease ... | 138-2 |

12. In addition to the higher rates of pay for chaukidar-bearers on account of the prevalent wages in the Hyderabad Assigned Districts, the Resident at Hyderabad proposes to add 8 peons at a cost of Rs. 56 a month to the authorised scale of church establishments. The Governor-General in Council regrets that he is unable to depart from the scale already fixed, but is pleased to sanction the other proposals as shown below from the beginning of the financial year:—

| | Clerk | Chaukidar-bearer | Water-carrier | Sweeper | Lighting, etc. | Total | Existing cost | Saving |
|---|---|---|---|---|---|---|---|---|
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |

* Till vacancy occurs.

13. The list submitted by the Chief Commissioner of Oudh shows that there are only six churches in Oudh—three of the 1st and three of the 2nd class. The proposed classification of these churches is approved, with effect from 1st April 1877; with a request that a tabular statement may now be forwarded.

14. The Chief Commissioner of Assam states that there are in Assam six 3rd class non-military churches, and proposes to pay the chaukidar-bearers at Rs. 10 each a month, remarking that "this is the lowest salary on which a servant can be entertained to perform the above duties in this province." The Governor-General in Council sanctions a chaukidar-bearer for each of the churches in Assam

on the pay of Rs. 6 each a month from 1st April 1877, and requests that the usual tabular statement may now be forwarded.

NOTE I.—The Government of India authorise local Governments and administrations to sanction higher rates of pay for church establishments, when the rates fixed in the above resolution are clearly inadequate.

NOTE II.—Roman Catholic churches or chapels, which are the property of Government and which do not receive the allowances for establishment, lighting, etc., admissible under Army Regulations, India, Volume I, Article 395, are entitled to receive the allowances set forth in the Finance Department Resolution No. 2202 of the 15th August 1876.

NOTE III.—When a first class church receives only an allowance of Rs. 23 a month under the military rules referred to in note II, it is entitled also to an allowance of Rs. 24 a month from civil funds, which may be paid to the chaplain or priest in charge of the church.

*Finance Department Resolution No. 4016, dated Simla, the 9th November 1881.*

Read—

Office memorandum from the Military to the Home Department (Ecclesiastical), No. 1618-S. D., dated the 17th October 1881, proposing a general rule to regulate the incidence of charges on account of clerical and menial establishments for religious services in connection with the troops.

The undersigned is desired to acknowledge the receipt of the docket from the Home Department, No. 75, dated 5th May 1881, on the subject of the provision of a clerical and menial establishment for Presbyterian religious service in connection with troops. The case in point is that of the 72nd Highlanders.

2. In reply he is to forward the correspondence marginally noted, and to suggest that as (in regard to the general question) there would seem to be some doubt as to the proper incidence of charges on account of such establishment, the present opportunity be taken to settle the question finally.

From the Adjutant General in India, No. 2795-B., dated the 29th June 1881.

From the Controller of Military Accounts, Bengal, No. 10612.

3. The present rule as regards chaplains is understood to be as follows, *viz*:—

The Church of England chaplains and the church establishments are paid in the civil department, even though employed in a cantonment solely for the use of the troops.

The pay of the Roman Catholic chaplains and of the Chapel establishments engaged in the service of the troops is borne by the Military Department.

The pay of Presbyterian chaplains and of the church establishments at ordinary stations is borne by the civil department, but the pay of Presbyterian chaplains with Highland regiments is a military charge.

4. It seems, therefore, to the Military Department right that the charge on account of establishments for the church services of Highland regiments should also be a military charge, when the chaplain employed in the services is paid by the Military Department, and that in all other cases where there is a service performed for Presbyterian troops by a civil Presbyterian, Wesleyan or other chaplain, the charge for his services and any temporary establishment should be borne by the civil department.

5. The Military Department cosiders that the above would be a clearly defined rule which would prevent the mistakes which appear to have been made on more than one occasion in regard to the debit of such charges, and the undersigned is to recommend its adoption to the Home Department.

RESOLUTION.—The rule proposed in paragraph 4 is sanctioned.

## APPENDIX B.

*Home Department Resolution Nos. 2—275 to 287 (Ecclesiastical), dated Simla, the 8th September 1875.*

Read the undermentioned correspondence relative to a proposed revision of the rules at present in force for the guidance of chaplains of the Church of England in regard to the burial of such persons as have laid violent hands upon themselves; and of those who having been members of the Roman Catholic church, have been refused burial by the priests of that church :—

From the Government of Fort St. George, No. 142, dated 12th June 1874, and No. 203, dated 28th August 1874.
To the Solicitor to Government, No. 327, dated 22nd September 1874.
From the Solicitor to Government No. 2316, dated 26th September 1874.
From the Lord Bishop of Calcutta, dated 13th January 1875.

RESOLUTION.—The first question was raised by the refusal of the Reverend C. H. Deane, Chaplain of Bangalore, to read the funeral service over a person who was found by a court of inquest to have committed suicide while in a state of temporary insanity.

2. The subjoined letter* from the Reverend C. H. Deane sets forth the ground of his refusal:

"When I answered your memorandum about the interment of the remains of the late Sergeant Spiers of the 18th Hussars, I was not aware that he had committed suicide. If, as I understand, there is no doubt that he poisoned himself, I regret to say that I shall not be able to officiate at his funeral. The Rubric before the burial service distinctly forbids it to be used for any that 'have laid violent hands upon themselves,' so that I have no option in the matter. The grave will be ready at 5 P.M., but no service can be used."

3. The view taken of the question by the Right Reverend the Bishop of Madras is stated in the subjoined letter.†

"I am directed by the Right Reverend the Bishop of Madras to acknowledge your communication of the 17th ultimo, forwarding copy of a letter from the Deputy Adjutant General, transmitting correspondence relative to the Reverend C. H. Deane's refusal to read the funeral service over the late Sergeant Spiers, 18th Hussars, who committed suicide.

"2. In reply I am desired to state that Mr. Deane seems to have been requested to perform the funeral without having been furnished with the customary death report or any intimation that it was a case of suicide.

"3. The coroner's warrant in itself appears to be 'no more than a certificate that the body is not demanded by the law, and that therefore the relations may dispose of it as they please.'—(Wheatly on the Book of Common Prayer.) It does not, therefore, indicate the duty of a clergyman, or place him under legal obligation to give to a body Christian burial.

"4. In keeping with this view, the Government notification in *Fort St. George Gazette*, June 11th 1850, page 623, when it intimates that 'the Reverend chaplains will in future consider the warrant of the coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the burial service over it,' adds, 'if it would be their duty, under ordinary circumstances, to perform that service.'

"5. What is the duty of a clergyman when requested to bury a person who has committed suicide is to be ascertained partly from the Rubrics of our church, which are binding upon the clergy and have the force of law; and partly from the limitations of recognised legal commentators.

"6. The Rubric at the opening of 'the order for the burial of the dead forbids a clergyman to use that service for any that have laid violent hands upon themselves.'

"7. In Burn's 'Ecclesiatical Law' it is laid down: 'Of this sort [suicide] are to be understood not all who have procured death unto themselves, but who have done it voluntarily, and consequently have died in the commission of a mortal sin; and not idiots, lunatics, or persons otherwise of insane mind.'

* To Mr. Knox, dated 2nd January 1874.

† To the Chief Secretary to the Government of Fort St. George No. 483, dated 24th March 1874.

"8. In the same book it is also stated that 'the proper judges whether persons who died of their own hands were out of their senses, are doubtless the coroner's jury.'

"9. In the case under consideration it appears that the Reverend Mr. Deane having regard only to the Rubric and *foro conscientiæ* accounting himself responsible for the interpretation of it, refused to bury the corpse even when he knew that the coroner's jury had returned a verdict of 'temporary insanity.'

"10. In this refusal, I am instructed to state that Mr. Deane has not, so far as the Bishop can ascertain, violated any law, but he has departed from a recognised custom in not accepting the verdict of the coroner's jury as a justification for the using of the church's service over the remains of Sergeant Spiers.

"11. Mr. Cripps, in his 'Practical Treatise on the law relating to the Church and the Clergy' [Ed. 1869]* states: 'No case appears ever to have occurred in which a clergyman who has refused to bury the corpe of one who has committed suicide insanity has been punished by the Ecclesiastical Law.' At the same time he adds: † 'It must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.'

*Page 793.

"12. In the absence of any court competent to visit with ecclesiastical punishment, the Bishop desires me to point out that it is very painful to a laborious and conscientious clergyman, such as Mr. Deane is, to deny the last offices of the church to one who has been under his spiritual charge, and it must, the Bishop thinks, be allowed that there was much in the circumstances of the present case to support the conclusion at which Mr. Deane arrived. I am, therefore, directed to say that His Lordship is disposed to take a lenient view of Mr. Deane's action, and the more so as those who are endeavouring to check the prevalence of intemperance in the army can ill-afford to lose any aid which a clergyman in the honest discharge of his duty can lawfully render."

4. The Government of Madras referred the whole correspondence for the information and orders of the Government of India.

5. The following brief statement of the English Law will be found sufficient for the present purpose:--By Common Law Christian persons are entitled to burial with the rites of the church. The Statutes passed from time to time for the uniformity of public worship have proceeded upon, though not expressly dealing with this state of things. The 68th of the Canons of 1603 recognises it and enjoins the clergy to act upon it. In that Canon occurs the exception of persons excommunicated for some grievous and notorious crime, and of whose repentance no testimony could be given. The Canons of 1603 are no part of the Statute Law, and it is only in a qualified sense that they are part of the law at all. But this Canon has been taken as truly expressing the ancient Common Law of the Church. The Books of Common Prayer have been embodied into the Statute Law by the various Acts of Uniformity, and Rubrics are authoritative guides when they speak on the question when the services are or are not to be used.

Down to the year 1661 there was no Rubric forbidding the perfomance of the burial service over any persons except persons excommunicated. The Rubric now in force was framed in the year 1661 and received the force of law from the Uniformity Act of 1662. It prescribes that "the office is not to be used for persons unbaptised or excommunicated, or who have laid violent hands on themselves."

7. The question now is whether the expression "have laid violent hands on themselves" includes all who have committed the overt act of suicide, or only those who have done so deliberately being in their sound senses and in a state in which moral responsibility attaches to them.

† Page 793.

8. In Mr. Cripps' † Treatise the following statement is made :—

The uniform practice, however, so far as it has been able to be ascertained is in accordance with the reasoning and opinion of Dr. Burn, and it must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.

9. The opinion of Dr. Burn will be found in his work on Ecclesiastical Law, Volume I, page 265. After referring to the ancient Canon which forbade Christian burial to those who violently put themselves to death, and stating that this rule was understood to apply to those who did the act voluntarily, Dr. Burn intimates that the Rubric should not be construed as severer than the preceding Ecclesiastical Law, and therefore should not apply persons of insane mind.

10. In the year 1809, the Court of Arches, speaking of the treatment of suicides, put it on the ground that they are supposed to die in the commission of mortal sin, and to have renounced Christianity. *Kemp* versus *Wickes*, 3 Phillimore, pp. 272, 273.

11. The Government of India have not been referred to, and do not know of any authority for holding that the words of the Rubric apply to persons who are not responsible for their actions. It is certain that the practice has not been to apply these words in that way.

12. Under the circumstances the Governor-General in Council comes to the following conclusions:—

(*a*) It is reasonable in this matter to regulate the conduct of clergymen of the Church of England, who serve the Government of India, by the law and practice of the Church of England.

(*b*) There is no authority for holding that the Rubric under consideration applies to those who have caused their own death when in a state of mental insanity. For holding the contrary there is the authority of commentators and of judical *dicta*. There is also the much greater authority derived from a usage which is very wide-spread and long continued, if indeed it is not quite unbroken. Testing the question by reason, it is only reasonable to hold that the framers of this Rubric did not intend as regards the burial of suicides to alter the law and practice that they found in existence or to visit with what must be considered as an ecclesiastical penalty, an act for which the doer is not responsible.

(*c*) Sincere respect is due to the scruples felt by conscientious men in performing a service of extreme solemnity. Nevertheless, it would not be reasonable that such scruples should prevail against the ancient law and practice of the Church of England which has been handed down to the present time, and which plainly authorises the use of the burial service over persons who have caused their own death while in a state of insanity.

"(*d*) *In such cases when the burial service is required to be read, the chaplain of the station should, at the time that his services are requisitioned, be furnished with a certificate under the hand of the District Magistrate, or in his absence the Magistrate of the next highest rank present, to the effect that he is satisfied that the deceased committed suicide while in a state of insanity. On receipt of such a certificate the chaplain will be bound to read the burial service.*"

13. The Governor-Genaral in Council must therefore require from all clergymen connected with the Government their conformity to this ruling.

14. The next point for consideration is the rule requiring chaplains to read the funeral service over the bodies of persons who, having died in the profession of the Roman Catholic faith, have been refused burial by the priests of that church. It is stated by the Bishops of Calcutta and Madras that the clergy of the Church of England look upon the rule as bearing hardly upon them, and they desire to have it reconsidered.

15. This rule was laid down in the year 1855 under the belief that the case was governed by positive law, *viz.*, the 68th of the Canons of 1603. But on reconsideration of the matter the Governor-General in Council is of opinion—*1st*, that the Canon in question which is founded on the English parochial system cannot for the purpose now under consideration be applied to the very different circumstances of an Indian station; and *2ndly*, that even if it were applicable, it would

---

NOTE.—Modification of the original orders is shown in italics.

not prevent the Government from establishing a different rule of conduct for Indian chaplains if found expedient.

16. The Governor-General in Council further thinks that for the case now under review a different rule is expedient. The chaplain of an Indian station does not stand to the residents in the station in the relation which the person of an English parish bears to his parishioners. It was expressly so ruled by the Court of Directors in their despatch on this subject bearing date the 30th October 1844. Chaplains have been ordered to abstain from endeavours to influence the religious tenets of Roman Catholic soldiers, and in one case a chaplain was compelled to resign the service for persisting in such endeavours.

17. As regards the chaplains themselves, it does not seem consistent that they should be compelled to perform duties towards the corpse of a man whom when living they were forbidden to approach in any pastoral relation, and the Governor-General in Council admits that the dissatisfaction which the chaplains have felt with the order of 1855 rests on reasonable grounds.

18. As regards other persons, it can hardly be agreeable to the feelings of either Protestants or Roman Catholics that the chaplains should be called into supply a service which the priest has refused. To Protestants it must seem that in so acting their church is lax and careless about the performance of its solemn rites. To Roman Catholics it can hardly be otherwise than offensive that a stranger, who in their eyes has no authority, should effect to give to a member of their church what the recognized authority of that church has thought fit to withhold. And neither community can wish it on account of any advantage to the dead man; not Protestants, because the whole notion of such an advantage is contrary to their tenets; and not Roman Catholics, because they do not attribute any spiritual character to the chaplain.

19. For the above reasons the Governor-General in Council is pleased to revoke the order issued in the year 1855, and he will request the military authorities to make arrangements for the decent burial of Roman Catholic soldiers to whom the rites of their church have been refused by the priests.

Home Department Resolution No. 275—287, dated the 8th September 1875, laying down certain rules for the guidance of chaplains of the Church of England in regard to the burial of suicides, etc.

Read also—

Office memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding, for an expression of opinion, a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:—

*1st,* that at stations where there is a Roman Catholic priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic soldier brought for burial, unless he be excused from doing so by the Rubrics and Canons of the Roman Catholic church: and that when the Roman Catholic priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the military authorities shall make proper arrangements for the decent interment of the corpse;

*2ndly,* that, where there is no Roman Catholic priest paid by the State the Protestant chaplain shall, if requested by the friends of the deceased, or by the officer commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant chaplains in India are excused from burying a deceased Protestant, *viz.*, dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier, on either of the three abovementioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic priest, make proper arrangements for the decent interment of the corpse;

*3rdly,* that, whenever, with or without furnishing any explanation of his reasons, a Roman Catholic priest paid by the State or a Protestant chaplain refuses to perform the funeral rites of his church over the body of a deceased Roman Cotholic soldier, the circumstances of the case should be fully reported by the military authorities for the consideration and orders of the Government.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraph 15 to 19, inclusive, of the resolution, dated 8th September 1875.

NOTES.—(1) The expression "proper arrangements for the decent interment of the corpse" in Rules 1 and 2 means that when both the Roman Catholic and Protestant chaplains refuse burial in a case of suicide by a Roman Catholic soldier whilst of unsound mind, the burial service should be read over the body by the officer commanding the deceased's company.

Letter to the Government of Madras, No. 347, dated the 31st October 1877.

(2) The intention of the passage "bound to bury the deceased according to the rites and ritual of the Church of England" in rule 2 is, that the service of the Church of England should be read over the body, if the Protestant chaplain is requested by the friends of the deceased to do so; but the rule does not in any way reimpose on Protestant chaplains the burden of reading the burial service over either soldiers or civilians to whom a Roman Catholic chaplain has refused burial. There is nothing to prevent a chaplain burying anyone if he chooses to do so, provided they are not unbaptized "even by lay baptism," excommunicated by the major excommunication, or declared to be *felo de se*, only the Protestant chaplain is no longer bound to do so.

Letter to the Government of Madras, No. 347, dated the 31st October 1877.

(3) The expression "unbaptised even by lay baptism," in rule 2 is equivalent to "unbaptised by either clerical or lay baptism." The meaning intended to be conveyed is that baptism, either by lay or clerical, is sufficient to prevent a person from being regarded as "unbaptised" for the purposes of the rule.

Letter to the Chief Commissioner of British Burma, No. 194, dated the 2nd June 1879.

### EMIGRATION.

*Simla, 26th June 1913.*

## RESOLUTION.

Intimation has been received from His Majesty's Secretary of State for India that there is little probability of natives of India finding employment in Shanghai and Hankow as watchmen or in similar capacities.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to China is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risks they run in proceeding to Shanghai and Hankow.

*Simla, 26th June 1913.*

## RESOLUTION.

Intimation has been received from His Majesty's Secretary of State for India that there is little probability of natives of India finding employment in Shanghai and Hankow as watchmen or in similar capacities.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to China is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risks they run in proceeding to Shanghai and Hankow.

ORDERED that a copy of the above Resolution be forwarded for information and guidance to the Local Governments and Administrations* noted in the margin and to the Home and Foreign Departments, for information.

ORDERED also, that a copy be published in the *Gazette of India* for general information.

## Notifications by the Government of His Highness the Maharaja of Mysore.

### GENERAL AND REVENUE.

*No.* 2104—*San.* 1-13-14, *dated* 20*th August* 1913.

The following notification of the Madras Government is republished for general information:—

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Ootacamund in the Nilgiri District, if mendicants and vagrants are permitted to enter or remain in Ootacamund during the period comprising the latter part of the month of Ramzan and the first part of the ensuing month of Shevval, that is, from the 15th August to 15th September 1913, both days inclusive:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council is pleased to prohibit all mendicants and vagrants from entering or remaining in Ootacamund from the 15th August to 15th September 1913, both days inclusive, and to prescribe as a temporary regulation, that during the said period any mendicant or vagrant proceeding or reasonably believed to be proceeding to Ootacamund shall stop at such places and at the direction of such officers and shall remain in such camps as the Collectors of the Nilgiri, Malabar and Coimbatore Districts may, in their discretion, respectively, appoint in this behalf.

### *No.* 3042—*San.* 1-13-19, *dated* 29*th August* 1913.

The following notification of the Madras Government is republished for general information:—

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Tirumalai, Tirupati and Tiruchanur in the Chandragiri Taluk of the Chittur District, if persons from the infected portions of Bellary, Coimbatore and South Canara Districts, the Mysore State, the Bombay Presidency and other parts declared to be infected with plague are permitted to visit those places on the occasion of the ensuing Sri Venkateswaraswami Brahmotsavam festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council prohibits the attendance at the said festival and at Tirumalai, Tirupati and Tiruchanur, from the 22nd September to 11th October 1913, inclusive, of persons from the said parts and further directs that between the said dates no tickets to travel by railway shall be sold at the stations of Gudupalli, Kuppam, Mulanur and Patchur on the Madras and Southern Mahratta Railway, and the station of Mangalore on the South Indian Railway, for the stations of Pakala, Panapakkam, Chendragiri, Tirupati West, Tirupati East, Chirattanur, Renigunta, Erpedu, Kalahasti, Akkurti, Yellakaru, Puttur, Taduku, Pudi, Mamanduru, Settigunta and Kodur on the Madras and Southern Mahratta Railway, to any person intending or believed to be intending to be present at the said festival.

All persons proceeding to the said festival in contravention of this notification will be turned back.

### *No. G.* 1458, *dated* 28*th October* 1903.

The following paragraphs 1 and 2 from the Proceedings of the Government of India in the Home Department (Public) dated 8th December 1899, No. 2831—42, published in the *Mysore Gazette* with Notification No. 8134—Mis. 2321, dated the 17th January 1900, regarding the desirability of Indian students and others visiting England, providing themselves, before their departure from India, with an authoritative certificate of identity in the form appended, are republished for general information:—

### No. 2831—42.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

### RESOLUTION.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians, who desire to return to their country, and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England, the desirability of providing themselves before their departure from India with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

### FORM OF CERTIFICATE OF IDENTITY.

1. Name of applicant.
2. Father's name and caste.
3. Residence.
4. Age of applicant.
5. *Nationality of applicant.
6. Social and pecuniary status of father (or guardian).
7. Date of probable departure of applicant from India.
8. Object of applicant's visit to England (Europe).

*Dated*

---

**i.e.*, Whether a British subject by birth or by naturalization (or a subject of a Native State).
Countersignature of the District or Political Officer should be obtained on certificates signed by heads of schools or colleges.

*No. G. 292—G. M. 51-11-1, dated 13th July 1911.*

It is hereby notified for general information that applications for appointments in the State Service should be drawn up on printed copies of the form appended below. Applications not complying with this requirement are liable to be overlooked.

GOVERNMENT OF INDIA.

## DEPARTMENT OF EDUCATION,

## *ECCLESIASTICAL.*

*Simla, the 10th July 1913.*

### NOTIFICATION.

The Governor-General in Council is pleased to direct that the following shall be substituted for Rule 23-A in Part V of the Ecclesiastical Rules published with the Department of Education Notification No. 212, dated the 10th May 1913.

*Rule 23-A.*—Local Governments and Administrations including the Director-General of Military Works Services, are authorised to incur, when necessary, expenditure which is in excess of that permissible under, or is not covered by, the preceding rules, up to a limit of Rs. 500 in each case, on the understanding that this sum represents the maximum aggregate expenditure which may be sanctioned by them for additions and alterations to any one church.

*Note.*—The above rule has effect from the 11th September 1910. Local Governments, however, may also sanction such expenditure up to a limit of Rs. 500, even if the permissible grant had been exceeded prior to that date, irrespective of the amount of such excess.

For *Officiating Secretary to Government,*

*Public Works Department,*

# DEPARTMENTS OF EDUCATION, AGRICULTURE, INDUSTRIES AND COMMERCE.

*Notification No. G 2146—G. M. 55-12-240, dated 2nd September 1913.*

The following rules for the grant of loans for agricultural, industrial and commercial purposes are published for general information.

By Order,
C. S. BALASUNDARAM IYER,
*Secretary to Government,*
*Departments of Industries and Commerce.*

---

## RULES FOR THE GRANT OF LOANS GENERALLY TO FACILITATE AGRICULTURAL AND INDUSTRIAL OPERATIONS AND FOR THE PURCHASE AND ERECTION OF MACHINERY.

1. In order to facilitate agricultural and industrial operations, loans of money may be granted under these rules for any or all the purposes specified below:—

(1) for the purchase and erection of machinery for agricultural or industrial undertakings;
(2) for the construction of wells or tanks, of mills, warehouses and other structures necessary for agricultural and industrial operations;
(3) for the provision of raw material, working capital or appliances other than those specified above required for the carrying on of industrial operations.

2. The Director of Industries and Commerce shall be competent to sanction loans not exceeding Rs. 1,000; loans of larger sums shall be granted with the sanction of Government. Loans granted for the objects specified in (1) & (3) of Rule 1 will ordinarily be subject to a limit of Rs. 10,000 and Rs. 5,000, respectively, in each case.

3. The rate of interest charged shall be 6¼ *per cent per annum.*

4. Interest shall accrue from the date of the disbursement of the loan; or, if it is expended by the Department of Industries and Commerce, from the date on which the machinery is put in working order by that department and the borrower put in possession of the same.

5. *Period allowed for repayment and mode of recovery of loans.*—Loans shall be repayable by fixed annual payments, discharging both principal and interest.

Simple interest shall be charged on the loan, or, if it is disbursed in instalments, on these instalments, up to a date one year previous to the date fixed for commencement of repayment; and the total amount comprising the loan and such interest shall be recovered by annuities.

The time allowed for repayment of the loans and the amount of instalments shall be fixed by the Director of Industries and Commerce; but such time shall not exceed five years in the case of loans for industrial purposes and seven years in the case of loans for agricultural purposes.

The time for repayment specified above shall count from the date on which interest becomes chargeable under Rule 4 above, provided that nothing in this rule shall be taken to preclude a borrower from discharging the loan at an earlier period or from paying a larger amount than the annual instalment. The excess so paid shall be credited in reduction of principal and the number of future payments shall, if necessary, be decreased, but no reduction in the amount of the instalments fixed under para 2 of this rule shall on this account be allowed.

6. The date for repayment of each instalment shall be decided by the Director of Industries and Commerce in reference to the nature of the object for which the

loan is granted. But the date of the repayment of the first instalment shall not be put off for more than fifteen months from the date on which interest becomes chargeable on the loan under Rule 4 above.

7. *Postponement of repayment and remissions.*—If from causes beyond the control of the borrower the payment of any instalment becomes unduly burdensome to him, the repayment of this and all the subsequent instalments may, notwithstanding anything contained in Rules 5 and 6, be suspended by the Director of Industries and Commerce for a period of one instalment. Simple interest at 6¼ per cent shall be charged on all suspended instalments for the period of such suspension.

8. When the work for the carrying out of which the loan is contracted fails from causes beyond the borrower's control, and when the recovery of the loan in full would occasion serious hardship to the borrower, the circumstances of the case shall be reported to Government, and such orders as Government may be pleased to pass shall be binding on the borrower.

9. On every instalment which is not paid before the close of the revenue year in which payment falls due, interest at 6¼ per cent will be charged from the date on which payment ought to have been made. In calculating interest under this rule, a broken period of a month shall count as half a month or one month according as it is less or not less than 15 days and a fraction of a rupee as half rupee or one rupee according as it is less or not less than 8 annas.

10. Repayment should ordinarily be made at the treasury of the taluk in which the work has been carried out, but with the special permission of the Director repayment may be made at any District or Taluk Treasury in the State.

11. *Security.*—(*a*) No loan shall be granted unless the value of the security is at least equal to the amount of the loan applied for. The nature of the security to be required of the applicant or his surety shall be the saleable interest in lands or other immovable property held by the borrower or his surety, as the case may be, provided the value of the same is at least equal to the amount of the loan applied for; in addition to which, the object upon which the loan is expended shall be mortgaged to Government as additional security.

(*b*) When a loan is applied for by a group of persons on their joint personal security, an amount not exceeding 10 times the annual assessment of the lands held by the applicants may be sanctioned at the discretion of the sanctioning authority, provided that in addition to their personal security, the applicants mortgage to Government the whole plant, machinery and buildings on the purchase and erection of which the loan is expended.

12. *Hire-purchase.*—If an applicant so desires, he may, instead of offering security of immovable property for a loan to purchase machinery for agricultural or industrial purposes, obtain the requisite machinery from the Director of Industries on the hire-purchase system on the terms specified in the form of agreement appended hereto, provided the applicant deposits with his application one-fourth of the value of the machinery he requires.

13. *Recovery of loans.*—All loans granted under these rules and all other sums falling due to Government in connection therewith, or under a contract for hire-purchase, shall be recoverable as arrears of land revenue, and a stipulation to this effect shall be inserted in every agreement executed by a borrower.

14. If, at any time, the Director of Industries and Commerce is satisfied that any person or persons who have received a loan, have failed to perform any of the conditions on which it was made, he may, after recording in writing the grounds of his decision, pass an order directing the recovery forthwith of the loan, with any interest payable thereon and costs, as an arrear of land revenue. On receipt of a certified copy of such an order, the Deputy Commissioner to whom it is communicated will forthwith proceed to recover from such person or persons any sums which may remain due together with any interest payable thereon and costs, as an arrear of land revenue: provided that, with the sanction of the Director of Industries and Commerce, such officer may, at his discretion, so recover any sum less than the whole balance of the loan without prejudice to his right to recover the remainder of such balance at any subsequent time.

15. *Mode of application.*—An application for a loan must be made in writing to the Director of Industries and Commerce on Form No. I, hereto annexed,

printed copies of which will be available free of cost at all Taluk Offices. Every application for a loan shall contain a declaration signed by the applicant or his surety, as the case may be, that the statements made therein regarding the nature and extent of the encumbrances on the property offered as security are true and that there are no other encumbrances on the property to the best of his information and belief. The applicant shall also show in the column of remarks in Form I:—

(1) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(2) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

16. An application for machinery on the hire-purchase system shall be in Form II appended hereto, printed copies of which will be available free of cost at all Taluk Offices.

17. *Grant of loans.*—No loan shall be granted without a local inquiry, which shall be held by a Special Officer attached to the Department of Industries and Commerce for that purpose. The result of his inquiry will be reported to the Director of Industries and Commerce, whose subsequent action in dealing with the application will be determined by the nature of the report as to the value of the security rendered. In dealing with applications for loans connected with agricultural purposes the Director will obtain and place on record the opinion of the Deputy Commissioner of the District where the loan is to be utilised.

18. Loans will ordinarily be granted for the purchase of machinery approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which it is to be applied. Intending applicants for loans may address the Director to obtain advice, previous to submitting their applications. For the present, no fees will be charged by the Department for advice and assistance.

19. All loans will be disbursed by the Director, and it will be the duty of the borrower to put the work in hand immediately after the receipt of the loan.

The Department of Industries and Commerce will, if requested to do so, undertake the erection and starting of machinery for private individuals or firms, and will hand over the same in good working order.

20. Machinery purchased with loans obtained under these rules must be maintained in good working order to the satisfaction of the Director of Industries and Commerce, who may order repairs or renewals to be made at the cost of the owner. Failure to comply with such orders will involve proceedings for the recovery of the loan under Rule 14 of these rules.

21. *Registers and accounts.*—The Director shall keep a register of loans and repayments under these rules, including cases of hire-purchase, in a form which he will settle in consultation with the Comptroller. This register should clearly show the stage in which each transaction stands at any particular time.

22. Every loan sanctioned under these rules should be reported by the sanctioning authority to the Comptroller with full particulars. The Comptroller will see that the loan is covered by rules and sanction of competent authority and will watch the repayment of the instalments. A special section in the Comptroller's annual report on loan transactions should be devoted to loans under these rules.

## NOTE.

1. Application for a loan under these rules should be made to the Director of Industries and Commerce on Form No. 1, printed copies of which will be available free of cost in all taluk offices.

2. Loans of money may be granted under these rules for any or all the purposes specified below:—

(i) Purchase and erection of machinery for agricultural or industrial undertakings, ordinarily up to a limit of Rs. 10,000 in each case.

(ii) The construction of wells and tanks, of mills, warehouses and other structures necessary for agricultural or industrial operations.

(iii) The provision of raw material, working capital or appliances, other than those specified above, required for the carrying on of industrial operations, ordinarily up to a limit of Rs. 5,000 in each case.

3. All loans granted under these rules and all other sums falling due to Government in connection therewith shall be recoverable as an arrear of land revenue.

4. The applicant will show in the column of remarks in form No. 1:—

(i) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(ii) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

5. The rate of interest charged on the loan shall be 6¼ *per cent per annum.*

6. Loans shall be repayable by fixed annual payments, discharging both principal and interest.

7. The time allowed for repayment shall be fixed by the Director of Industries and Commerce, subject to the limitation of a period of 5 years in the case of loans for industrial purposes and 7 years in the case of loans for agricultural purposes.

8. If the grantee of a loan misapplies the whole or any portion of the loan or otherwise fails in any of the conditions of the grant, the whole unpaid balance of the loan with interest and costs will be liable to summary recovery as an arrear of land revenue.

9. Loans for the purchase of machinery will be sanctioned, only on the condition that the machinery is approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which they are to be applied.

10. If requested, the Department of Industries and Commerce will undertake to erect the work for which the loan is obtained at the cost of the borrower and hand it over to him in good working order and with proper accounts of the expenses incurred on his behalf.

11. The machinery purchased and the buildings, etc., erected with the loan referred to above shall be maintained in a suitable condition and working order and repairs and renewals as directed by the Director from time to time shall be carried out without undue delay.

*N.B.*—This is a summary of the conditions under which the loans sanctioned in Government Order No. G. 2097-146—G. M. 55-12-239, dated 2nd September 1913, are granted. For further particulars the order itself should be consulted.

## FORM 4.

HIRE-PURCHASE AGREEMENT.

An agreement made this day of 19 between the Director of Industries and Commerce on behalf of the Government of His Highness the Maharaja of Mysore (hereinafter called "the Director") of the one part and , of (hereinafter called "the hirer") of the other part.

Whereby it is agreed as follows :—

1. The Director agrees to let on hire to the hirer, and the hirer agrees to take from the Director the machinery in the Schedule hereunder written (hereinafter referred to as "the machinery").

2. The Director hereby acknowledges the receipt of Rs. for the option of purchase hereinafter contained. If the hirer shall exercise such option, credit will be given to the hirer for such sum. If he does not, then such sum shall belong absolutely to the Director.

3. So long as the hirer thinks fit to continue the hiring, he shall pay for the hire of the said machinery to the Director at Bangalore, without demand, the sum of Rs. every six months with interest on the amount of hire for the time being unpaid at the rate of *per cent per annum.*

The first payment of Rs. together with the interest which shall have accrued and be payable as aforesaid to be made on the day of 19 , the second payment of Rs. and interest as aforesaid to be made on the day of 19 , and the third payment of Rs. and interest as aforesaid to be made on the ...... ... day of 19 , and the fourth payment of Rs. and interest as aforesaid to be made on the day of 19 , (and so on).

4. It shall be lawful for the Director and all persons authorised by him, at all times to enter upon any premises in which the machinery may be for the time being, to examine the same.

5. The hirer agrees with the Director that during the hiring—

(*a*) the machinery shall be kept in good and serviceable order and condition (also wthout damage by fire) and that no alteration or addition thereto shall be made without the previous written consent of the Director;

(*b*) the machinery shall be kept in possession of the hirer and upon trust for the Director at the hirer's address given in the Schedule hereto, or at such other addresses as the Director may by writing authorise, free from distress, execution, or other legal processes, and shall not on any account be sold, assigned, or dealt with, or the possession thereof parted with;

(*c*) all rates, taxes and outgoings payable in respect of the premises wherein the machinery may for the time being be placed shall be duly and punctually paid and discharged by the hirer, and the current receipts therefor shall be produced to the Director on demand.

6. It is hereby declared that the Director has entered into this agreement upon the express declaration by the hirer, and the hirer hereby expressly warrants, that the premises upon which the machinery is to be placed are free from any mortgage incumbrance or charge given or created by the hirer, or any person through whom he claims.

7. If the hirer at any time during the hiring shall be desirous of executing or creating any charge, mortgage or other incumbrance of or upon the premises in or upon which the machinery shall for the time being be, he shall give to the Director one calendar month's previous notice in writing of his intention so to do, and upon the receipt of such notice it shall be lawful for the Director to put an end to the hiring in manner provided by the next succeeding clause.

8. If the hirer

(*a*) shall make default in punctually paying any hire instalment or

(*b*) shall be adjudicated bankrupt or shall file a petition in insolvency or enter into any arrangement or composition with his creditors or

(*c*) shall execute or create any mortgage incumbrance or charge of or upon the premises in or upon which the machinery may for the time being be, or give notice of his intention so to do as provided by the last preceding clause or

(*d*) shall fail to observe and perform any of the agreements and conditions contained in this Agreement and on his part to be observed and performed,

then, and in any such case, it shall be lawful for the Director to immediately put an end to the hiring, and for that purpose the hirer hereby authorises the Director or any one deputed by him to enter upon any premises in which the machinery may be for the time being, and to seize and take away the same.

9. Should the hirer hinder or prevent the Director or his Deputy seizing and taking away the machinery, then and in every such case the hirer shall pay to the Director the sum of Rs. 200 (two hundred rupees) as and by way of liquidated damage for breach of this provision and not by way of penalty.

10. If the Director shall seize and take possession of the said machinery under clause 8 hereof, the hirer shall have the option within one month after such seizure of purchasing the said machinery by the payment to the Director of Rs. together with the costs and expenses of and incidental to such seizure. In the event of the hirer making such payment within the time aforesaid he shall receive credit from the Director for all sums previously paid by him on account of hire and the amount paid on the signing of this agreement. If the hirer shall not exercise such option and make such payments within the time aforesaid, the option given to the hirer by this clause shall cease and the hirer shall not be entitled to any credit, allowance or return for or on account of any payments made previously by him.

11. No allowance, return, credit or payment, shall be allowed or paid to the hirer in the event of the hiring being determined by the Director as provided by clause 8 hereof, but the hirer shall pay to the Director at Bangalore all arrears of hire, interest and damages, for the breach of this agreement up to the date of such determination.

Such damages shall be in addition to and not in substitution of any damages mentioned in clause 9 hereof.

12. All sums falling due to the Director under this contract shall be recoverable from the hirer as an arrear of land revenue.

13. The Director hereby agrees that the hirer shall have the option of purchasing the machinery at any time during the hiring by paying the sum of Rs............with interest thereon at......*per cent per annum* from the date hereof, and also that if the hirer shall exercise such option he will give to the hirer credit against such purchase price for all payments which shall have been made by him for hire, with counter interest on such payments at the like rate and also for the sum paid on the signing of this agreement. But until such purchase price shall have been paid in full, the said machinery shall remain the absolute property of the Government of Mysore.

14. If the Director shall grant to the hirer any time or indulgence, the same shall not affect or prejudice the Director's rights under this agreement.

2. The Director of Industries and Commerce shall be competent to sanction loans not exceeding Rs. 1,000 ; loans of larger sums shall be granted with the sanction of Government. Loans granted for the objects specified in (1) & (3) of Rule 1 will ordinarily be subject to a limit of Rs. 10,000 and Rs. 5,000, respectively, in each case.

3. The rate of interest charged shall be 6¼ *per cent per annum.*

4. Interest shall accrue from the date of the disbursement of the loan ; or, if it is expended by the Department of Industries and Commerce, from the date on which the machinery is put in working order by that department and the borrower put in possession of the same.

5. *Period allowed for repayment and mode of recovery of loans.*—Loans shall be repayable by fixed annual payments, discharging both principal and interest.

Simple interest shall be charged on the loan, or, if it is disbursed in instalments, on these instalments, up to a date one year previous to the date fixed for commencement of repayment ; and the total amount comprising the loan and such interest shall be recovered by annuities.

The time allowed for repayment of the loans and the amount of instalments shall be fixed by the Director of Industries and Commerce ; but such time shall not exceed five years in the case of loans for industrial purposes and seven years in the case of loans for agricultural purposes.

The time for repayment specified above shall count from the date on which interest becomes chargeable under Rule 4 above, provided that nothing in this rule shall be taken to preclude a borrower from discharging the loan at an earlier period or from paying a larger amount than the annual instalment. The excess so paid shall be credited in reduction of principal and the number of future payments shall, if necessary, be decreased, but no reduction in the amount of the instalments fixed under para 2 of this rule shall on this account be allowed.

6. The date for repayment of each instalment shall be decided by the Director of Industries and Commerce in reference to the nature of the object for which the loan is granted. But the date of the repayment of the first instalment shall not be put off for more than fifteen months from the date on which interest becomes chargeable on the loan under Rule 4 above.

7. *Postponement of repayment and remissions.*—If from causes beyond the control of the borrower the payment of any instalment becomes unduly burdensome to him, the repayment of this and all the subsequent instalments may, notwithstanding anything contained in Rules 5 and 6, be suspended by the Director of Industries and Commerce for a period of one instalment. Simple interest at 6¼ per cent shall be charged on all suspended instalments for the period of such suspension.

8. When the work for the carrying out of which the loan is contracted fails from causes beyond the borrower's control, and when the recovery of the loan in full would occasion serious hardship to the borrower, the circumstances of the case shall be reported to Government, and such orders as Government may be pleased to pass shall be binding on the borrower.

9. On every instalment which is not paid before the close of the revenue year in which payment falls due, interest at 6¼ per cent will be charged from the date on which payment ought to have been made. In calculating interest under this rule, a broken period of a month shall count as half a month or one month according as it is less or not less than 15 days and a fraction of a rupee as half rupee or one rupee according as it is less or not less than 8 annas.

10. Repayment should ordinarily be made at the treasury of the taluk in which the work has been carried out, but with the special permission of the Director repayment may be made at any District or Taluk Treasury in the State.

11. *Security.*—(*a*) No loan shall be granted unless the value of the security is at least equal to the amount of the loan applied for. The nature of the security to be required of the applicant or his surety shall be the saleable interest in lands or other immovable property held by the borrower or his surety, as the case may be, provided the value of the same is at least equal to the amount of the loan applied for; in addition to which, the object upon which the loan is expended shall be mortgaged to Government as additional security.

(*b*) When a loan is applied for by a group of persons on their joint personal security, an amount not exceeding 10 times the annual assessment of the lands held by the applicants may be sanctioned at the discretion of the sanctioning authority, provided that in addition to their personal security, the applicants mortgage to Government the whole plant, machinery and buildings on the purchase and erection of which the loan is expended.

12. *Hire-purchase.*—If an applicant so desires, he may, instead of offering security of immovable property for a loan to purchase machinery for agricultural or industrial purposes, obtain the requisite machinery from the Director of Industries on the hire-purchase system on the terms specified in the form of agreement appended hereto, provided the applicant deposits with his application one-fourth of the value of the machinery he requires.

13. *Recovery of loans.*—All loans granted under these rules and all other sums falling due to Government in connection therewith, or under a contract for hire-purchase, shall be recoverable as arrears of land revenue, and a stipulation to this effect shall be inserted in every agreement executed by a borrower.

14. If, at any time, the Director of Industries and Commerce is satisfied that any person or persons who have received a loan, have failed to perform any of the conditions on which it was made, he may, after recording in writing the grounds of his decision, pass an order directing the recovery forthwith of the loan, with any interest payable thereon and costs, as an arrear of land revenue. On receipt of a certified copy of such an order, the Deputy Commissioner to whom it is communicated will forthwith proceed to recover from such person or persons any sums which may remain due together with any interest payable thereon and costs, as an arrear of land revenue: provided that, with the sanction of the Director of Industries and Commerce, such officer may, at his discretion, so recover any sum less than the whole balance of the loan without prejudice to his right to recover the remainder of such balance at any subsequent time.

15. *Mode of application.*—An application for a loan must be made in writing to the Director of Industries and Commerce on Form No. I, hereto annexed, printed copies of which will be available free of cost at all Taluk Offices. Every application for a loan shall contain a declaration signed by the applicant or his surety, as the case may be, that the statements made therein regarding the nature and extent of the encumbrances on the property offered as security are true and that there are no other encumbrances on the property to the best of his information and belief. The applicant shall also show in the column of remarks in Form I:—

(1) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(2) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

16. An application for machinery on the hire-purchase system shall be in Form II appended hereto, printed copies of which will be available free of cost at all Taluk Offices.

17. *Grant of loans.*—No loan shall be granted without a local inquiry, which shall be held by a Special Officer attached to the Department of Industries and Commerce for that purpose. The result of his inquiry will be reported to the Director of Industries and Commerce, whose subsequent action in dealing with the application will be determined by the nature of the report as to the value of the security rendered. In dealing with applications for loans connected with agricultural purposes the Director will obtain and place on record the opinion of the Deputy Commissioner of the District where the loan is to be utilised.

18. Loans will ordinarily be granted for the purchase of machinery approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which it is to be applied. Intending applicants for loans may address the Director to obtain advice, previous to submitting their applications. For the present, no fees will be charged by the Department for advice and assistance.

19. All loans will be disbursed by the Director, and it will be the duty of the borrower to put the work in hand immediately after the receipt of the loan.

The Department of Industries and Commerce will, if requested to do so, undertake the erection and starting of machinery for private individuals or firms, and will hand over the same in good working order.

20. Machinery purchased with loans obtained under these rules must be maintained in good working order to the satisfaction of the Director of Industries and Commerce, who may order repairs or renewals to be made at the cost of the owner. Failure to comply with such orders will involve proceedings for the recovery of the loan under Rule 14 of these rules.

21. *Registers and accounts.*—The Director shall keep a register of loans and repayments under these rules, including cases of hire-purchase, in a form which he will settle in consultation with the Comptroller. This register should clearly show the stage in which each transaction stands at any particular time.

22. Every loan sanctioned under these rules should be reported by the sanctioning authority to the Comptroller with full particulars. The Comptroller will see that the loan is covered by rules and sanction of competent authority and will watch the repayment of the instalments. A special section in the Comptroller's annual report on loan transactions should be devoted to loans under these rules.

## NOTE.

1. Application for a loan under these rules should be made to the Director of Industries and Commerce on Form No. 1, printed copies of which will be available free of cost in all taluk offices.

2. Loans of money may be granted under these rules for any or all the purposes specified below:—

(i) Purchase and erection of machinery for agricultural or industrial undertakings, ordinarily up to a limit of Rs. 10,000 in each case.

(ii) The construction of wells and tanks, of mills, warehouses and other structures necessary for agricultural or industrial operations.

(iii) The provision of raw material, working capital or appliances, other than those specified above, required for the carrying on of industrial operations, ordinarily up to a limit of Rs. 5,000 in each case.

3. All loans granted under these rules and all other sums falling due to Government in connection therewith shall be recoverable as an arrear of land revenue.

4. The applicant will show in the column of remarks in form No. 1:—

(i) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(ii) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

5. The rate of interest charged on the loan shall be 6¼ *per cent per annum.*

6. Loans shall be repayable by fixed annual payments, discharging both principal and interest.

7. The time allowed for repayment shall be fixed by the Director of Industries and Commerce, subject to the limitation of a period of 5 years in the case of loans for industrial purposes and 7 years in the case of loans for agricultural purposes.

8. If the grantee of a loan misapplies the whole or any portion of the loan or otherwise fails in any of the conditions of the grant, the whole unpaid balance of the loan with interest and costs will be liable to summary recovery as an arrear of land revenue.

9. Loans for the purchase of machinery will be sanctioned, only on the condition that the machinery is approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which they are to be applied.

10. If requested, the Department of Industries and Commerce will undertake to erect the work for which the loan is obtained at the cost of the borrower and hand it over to him in good working order and with proper accounts of the expenses incurred on his behalf.

11. The machinery purchased and the buildings, etc., erected with the loan referred to above shall be maintained in a suitable condition and working order and repairs and renewals as directed by the Director from time to time shall be carried out without undue delay.

### HIRE-PURCHASE AGREEMENT.

An agreement made this day of 19 between the Director of Industries and Commerce on behalf of the Government of His Highness the Maharaja of Mysore (hereinafter called "the Director") of the one part and of (hereinafter called "the hirer") of the other part.

Whereby it is agreed as follows :—

1. The Director agrees to let on hire to the hirer, and the hirer agrees to take from the Director the machinery in the Schedule hereunder written (hereinafter referred to as "the machinery").

2. The Director hereby acknowledges the receipt of Rs. for the option of purchase hereinafter contained. If the hirer shall exercise such option, credit will be given to the hirer for such sum. If he does not, then such sum shall belong absolutely to the Director.

3. So long as the hirer thinks fit to continue the hiring, he shall pay for the hire of the said machinery to the Director at Bangalore, without demand, the sum of Rs. every six months with interest on the amount of hire for the time being unpaid at the rate of *per cent per annum.*

The first payment of Rs. together with the interest which shall have accrued and be payable as aforesaid to be made on the day of 19 , the second payment of Rs. and interest as aforesaid to be made on the day of 19 , and the third payment of Rs. and interest as aforesaid to be made on the ..day of .. 19 , and the fourth payment of Rs. and interest as aforesaid to be made on the day of 19 , (and so on).

4. It shall be lawful for the Director and all persons authorised by him, at all times to enter upon any premises in which the machinery may be for the time being, to examine the same.

5. The hirer agrees with the Director that during the hiring—

(*a*) the machinery shall be kept in good and serviceable order and condition (also wthout damage by fire) and that no alteration or addition thereto shall be made without the previous written consent of the Director;

(*b*) the machinery shall be kept in possession of the hirer and upon trust for the Director at the hirer's address given in the Schedule hereto, or at such other addresses as the Director may by writing authorise, free from distress, execution, or other legal processes, and shall not on any account be sold, assigned, or dealt with, or the possession thereof parted with;

(*c*) all rates, taxes and outgoings payable in respect of the premises wherein the machinery may for the time being be placed shall be duly and punctually paid and discharged by the hirer, and the current receipts therefor shall be produced to the Director on demand.

6. It is hereby declared that the Director has entered into this agreement upon the express declaration by the hirer, and the hirer hereby expressly warrants, that the premises upon which the machinery is to be placed are free from any mortgage incumbrance or charge given or created by the hirer, or any person through whom he claims.

7. If the hirer at any time during the hiring shall be desirous of executing or creating any charge, mortgage or other incumbrance of or upon the premises in or upon which the machinery shall for the time being be, he shall give to the Director one calendar month's previous notice in writing of his intention so to do, and upon the receipt of such notice it shall be lawful for the Director to put an end to the hiring in manner provided by the next succeeding clause.

8. If the hirer

(*a*) shall make default in punctually paying any hire instalment or

(*b*) shall be adjudicated bankrupt or shall file a petition in insolvency or enter into any arrangement or composition with his creditors or

(*c*) shall execute or create any mortgage incumbrance or charge of or upon the premises in or upon which the machinery may for the time being be, or give notice of his intention so to do as provided by the last preceding clause or

(*d*) shall fail to observe and perform any of the agreements and conditions contained in this Agreement and on his part to be observed and performed,

then, and in any such case, it shall be lawful for the Director to immediately put an end to the hiring, and for that purpose the hirer hereby authorises the Director or any one deputed by him to enter upon any premises in which the machinery may be for the time being, and to seize and take away the same.

9. Should the hirer hinder or prevent the Director or his Deputy seizing and taking away the machinery, then and in every such case the hirer shall pay to the Director the sum of Rs. 200 (two hundred rupees) as and by way of liquidated damage for breach of this provision and not by way of penalty.

10. If the Director shall seize and take possession of the said machinery under clause 8 hereof, the hirer shall have the option within one month after such seizure of purchasing the said machinery by the payment to the Director of Rs. together with the costs and expenses of and incidental to such seizure. In the event of the hirer making such payment within the time aforesaid he shall receive credit from the Director for all sums previously paid by him on account of hire and the amount paid on the signing of this agreement. If the hirer shall not exercise such option and make such payments within the time aforesaid, the option given to the hirer by this clause shall cease and the hirer shall not be entitled to any credit, allowance or return for or on account of any payments made previously by him.

11. No allowance, return, credit or payment, shall be allowed or paid to the hirer in the event of the hiring being determined by the Director as provided by clause 8 hereof, but the hirer shall pay to the Director at Bangalore all arrears of hire, interest and damages, for the breach of this agreement up to the date of such determination.

Such damages shall be in addition to and not in substitution of any damages mentioned in clause 9 hereof.

12. All sums falling due to the Director under this contract shall be recoverable from the hirer as an arrear of land revenue.

13. The Director hereby agrees that the hirer shall have the option of purchasing the machinery at any time during the hiring by paying the sum of Rs............with interest thereon at......*per cent per annum* from the date hereof, and also that if the hirer shall exercise such option he will give to the hirer credit against such purchase price for all payments which shall have been made by him for hire, with counter interest on such payments at the like rate and also for the sum paid on the signing of this agreement. But until such purchase price shall have been paid in full, the said machinery shall remain the absolute property of the Government of Mysore.

14. If the Director shall grant to the hirer any time or indulgence, the same shall not affect or prejudice the Director's rights under this agreement.

## DEPARTMENTS OF EDUCATION, AGRICULTURE, INDUSTRIES AND COMMERCE.

*Notification No. G. 2146—G. M. 55-12-240, dated 2nd September 1913.*

The following rules for the grant of loans for agricultural, industrial and commercial purposes are published for general information.

By Order,
C. S. BALASUNDARAM IYER,
*Secretary to Government.*

---

## RULES FOR THE GRANT OF LOANS GENERALLY TO FACILITATE AGRICULTURAL AND INDUSTRIAL OPERATIONS AND FOR THE PURCHASE AND ERECTION OF MACHINERY.

1. In order to facilitate agricultural and industrial operations, loans of money may be granted under these rules for any or all the purposes specified below:—

   (1) for the purchase and erection of machinery for agricultural or industrial undertakings;
   (2) for the construction of wells or tanks, of mills, warehouses and other structures necessary for agricultural and industrial operations;
   (3) for the provision of raw material, working capital or appliances other than those specified above required for the carrying on of industrial operations.

2. The Director of Industries and Commerce shall be competent to sanction loans not exceeding Rs. 1,000; loans of larger sums shall be granted with the sanction of Government. Loans granted for the objects specified in (1) & (3) of Rule 1 will ordinarily be subject to a limit of Rs. 10,000 and Rs. 5,000, respectively, in each case.

3. The rate of interest charged shall be 6¼ *per cent per annum.*

4. Interest shall accrue from the date of the disbursement of the loan; or, if it is expended by the Department of Industries and Commerce, from the date on which the machinery is put in working order by that department and the borrower put in possession of the same.

5. *Period allowed for repayment and mode of recovery of loans.*—Loans shall be repayable by fixed annual payments, discharging both principal and interest.

Simple interest shall be charged on the loan, or, if it is disbursed in instalments, on these instalments, up to a date one year previous to the date fixed for commencement of repayment; and the total amount comprising the loan and such interest shall be recovered by annuities.

The time allowed for repayment of the loans and the amount of instalments shall be fixed by the Director of Industries and Commerce; but such time shall not exceed five years in the case of loans for industrial purposes and seven years in the case of loans for agricultural purposes.

The time for repayment specified above shall count from the date on which interest becomes chargeable under Rule 4 above, provided that nothing in this rule shall be taken to preclude a borrower from discharging the loan at an earlier period or from paying a larger amount than the annual instalment. The excess so paid shall be credited in reduction of principal and the number of future payments shall, if necessary, be decreased; but no reduction in the amount of the instalments fixed under para 2 of this rule shall on this account be allowed.

6. The date for repayment of each instalment shall be decided by the Director of Industries and Commerce in reference to the nature of the object for which the loan is granted. But the date of the repayment of the first instalment shall not be put off for more than fifteen months from the date on which interest becomes chargeable on the loan under Rule 4 above.

7. *Postponement of repayment and remissions.*—If from causes beyond the control of the borrower the payment of any instalment becomes unduly burdensome to him, the repayment of this and all the subsequent instalments may, notwithstanding anything contained in Rules 5 and 6, be suspended by the Director of Industries and Commerce for a period of one instalment. Simple interest at 6¼ per cent shall be charged on all suspended instalments for the period of such suspension.

8. When the work for the carrying out of which the loan is contracted fails from causes beyond the borrower's control, and when the recovery of the loan in full would occasion serious hardship to the borrower, the circumstances of the case shall be reported to Government, and such orders as Government may be pleased to pass shall be binding on the borrower.

9. On every instalment which is not paid before the close of the revenue year in which payment falls due, interest at 6¼ per cent will be charged from the date on which payment ought to have been made. In calculating interest under this rule, a broken period of a month shall count as half a month or one month according as it is less or not less than 15 days and a fraction of a rupee as half rupee or one rupee according as it is less or not less than 8 annas.

10. Repayment should ordinarily be made at the treasury of the taluk in which the work has been carried out, but with the special permission of the Director repayment may be made at any District or Taluk Treasury in the State.

11. *Security.*—(*a*) No loan shall be granted unless the value of the security is at least equal to the amount of the loan applied for. The nature of the security to be required of the applicant or his surety shall be the saleable interest in lands or other immovable property held by the borrower or his surety, as the case may be, provided the value of the same is at least equal to the amount of the loan applied for; in addition to which, the object upon which the loan is expended shall be mortgaged to Government as additional security.

(*b*) When a loan is applied for by a group of persons on their joint personal security, an amount not exceeding 10 times the annual assessment of the lands held by the applicants may be sanctioned at the discretion of the sanctioning authority, provided that in addition to their personal security, the applicants mortgage to Government the whole plant, machinery and buildings on the purchase and erection of which the loan is expended.

12. *Hire-purchase.*—If an applicant so desires, he may, instead of offering security of immovable property for a loan to purchase machinery for agricultural or industrial purposes, obtain the requisite machinery from the Director of Industries on the hire-purchase system on the terms specified in the form of agreement appended hereto, provided the applicant deposits with his application one-fourth of the value of the machinery he requires.

13. *Recovery of loans.*—All loans granted under these rules and all other sums falling due to Government in connection therewith, or under a contract for hire-purchase, shall be recoverable as arrears of land revenue, and a stipulation to this effect shall be inserted in every agreement executed by a borrower.

14. If, at any time, the Director of Industries and Commerce is satisfied that any person or persons who have received a loan, have failed to perform any of the conditions on which it was made, he may, after recording in writing the grounds of his decision, pass an order directing the recovery forthwith of the loan, with any interest payable thereon and costs, as an arrear of land revenue. On receipt of a certified copy of such an order, the Deputy Commissioner to whom it is communicated will forthwith proceed to recover from such person or persons any sums which may remain due together with any interest payable thereon and costs, as an arrear of land revenue: provided that, with the sanction of the Director of Industries and Commerce, such officer may, at his discretion, so recover any sum less than the whole balance of the loan without prejudice to his right to recover the remainder of such balance at any subsequent time.

15. *Mode of application.*—An application for a loan must be made in writing to the Director of Industries and Commerce on Form No. I, hereto annexed, printed copies of which will be available free of cost at all Taluk Offices. Every application for a loan shall contain a declaration signed by the applicant or his surety, as the case may be, that the statements made therein regarding the nature

and extent of the encumbrances on the property offered as security are true and that there are no other encumbrances on the property to the best of his information and belief. The applicant shall also show in the column of remarks in Form I:—

(1) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(2) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

16. An application for machinery on the hire-purchase system shall be in Form II appended hereto, printed copies of which will be available free of cost at all Taluk Offices.

17. *Grant of loans.*—No loan shall be granted without a local inquiry, which shall be held by a Special Officer attached to the Department of Industries and Commerce for that purpose. The result of his inquiry will be reported to the Director of Industries and Commerce, whose subsequent action in dealing with the application will be determined by the nature of the report as to the value of the security rendered. In dealing with applications for loans connected with agricultural purposes the Director will obtain and place on record the opinion of the Deputy Commissioner of the District where the loan is to be utilised.

18. Loans will ordinarily be granted for the purchase of machinery approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which it is to be applied. Intending applicants for loans may address the Director to obtain advice, previous to submitting their applications. For the present, no fees will be charged by the Department for advice and assistance.

19. All loans will be disbursed by the Director, and it will be the duty of the borrower to put the work in hand immediately after the receipt of the loan.

The Department of Industries and Commerce will, if requested to do so, undertake the erection and starting of machinery for private individuals or firms, and will hand over the same in good working order.

20. Machinery purchased with loans obtained under these rules must be maintained in good working order to the satisfaction of the Director of Industries and Commerce, who may order repairs or renewals to be made at the cost of the owner. Failure to comply with such orders will involve proceedings for the recovery of the loan under Rule 14 of these rules.

21. *Registers and accounts.*—The Director shall keep a register of loans and repayments under these rules, including cases of hire-purchase, in a form which he will settle in consultation with the Comptroller. This register should clearly show the stage in which each transaction stands at any particular time.

22. Every loan sanctioned under these rules should be reported by the sanctioning authority to the Comptroller with full particulars. The Comptroller will see that the loan is covered by rules and sanction of competent authority and will watch the repayment of the instalments. A special section in the Comptroller's annual report on loan transactions should be devoted to loans under these rules.

## NOTE.

1. Application for a loan under these rules should be made to the Director of Industries and Commerce on Form No. 1, printed copies of which will be available free of cost in all taluk offices.

2. Loans of money may be granted under these rules for any or all the purposes specified below:—

(i) Purchase and erection of machinery for agricultural or industrial undertakings, ordinarily up to a limit of Rs. 10,000 in each case.

(ii) The construction of wells and tanks, of mills, warehouses and other structures necessary for agricultural or industrial operations.

(iii) The provision of raw material, working capital or appliances, other than those specified above, required for the carrying on of industrial operations, ordinarily up to a limit of Rs. 5,000 in each case.

3. All loans granted under these rules and all other sums falling due to Government in connection therewith shall be recoverable as an arrear of land revenue.

4. The applicant will show in the column of remarks in form No. 1:—

(i) Whether the applicant proposes to supplement the loan by any private capital and if so, to what extent;

(ii) the estimated total cost of the proposed work and the probable period that will be occupied in its construction.

5. The rate of interest charged on the loan shall be 6¼ *per cent per annum.*

6. Loans shall be repayable by fixed annual payments, discharging both principal and interest.

7. The time allowed for repayment shall be fixed by the Director of Industries and Commerce, subject to the limitation of a period of 5 years in the case of loans for industrial purposes and 7 years in the case of loans for agricultural purposes.

8. If the grantee of a loan misapplies the whole or any portion of the loan or otherwise fails in any of the conditions of the grant, the whole unpaid balance of the loan with interest and costs will be liable to summary recovery as an arrear of land revenue.

9. Loans for the purchase of machinery will be sanctioned, only on the condition that the machinery is approved by the Director of Industries and Commerce or other competent professional adviser as suitable for the purpose to which they are to be applied.

10. If requested, the Department of Industries and Commerce will undertake to erect the work for which the loan is obtained at the cost of the borrower and hand it over to him in good working order and with proper accounts of the expenses incurred on his behalf.

11. The machinery purchased and the buildings, etc., erected with the loan referred to above shall be maintained in a suitable condition and working order and repairs and renewals as directed by the Director from time to time shall be carried out without undue delay.

### HIRE-PURCHASE AGREEMENT.

An agreement made this day of 19 between the Director of Industries and Commerce on behalf of the Government of His Highness the Maharaja of Mysore (hereinafter called "the Director") of the one part and of (hereinafter called "the hirer") of the other part.

Whereby it is agreed as follows:—

1. The Director agrees to let on hire to the hirer, and the hirer agrees to take from the Director the machinery in the Schedule hereunder written (hereinafter referred to as "the machinery").

2. The Director hereby acknowledges the receipt of Rs. for the option of purchase hereinafter contained. If the hirer shall exercise such option, credit will be given to the hirer for such sum. If he does not, then such sum shall belong absolutely to the Director.

3. So long as the hirer thinks fit to continue the hiring, he shall pay for the hire of the said machinery to the Director at Bangalore, without demand, the sum of Rs. every six months with interest on the amount of hire for the time being unpaid at the rate of *per cent per annum.*

The first payment of Rs. together with the interest which shall have accrued and be payable as aforesaid to be made on the day of 19 , the second payment of Rs. and interest as aforesaid to be made on the day of 19 , and the third payment of Rs. and interest as aforesaid to be made on the day of 19 , and the fourth payment of Rs. and interest as aforesaid to be made on the day of 19 , (and so on).

4. It shall be lawful for the Director and all persons authorised by him, at all times to enter upon any premises in which the machinery may be for the time being, to examine the same.

5. The hirer agrees with the Director that during the hiring—

(a) the machinery shall be kept in good and serviceable order and condition (also wthout damage by fire) and that no alteration or addition thereto shall be made without the previous written consent of the Director ;

(b) the machinery shall be kept in possession of the hirer and upon trust for the Director at the hirer's address given in the Schedule hereto, or at such other addresses as the Director may by writing authorise, free from distress, execution, or other legal processes, and shall not on any account be sold, assigned, or dealt with, or the possession thereof parted with ;

(c) all rates, taxes and outgoings payable in respect of the premises wherein the machinery may for the time being be placed shall be duly and punctually paid and discharged by the hirer, and the current receipts therefor shall be produced to the Director on demand.

6. It is hereby declared that the Director has entered into this agreement upon the express declaration by the hirer, and the hirer hereby expressly warrants, that the premises upon which the machinery is to be placed are free from any mortgage incumbrance or charge given or created by the hirer, or any person through whom he claims.

7. If the hirer at any time during the hiring shall be desirous of executing or creating any charge, mortgage or other incumbrance of or upon the premises in or upon which the machinery shall for the time being be, he shall give to the Director one calendar month's previous notice in writing of his intention so to do, and upon the receipt of such notice it shall be lawful for the Director to put an end to the hiring in manner provided by the next succeeding clause.

8. If the hirer

(a) shall make default in punctually paying any hire instalment or

(b) shall be adjudicated bankrupt or shall file a petition in insolvency or enter into any arrangement or composition with his creditors or

(c) shall execute or create any mortgage incumbrance or charge of or upon the premises in or upon which the machinery may for the time being be, or give notice of his intention so to do as provided by the last preceding clause or

(d) shall fail to observe and perform any of the agreements and conditions contained in this Agreement and on his part to be observed and performed,

then, and in any such case, it shall be lawful for the Director to immediately put an end to the hiring, and for that purpose the hirer hereby authorises the Director or any one deputed by him to enter upon any premises in which the machinery may be for the time being, and to seize and take away the same.

9. Should the hirer hinder or prevent the Director or his Deputy seizing and taking away the machinery, then and in every such case the hirer shall pay to the Director the sum of Rs. 200 (two hundred rupees) as and by way of liquidated damage for breach of this provision and not by way of penalty.

10. If the Director shall seize and take possession of the said machinery under clause 8 hereof, the hirer shall have the option within one month after such seizure of purchasing the said machinery by the payment to the Director of Rs. together with the costs and expenses of and incidental to such seizure. In the event of the hirer making such payment within the time aforesaid he shall receive credit from the Director for all sums previously paid by him on account of hire and the amount paid on the signing of this agreement. If the hirer shall not exercise such option and make such payments within the time aforesaid, the option given to the hirer by this clause shall cease and the hirer shall not be entitled to any credit, allowance or return for or on account of any payments made previously by him.

11. No allowance, return, credit or payment, shall be allowed or paid to the hirer in the event of the hiring being determined by the Director as provided by clause 8 hereof, but the hirer shall pay to the Director at Bangalore all arrears of hire, interest and damages, for the breach of this agreement up to the date of such determination.

Such damages shall be in addition to and not in substitution of any damages mentioned in clause 9 hereof.

12. All sums falling due to the Director under this contract shall be recoverable from the hirer as an arrear of land revenue.

13. The Director hereby agrees that the hirer shall have the option of purchasing the machinery at any time during the hiring by paying the sum of Rs............with interest thereon at......*per cent per annum* from the date hereof, and also that if the hirer shall exercise such option he will give to the hirer credit against such purchase price for all payments which shall have been made by him for hire, with counter interest on such payments at the like rate and also for the sum paid on the signing of this agreement. But until such purchase price shall have been paid in full, the said machinery shall remain the absolute property of the Government of Mysore.

14. If the Director shall grant to the hirer any time or indulgence, the same shall not affect or prejudice the Director's rights under this agreement.

THE CHIEF COMMISSIONER OF COORG.

*Notification dated Bangalore, the* 10*th September* 1913.

No. 70. Whereas the Chief Commissioner of Coorg is satisfied that there is danger of an out-break of plague at Bhagamandala, a village in Tavunad-Sampajinad of Padinalknad Taluk in Coorg, if persons from the Mysore State, and other plague-infected areas are permitted to assemble at that place on the occasion of the ensuing Talakaveri *jatra* during the Tula Sankramana.

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Chief Commissioner prohibits the attendance at the said *jatra* of persons from Mysore and other plague-infected areas from the 7th October to 20th November 1913.

All persons proceeding to the *jatra* in contravention of this notification will be turned back.

P. B. WARBURTON,
*Secretary to the Chief Commissioner.*

No. 1008—R. T., dated the 5th June 1913.

RESOLUTION.—By the Railway Board.

Amendments in Chapter III, Part II of the General Rules for working open lines of railway—Revision of certain rules to regulate the packing and carriage by railway in India of certain dangerous goods, other than explosives.

RESOLUTION.—The experience gained in the working of the revised rules regulating the packing and carriage by railway in India of dangerous goods, other than explosives, which were promulgated with Railway Board's Resolution No. 1025—R. T., dated the 10th June 1912, has shown the necessity for certain alterations and additions to these rules.

2. In exercise of the powers conferred by the notification of the Government of India in the Department of Commerce and Industry, No. 801, dated the 24th March 1905, the Railway Board sanction, under Section 47, Sub-Section (3) of the Indian Railways Act, 1890 (IX of 1890), the adoption, by the Administrations of all lines of railway in British India administered by the Government and for the time being used for the public carriage of passengers, animals or goods, of the amendments specified in the enclosure hereto in the General Rules of 1906 for working open lines of railway.

3. The Railway Board desire that the said amendments may be brought to the notice of the Administrations of the several Railways not administered by the Government, and that the Agents and Managers of those railways may be invited to submit a formal application for the adoption of the said amendments on their respective lines.

ORDER.—Ordered that this Resolution, with the accompanying amendments, be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890 (IX of 1890), and that a copy thereof be kept open for inspection at railway stations as directed by sub-section (6) of the same section ; also that a copy of this Resolution and of its enclosure be communicated to the Local *Governments and Administrations and to the officers noted on the margin for information and necessary action ; and to the Local Governments and Administrations and to the officers noted on the margin† for information ; and to the Department of Commerce and Industry, the Army and Legislative Departments of the Government of India, for information.

## A Bill further to amend the Mysore Court Fees Regulation, 1900.

MR. H. V. NANJUNDAYYA in moving that leave be granted to introduce the Bill further to amend the Mysore Court Fees Regulation, 1900, said :—

The present proposal is to amend the Mysore Court Fees Regulation in the following manner :—

Section 35 runs as follows :—

"The Government may, from time to time, make rules for regulating :—

(*a*) the supply of stamps to be used under this Regulation,

(*b*) the number of stamps to be used for denoting any fee chargeable under this Regulation,

(*c*) the renewal of damaged or spoiled stamps used under this Regulation, and

(*d*) the keeping accounts of all stamps used under this Regulation."

The proposal now is to insert the words "or refund in value for" after the words "the renewal of" in sub-section (*c*).

The amended sub-section will then read as follows :—

"(*c*) the renewal of, or refund in value for, damaged or spoiled stamps used under this Regulation."

The reason for making this alteration is that sub-section (*c*) gives power to Government only to renew the damaged or spoiled stamps and does not provide for the refund of their value. In the case of general stamps, we have a provision in the Stamp Regulation itself which authorizes the refund of the value of spoiled stamps.

It is therefore considered desirable to provide for a similar provision in the case of Court fees.

MR. C. S. DORASWAMI IYER.—Sir,—I beg to second this proposition, and at this stage, when only leave is asked for to introduce the amendment, I do not think more words are necessary to commend this proposition to the Council.

MR. K. P. PUTTANNA CHETTY.—Sir,—By this amendment, it is only intended to give legislative sanction to the practice which is already in existence and I think, the proposition moved by the learned member in charge of the Bill may be accepted.

The motion was put to vote and carried unanimously.

## A Bill to regulate the Use of Motor Vehicles in Mysore.

MR. M. KANTARAJ URS.—Sir,—The motion standing against my name is for leave being granted to introduce a Bill to regulate the Use of Motor Vehicles in Mysore.

The Members of this Council are not unaware that there has been of late a very large increase in the number of motor vehicles plying about in the State, especially in the cities of Bangalore and Mysore. Apart from the motor vehicles in existence in the State itself, a large number of such vehicles are being used in all parts of the State by visitors from outside, who come for sight-seeing and other purposes. It has therefore become urgently necessary to provide for regulating their use and checking the abuses and minimising the dangers incidental to them. The enactment of bye-laws for this purpose in the Civil and Military Station, Bangalore, makes it all the more necessary that there should be similar laws in force in the Bangalore City and other adjoining parts. The result of the want of any such law in the State has been that the owners of motor vehicles residing in the State have to register them and take out drivers' licenses from the Civil and Military Station authorities to enable them to use their cars, within their municipal limits.

2. It has been found that none of the existing regulations contain any provisions for the regulation of motor vehicles and that a separate regulation is therefore necessary so as to be of general applicability throughout the State. A Bill has accordingly been drafted on the lines of the Madras Motor Vehicles Act, I of 1907.

3. The Bill provides for the registration of all motor vehicles within three months from the date on which it comes into force and it exempts from registration all vehicles registered under any similar enactment in British India or the Civil and Military Station, Bangalore. A driver's license has to be obtained for driving a car from the licensing officer who has discretion to refuse either to grant or renew a license. There are also provisions for regulating the use of these vehicles in other directions. Government have taken power to make rules regarding the various matters to regulate the use of such vehicles and penalties are provided for the breach of the provisions of the Regulation or of the rules.

4. It will be thus seen that the Bill is a non-contentious and a very necessary measure calculated for guarding the safety of the public and is drawn up on the lines of the Acts in force in the British Provinces; I therefore solicit sanction to introduce the Bill.

MR. C. SRIKANTESVARA AIYAR.—Sir,—I heartily beg to second the proposal to introduce this measure.

MR. K. P. PUTTANNA CHETTY.—Sir,—Very recently, this formed the subject of correspondence between the Bangalore City Municipality and the Government. The Cantonment Municipality have adopted certain bye-laws for regulating the traffic there, under which, it is necessary for every motor vehicle to be licensed by the President of the Cantonment Municipality, and the driver has also to obtain a similar license on payment of a certain fee. The non-existence of such rules in the city limits has made it necessary for the citizens of our own State to take out such licenses from the President of the Cantonment Municipality before they take their motor cars within the Cantonment limits. Of course, this is quite absurd and the sooner this anomalous state of things is put an end to, the better. As stated by the Second Councillor, the number of motor cars is increasing in the State day by day and it is not a day too soon that we introduce some such Act as the one that is now contemplated. It was at first thought that these rules might be brought under the Municipal Regulation but that would involve an amendment of the Municipal Regulation and would not apply to places outside Municipalities. It is therefore far better to have a separate Act that would be in force throughout the State including the Municipalities. I have not read the draft of the Bill just now placed before the Council, but I daresay it provides for everything which is required to be provided for in a Regulation of this kind. I therefore accord my hearty support to the principle involved in the introduction of such a Regulation as is now offered.

The motion was thereupon put to vote and passed unanimously.

Mr. M. KANTARAJ URS then moved that as the measure was of a very urgent and non-contentious nature it was unnecessary to refer it to a select committee and that therefore the rules of business be suspended so as to allow the said Bill being immediately taken into consideration and passed.

MR. C. SRIKANTESVARA AIYAR seconded the motion.

The Secretary then read the Bill.

MR. B. NARASINGA RAO.—Sir,—Motor accidents are becoming too frequent of late and it is necessary to introduce a Regulation of this kind to regulate and control the speed of motor cars. I have had the honor of pressing this question in the Representative Assembly of 1909 and urging the necessity for a regulation for limiting the speed of motor vehicles. Government were then pleased to observe that there were very few motor cars then and that the matter would receive attention if the motor vehicles should increase. Now that the motor cars have enormously increased in the State and the accidents have become common, the proposed Bill has therefore my hearty support.

The motion was then put to vote and carried unanimously.

MR. M. KANTARAJ URS then moved that the Bill be taken into consideration and passed.

MR. C. SRIKANTESVARA AIYAR seconded the motion.

MR. H. V. NANJUNDAYYA.—With the kind permission of the President, I beg to move two or three small amendments.

In Section 6, line 2, in the expression "above the rank of constable," the article "a" before "constable" has been omitted by mistake in printing. I propose that the article "a" be inserted accordingly.

The next amendment is only an arrangement in printing. In section 7, you will see that clauses, (*a*), (*b*) and (*c*) are co-ordinate clauses; and the part of clause (*c*), beginning with— "and he shall also, if so required, give his name and address and the name and address of the owner of such motor vehicle"—is not a co-ordinate clause with (*c*), but is co-ordinate with the first para and should be printed in a separate para.

In Section 9 (*f*), power is given to Government to make rules prescribing "the conditions under which drivers of motor vehicles may be licensed." I proposed to add to this "and licenses already granted may be cancelled."

In clause (*h*) of the same section, I propose to read "precautions" for "precaution."

In Section 10, as it stands there is some superfluity in mentioning the penalty along with the prohibition. There is no need to mention the penalty in this section, because the penalty is just the same as that given in the general section.

I would therefore propose to alter the section as follows:—

" After three months from the date on which this Regulation comes into force and after he has had reasonable opportunity of obtaining a license under this Regulation, no person shall drive a motor vehicle without such license or a license granted under a similar enactment in force in British India or in the Civil and Military Station, Bangalore, on a public road or thoroughfare or employ so to drive a motor vehicle, any person who is not so licensed."

After altering the section as above, I beg to move that the number "10" be added after "8" in Section 12.

I shall now proceed to propose amendments one by one.

The first proposal is to add " and licenses already granted may be cancelled " at the end of clause (*f*), Section 9.

Mr. M. KANTARAJ URS.—Section 3 gives also power to cancel the license.

Mr. C. S. DORASAMI IYER.—Section 3 relates to three matters, *viz.*—grant, renewal and cancellation of a license. It is as well to have all these three conditions together instead of having only one as in the amendment proposed. It may read as follows—"Conditions under which licenses to drivers of motor vehicles may be granted, renewed or cancelled."

Mr. H. V. NANJUNDAYYA.—There is no objection. The additions are suitable.

Mr. A. RANGASWAMIYENGAR.—I have had no time to consider the provisions of this Bill and compare them with others. I put before the members what just occurs to me regarding some of them.

In Section 4, sub-section 3, power is given to the licensing officer to cancel a license for various reasons. He has only to give notice of reasons which he considers necessary to cancel the license. The reasons may be various. The conditions which Government are going to impose, would be more limited in their scope. Would it not be in a way circumscribing the discretion he has under the Regulation? The licensing officer has got full liberty, and where is the reason for fresh conditions? I suggest this for the consideration of the Council.

The motion was put to vote and carried.

Mr. H. V. NANJUNDAYYA.—I propose that for Section 10 the following should be substituted.—"After three months from the date on which this Regulation comes into force, and after he has had reasonable opportunity of obtaining a license under this Regulation, no person shall drive a motor vehicle, without such license or a license granted under a similar enactment in force in British India or in the Civil and Military Station, Bangalore, on a public road or thoroughfare or employ so to drive a motor vehicle, any person who is not so licensed."

Mr. C. S. DORASWAMI IYER.—I second it.

The motion was put to vote and carried.

Mr. H. V. NANJUNDAYYA.—My next proposal is, that in Section 12, after the figure 8 at the end of the first line, the figure 10 be added.

Mr. C. S. DORASWAMI IYER.—I second it.

The motion was put to vote and carried.

The motion that the Bill as amended be passed was then put to vote and carried unanimously.

## The Bill to further amend the Mysore Excise Regulation, 1901.

MR. M. KANTARAJ URS moved that in clause 1 of the Bill to further amend the Mysore Excise Regulation, 1901, the figure "1913" be substituted for the figure "19—".

Mr. D. VENKATARAMAIYA seconded the motion.

The motion was put to vote and carried.

Mr. M. KANTARAJ URS then moved that the Bill as amended be passed.

MR. D. VENKATARAMAIYA seconded the motion.

The motion was put to vote and carried.

## The Bill for the Establishment of Village Courts in Mysore.

MR. H. V. NANJUNDAYYA moved that at the end of sub-clause (1) of clause 1 of the Bill for the establishment of Village Courts in Mysore, the figure "1913" be added and that at the end of sub-clause (2) of clause 1 of the Bill the word and figure "January 1914" be added.

MR. S. SEETHARAMAIYA seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA then moved that the said Bill as amended be passed.

Mr. S. SEETHARAMAIYA seconded the motion.

The motion was put to vote and carried.

## The Bill to amend the Mysore Mines Regulation, 1906.

MR. H. V. NANJUNDAYYA, in moving that the Bill to amend the Mysore Mines Regulation, 1906, be read in Council, said.—Section 17 of the Mines Regulation reads as follows:—"Any person not employed in a mine who shall have been directed to quit such mine by an order in writing signed by the Superintendent of the Mine, and who subsequently to such order remains at or re-enters upon the mine without the permission of the Superintendent, and any person not employed at any mine who shall have been directed to vacate a Government cooly colony by an order in writing signed by the Superintendent of Police, and who subsequently to such order remains in or returns to such Government cooly colony without the permission of the Superintendent of Police, shall be liable on conviction before a Magistrate to the penalty provided in Section 19."

This has been in force for some years, and it is shown that this provision as it stands is attended with certain inconveniences. A Superintendent of the Mine has jurisdiction only extending over his own mine. If he gives a notice to an undesirable person under this section, that notice does not prevent him from going to the other mine. He can remain there with impunity until he is served with a notice by the Superintendent of the second mine. In this way, to an indefinite length of time, the man may be lurking in a place where he is not wanted. You will see that as the provision at present stands, the Superintendent of Police has got jurisdiction to issue notice in respect of only Government cooly colonies. The proposal now made to obviate the evil described above is to take away the power given to the Superintendent of the Mine and to vest that power to issue notice to prohibit the residence of undesirable persons throughout the whole area, in the Superintendent of Police. With this object we propose to amend the section as follows:—"The Superintendent of Police for the Kolar Gold Fields may, by order in writing, direct any person, whose residence within such area as may be notified by Government from time to time, is considered undesirable to quit the said area within 24 hours, and such person shall not, after the lapse of the said term, remain at, or re-enter the said area without the permission of the said Superintendent of Police.

An order passed under this section may be cancelled by the Superintendent of Police or by the District Magistrate."

This makes the provision easy to work and obviates the difficulty that I described.

Then there are two slight amendments in the succeeding sections.

Section 18 runs as follows:—"No hawker or pedlar shall carry on his business without a license in writing obtained for that purpose from a Magistrate of the First Class. Licenses shall be issued subject to such conditions and the levy of such fees as Government may prescribe."

Then follows another clause:—"Any person carrying on such business without a license as aforesaid, or acting in contravention of any of the conditions of such license, shall be liable on conviction before a Magistrate to the penalty provided in Section 19."

This sentence is considered to be an unnecessary surplusage. I therefore beg to propose that this last sentence be removed. Section 19, as it is, is quite sufficient. It says:—"Any person committing an offence under Section 17 or 18 shall be liable on conviction to fine not exceeding one hundred rupees or imprisonment of either description for a term not exceeding three months or both."

It is unnecessary to refer to this both in Sections 17 and 18, as Section 19 provides for punishing the two acts. So, I propose that the last sentence in Section 18 be removed.

A slight amendment of Section 19 also is necessary. In the Sections 17 and 18 as they stand at present, the acts prohibited by them are made offences. But when the sections are changed, it is necessary to change the words "An offence" in Section 19 into "Any act prohibited."

MR. C. SRIKANTESVARA AIYAR seconded the motion.

MR. A. RANGASWAMIENGAR.—The Bill will go before a Select Committee and it will be well threshed out there.

MR. H. V. NANJUNDAYYA.—I do not think there is any need to refer this Bill to a Select Committee. Unless it is the sense of the meeting that this should be so submitted, I do not propose to move the next proposition at all.

MR. C. S. DORASAMI IYER.—I do not know whether I may propose one or two verbal additions. For instance, I would read "the said Superintendent" for "the Superintendent" occurring in the second paragraph of Section 17 as amended.

MR. H. V. NANJUNDAYYA.—I do not see the necessity for the correction. The Superintendent of Police of the Kolar Gold Fields is the authority referred to and the definite article before "Superintendent" is sufficient to denote that no other Superintendent is meant.

MR. A. RANGASWAMIENGAR.—There is no need for a Select Committee provided you are able to devote sufficient time and attention on the Bill at the next meeting.

I think the Bill requires some scrutiny. Section 17 as proposed says that "The Superintendent of Police for the Kolar Gold Fields may, by order in writing ..............area as may be notified by Government." By the expression "area notified by Government" I do not know whether it is the Gold Field area or any other limited area for a particular purpose. At any rate, it is not quite clear. Some sort of explanation is necessary.

MR. H. V. NANJUNDAYYA.—The Kolar Gold Field area is not notified under the Regulation. There is no official definition of the Kolar Gold Field area. It may be within the Fields or even a little beyond the Fields.

MR. A. RANGASWAMIENGAR.—The Mines Regulation may have force within a certain area to be notified by Government and the Government may prohibit the residence of undesirable persons in that area. The Regulation may have force in that defined area and cannot go beyond it.

DEWAN.—The area may be clearly defined for the purpose.

MR. A. RANGASWAMIENGAR.—I therefore suggest that the words "either in the whole or any portion of it" may be substituted for "the said area."

I wish to draw the attention of the Council to another point. An order passed under this section may be cancelled by the Superintendent of Police or the District Magistrate. I do not know whether it is immediately after the order is passed or some time later. How long is the order to be in force? If a man is sent away on one occasion as an undesirable, does the order under which he is so sent away remain in force for all time? As soon as the order is passed, is it enough if the man goes to the adjoining country and comes back after a time? I think something should be said to cover this case.

MR. C. SRININVASIENGAR.—Is the amendment of the Regulation acceptable to the mining authorities? And have their wishes been ascertained? If, after the amendment Regulation is passed, they say that it does not meet with their requirements, then it would be an inconvenient position for Government.

MR. C. SRIKANTESVARA AIYAR.—They are agreeable to passing this amendment. In fact, they have themselves asked for such a provision.

The motion that the Bill to amend the Mysore Mines Regulation, 1906, be read in Council was put to vote and carried unanimously.

MR. H. V. NANJUNDAYYA.—As the general feeling of the Council appears to be that it is unnecessary to refer the Bill to a Select Commiltee, I shall not move the next proposition in my name. The Bill will therefore be taken up at a subsequent meeting of the Council for consideration.

## The Bill to consolidate and amend the Law regulating Labour in Factories.

MR. H. V. NANJUNDAYYA moved that the Bill to consolidate and amend the Law regulating Labour in Factories be read in Council.

MR. K. S. DORASWAMY IYER seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA then moved that the said Bill be referred to a Select Committee consisting of Messrs. A. Rangaswamy Iyengar, M. Shama Rao, K. P. Puttanna Chetty, S. Seetharamaiya and the mover.

MR. K. S. DORASWAMY IYER seconded the motion.

The motion was put to vote and carried.

## The Bill to provide for Grant of Probate of Wills and Letters of Administration to the Estate of certain Deceased Persons.

MR. H. V. NANJUNDAYYA moved that the Bill to provide for the Grant of Probate of Wills and Letters of Administration to the Estates of certain Deceased Persons, be read in Council.

MR. B. NARASINGA RAO seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA then moved that the said Bill be referred to a Select Committee consisting of Messrs. C. Srikantesvara Aiyar, C. S. Doraswamy Iyer, C. Srinivasa Iyengar, D. Venkataramayya, B. Narasinga Rao and the mover.

MR. B. NARASINGA RAO seconded the motion.

The motion was put to vote and carried.

## The Bill to further amend the Mysore Local Boards Regulation, II of 1902.

MR. H. V. NANJUNDAYYA in moving that the Bill to further amend the Mysore Local Boards Regulation, II of 1902, be read in Council, said :—

When the Bill was brought up before this Council on 4th April last, my Honourable friend Mr. C. Srinivasa Iyengar observed that more time was required for consideration of the principle involved in the Bill. It will not be out of place if I make a few remarks on the principle underlying the proposal made by Government to introduce a new cess for the purpose of being devoted to the construction of railways—especially small feeder lines within the State. It is well known that a local cess of one anna on every rupee of land revenue and some other items of public revenue is at present levied and is devoted to be spent on certain defined objects, such as elementary education, roads, bridges and other useful works, administered by Local Boards and other authorities. If railways are taken to be only a special class of roads intended for general traffic there could be no objection in principle to devote a part of the revenue so derived for the purpose of constructing railways. But there is a fundamental difference between ordinary roads and railways. The former are as a rule open for free use by the public, whereas railways are open only to those who pay the fare prescribed. It may be quite just to maintain roads which are meant for general use at the cost of the general taxpayer. But why should he be asked to provide money for making a railway, for the use of which, fees are levied from those who resort to it for travelling or transporting their goods ? The cost must come from the fees levied, and there would *prima facie* be no justification for taxing persons who may never have occasion to use the railway at all.

Viewed in this manner, the proposal to levy a special cess seems to be indefensible. But the question is not quite so simple as that. If a railway is considered to be a venture which should be solely maintained by the revenue that it makes out of traffic, it would hardly be possible to start any railway line. Even the most prosperous lines were in the beginning not self-supporting, and Government had either to find the capital required out of the general revenues of the State, or give a guarantee to private Companies who found the necessary capital. A railway running through a tract of country confers a general benefit on it and stimulates trade and industries so much that it is recognised as one of the duties of the State to provide the facility in as large a measure as it can. The rates of freight and carriage of passengers will have to be prohibitive in the beginning if they have to meet all the expenses of providing the capital and working the line. If therefore the general revenues of the State may legitimately contribute towards the building of a railway, there can be no particular objection in principle to levy a special cess, when the money cannot be spared out of the general revenues.

If the State Funds are limited, the District Funds are still more so, and cannot possibly contribute anything towards financing these projects. Following the practice of some districts in British India, we have proposed to levy a special Railway Cess. It was intended to make this three pies in the rupee; but on the representation of some of the District Boards the matter has been further examined. We find that a three pie cess would be utterly inadequate to provide for these branch railways. The proposal first made by the District Board of Chitaldrug was to raise the maximum cess leviable to one anna. This is considered to be too heavy an additional burden and so the proposal submitted to the Council is modified so as to make the maximum cess leviable to be half an anna on every rupee. I now proceed with your permission to move that the Bill to further amend the Local Boards Regulation be read in Council.

MR. K. P. PUTTANNA CHETTY.—I second it.

MR. D. VENKATARAMAYYA.—I wish to state before this matter is referred to the Select Committee, that if there is any question of importance affecting the ratepayers as a whole in the State, it is the amendment of the Local Boards Regulation. The amendments come piece-meal. With regard to the levy of a fresh cess of six pies in the rupee for the purpose of Railways I wish to know whether the Government has in contemplation to confer certain powers upon the Local Boards before asking them to subject themselves to a fresh levy. What control the Local Boards should have over taxation and the items of expenditure, should receive the early attention of Government; and the question of conferring powers on them in this direction should be taken up early.

'Hitherto the only properties whose control have been vested on these Boards are the roads, the drains, the rubbish and the culverts and nothing more. The musafirkhanas were built by them, but the control of these was not vested in the Boards. Several things have been constructed from the funds of the Board, but control over them was not vested in them. I therefore want to know whether the amendment is intended to get only more taxes from the Local Boards and not to give them control.

MR. A. RANGASWAMIENGAR.—Of course, the Government have a right to impose the taxes in the name of the Board. But the analogy in this respect between British India and Mysore is not very close. There at least, the Railway lines are sanctioned on the initiative of the Boards and the funds are found by them. Here our Boards are too poor either to take the initiative regarding the formation of the looplines, and the branch lines or to contribute the whole fund for the purpose. They will only ask Government to take their funds into consideration and come to their help in the shape of a money grant.

As properly suggested by the First Councillor, wherever Railways are constructed, the people round about should tax themselves to bear the expenses in the earlier stages, until the railways become self-supporting. So, I think the distinction between British India and Mysore may be well brought out and explained when the Bill is considered.

The motion was put to vote and carried unanimously.

MR. H. V. NANJUNDAYYA, in moving that in the proposed new clause 1 (*a*) of Section 20 of the said Regulation, the words "half an anna" be substituted for the words "three pies" said.—When we framed the Regulation first, it was intended to levy the cess at three pies. But as this is found to be insufficient in many places I beg to propose that "half an anna" be substituted for "three pies."

MR. K. P. PUTTANNA CHETTY seconded the motion.

MR. A. RANGASWAMIENGAR.—I would like to make a few remarks One fact is to be borne in mind that the rates of assessment vary very much in this Province. For instance, in tracts where we have a large area of wet land, a cess of three pies or six pies in the rupee will be sufficiently remunerative and will bring in a fair amount of contribution. But in Chitaldrug, the acreage assessment is below one rupee and that is the reason why the District Board there have suggested a cess of one anna in the rupee. Perhaps in the malnad where the generality of assessment is two or three rupees per acre of wet lands and the dry lands are very few, the three pie cess would be found sufficient, so also in the plains where although the wet lands are limited still, the dry lands command a higher assessment of one to two rupees per acre. In Kolar and other places, it is even more than two rupees. There perhaps too, six pies would be adequate. So, whether the cess should be half anna or one anna, the better plan would be to have a higher maximum and leave it to the District Board to name the rate at which such cess should be calculated on the assessment per acre. Since the District Board of Chitaldrug has itself suggested one anna cess in Chitaldrug there is good reason to fix a higher maximum of one anna as mentioned here and not to declare the minimum. I would go further and even have a maximum higher than one anna. Although such a step would create some apprehension in the minds of the people, yet it will be more advantageous.

MR. D. VENKATARAMAIYA.—Certain parts of the Province are peculiar. One portion of a field in the same locality has dry rates of assessment while the other portion has wet rates. This state of things has given occasion to the shanbhogs to manipulate rates of assessment with reference to portions of the same land. Such peculiarities do exist in many places. But the fact that Chitaldrug District is lightly assessed is due to the scanty rainfall in the district. Of course, it is true that if the rate of cess be left to the District Board they can properly come to a conclusion about it after examining the local conditions.

MR. S. SEETHARAMAIYA.—Mostly in the malnad parts, the assessment paid will be heavy. The lands there consist of wet and garden which are taxed very highly. In the maidan parts they pay comparatively very small reevnue. It is only in the maidan parts that the railways can be more conveniently laid. Naturally persons in malnad may not be inclined to bear this additional cess of half anna or one anna whatever it be. Consideration will therefore have to be given in fixing the rate, to the circumstances referred to. So, I think it is better if some discretion is left to the District Boards.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA then moved that the said bill as amended be referred to a Select Committee consisting of Messrs. M. Kantaraj Urs, K. S. Doraswamy Iyer, C. Srinivasiengar, A. Rangaswamiengar, D. Venkataramaiya and the mover.

Mr. K. P. PUTTANNA CHETTY seconded the motion.

The motion was put to vote and carried.

## The Elementary Education Bill.

MR. H. V. NANJUNDAYYA moved that the report of the Select Committee on the Elementary Education Bill and the Bill as amended by them be taken into consideration.

MR. M. SHAMA RAO seconded the motion.

MR. K. P. PUTTANNA CHETTY.—This Bill is a very mild measure, having been shorn of all compulsory provisions. So much so that in some quarters it is feared that it does not very much improve the present state of affairs. Things are very much left to the discretion of parents and so on and too much consideration has been paid to the prejudices of the people concerned and the element of compulsion has not been made quite as strict as it should be in a measure of this kind. But beyond stating this, I should not like to say anything more against the measure. Half a loaf is better than no bread; and the public opinion while fully supporting it might in a future stage call for a stricter measure than what this Council has now considered sufficient.

I have now much pleasure in supporting the motion that this Bill be passed.

The motion was put to vote and carried unanimously.

MR. H. V. NANJUNDAYYA moved that the figure 1913 be added after the word 'Regulation' in sub-clause (i) of clause (i) of the Bill.

MR. M. SHAMA RAO seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA, in moving that the Bill as amended be passed, said:—

I do not wish to make any remarks about the Bill at this stage. But I am tempted to make one or two observations with reference to the criticism that has been made by my Honourable friend Mr. Puttanna Chetty.

He began by calling it a "mild" measure, meaning I suppose a measure that is practically useless. I beg emphatically to differ from that view of the case.

Mr. Puttanna Chetty seems to think that because he himself knows the value of education and that he is in a position to educate his children and dependents in a comfortable manner, the whole country is of that state of mind; and that the poor people who have to depend upon the labours of their children and who have not enough of property to devote for the education and improvement of their children will be equally enthusiastic about a measure of this kind.

It should also be remembered that there is a limit to the good that should be expected of such a measure. The universal education provided for by the Bill can only be education of a practically superficial kind. You cannot go very far at first to make education diffuse throughout the country. Naturally, it would be the least common measure that would obtain in such matters and would certainly be useful as far as it goes. But limited education is not such a universal panacea, that, at the risk of any hardship to the people in low state of life we should force it upon them. It will be easy enough for Government to pass a Bill that three years hence there should be no person in the State without education. But before this state could be actually realized there will have to be a long and weary struggle.

As the measure stands, we have taken power to Government to enforce this measure of compulsory education in selected areas. Probably we shall begin with some of the larger towns here and there. The unpreparedness of the people is not the only restraint that will operate on the extension of this measure. The means of Government to enforce it have also to be taken into consideration. We have already begun by making primary education free throughout the State; and if we are to create schools in all the places in the State so as to enable people to resort to them and to educate all their children, it would mean enormous expense. And as probably the members are aware, the elasticity of our revenue is not very great. To cope with the increasing expenditure, we have under consideration the introduction of income-tax into the State. The extra income that can be derived from this source, cannot, after all, be more than a lakh or two of rupees; and this when compared with our present revenue will be nothing. If with about two crores of our revenue we are unable to expand education as much as we like to, it is vain to expect that we will find new sources of revenue sufficient for universal education in the State.

There is also another circumstance to be taken into consideration. It is not only enough that a few people who are the advanced members of the community and who move with the Government, have these ideas of the uses of education. At least a respectable majority of the people should possess the same views. Unless they do that, whatever measure of education you may introduce at the youthful stages of the population, is bound to be neglected soon after they leave their school. As we go on increasing education, we must also go on increasing a love of knowledge and a feeling of the value of education. Unless we do that, no legislative measure will be useful and bear lasting results. It is the prudential considerations of this kind that made the framers of this measure not to err on the side of being over-sanguine.

In the first place, Government have power to extend the measure to whatever tract of country it considers expedient. In the next place, the provisions will apply only to boys and Government has taken power, if necessary, to enforce these provisions in the case of girls also in such areas. Government have also further taken power to direct that certain classes of people, who, either by reason of backwardness, poverty or other cause, are unable to fully take advantage of it, may be exempted from the operation of the measure. These two precautions are, I think, necessary, and are, at the same time, elastic enough not to come in the way of Government extending the provisions of this Regulation to as large an area as it may consider desirable.

With these remarks I beg to move that the Bill, as amended, be passed.

Mr. M. Shama Rao.—I beg to second the proposition and in doing so, I beg also to state that as an initial step, I think a mild measure like the present one is welcome. Mr. Puttanna Chetty is no doubt very eager that the day should come when we shall have a broader measure and I also agree with him—but I consider that that time is not the present one. It must come within a few years. When the present measure is allowed to operate for some time, it must expand, and the larger measure must come. There was a sort of compulsory education in our days when the young learner was made to learn under the fear of the rod,—and I was myself a victim to it and ever since knowledge began to dawn upon a child, his playfulness began to be checked in the school room; and the fear of the rod was always held before him, so that he used to dread going to the school as any of us dread a poisonous snake. All those days are passed. No boy of to-day dreads school. In these days, a school generally begins with music and games, and he cheerfully attends the school even if parents are unwilling to send them there.

So, I welcome the measure which has been brought before the Council for adoption, because it transfers in a way the compulsion from the boy to the parents.

I have therefore great pleasure in supporting this measure.

MR. D. VENKATARAMAYYA.—While in the Select Committee I thought the provisions of restraint shown in the Bill were intended only as a step to make a beginning. I always thought that when a beginning was made, it would be pushed through, neither expense nor unwillingness on the part of any, being in the way of the benefits of the Bill coming to the people. It might be that we may arrive at a stage when the expansion of education may require further funds to be provided for in the general expenditure of the State. But I consider that education should be put in the forefront of the programme of the expenditure of the State and as far as possible educational facilities should be extended from the remotest corner of the State to the capital in which it is now intended to be introduced. I look to the day when education would go to the remotest corner of the State. I do consider that this is a very beneficial measure, although we only make a beginning in large towns, the State will gradually have to extend its benefits to other parts also. At present, we find that social improvement requires expansion of education for which proper equipment of schools is necessary. It is thought that it is not possible to find as many teachers as the State would require. It is a gradual method of equipment and nothing should come in the way of such equipment so that all parts of the State may have a proper staff of teachers. It is true that our finances are short but in my opinion other expenditure will have to be curtailed. The expenditure on education will have to be put as the first charge on the expenses of the State, barring those about which, no curtailment is possible.

There is one other aspect. It might be said that compulsion might lead people to desert their children with a view to avoid being brought under the penal clause of the Regulation. For my part, I would wish for a state of things arriving soon when the civilized Government will have to legislate to provide for the destitute and educate them. I look to the day when people would take education cheerfully and give up even their parental authority to be taken care of, in the matter of education, by the State itself. The State should come to the rescue of parents who cannot educate their children.

On the whole, I think, it is a beneficial measure and people would accept it most cheerfully and thank the Government of His Highness the Maharaja for enacting it.

MR. A. RANGASWAMIENGAR.—This is a very important measure and I take this opportunity of submitting a few remarks.

I welcome this measure as one which has been taken in the best interests of the community. Everywhere, the value of education as a *sine qua non* for the existence of a community to a certain extent is recognized and it is not a day too soon in which a measure of this kind is brought. At the same time, I attach very great importance to the valuable remarks which fell from the mover of the resolution—I mean Mr. H. V. Nanjundayya. The measure must take into consideration the needs of the community, its means, social position, its powers and resources and various other considerations. We cannot ignore the fact that hitherto, there was no obligation on the part of the parents even to feed and clothe their children. If they did it, it was a question of charity. Nobody regulated the control of the parents over their children, and as regards education, it was confined more or less to the higher classes. Even now, the popular belief is that education is useless for the lower strata of society. We must fight against this belief and gradually educate the people. I am therefore not one with those who want a measure which will change the whole country all at once by introducing schools everywhere. The resources of the Government must, first of all, be considered. If they are able to provide the requisite funds, the agency is limited. We have then to remember that the greater part of the population is composed of ignorant classes and most of them are very poor. We must therefore advance very slowly. The cautious provisions of the Regulation are not at all unnecessary. As the ideas of education get more and more familar and people realize that education is necessary and that it meets the ends and aims of their life, then there will be grater co-operation among the people and they will cheerfully sacrifice their ideas of comfort to achieve the greater purpose of education and will readily submit to restrictions.

So, I think, the measure is very well suited to the present needs and it is capable of expansion as facilities are found and we need not at all be sorry that the measure does not go much farther than it has done.

MR. K. P. PUTTANNA CHETTY.—I feel called upon to say a few words in explanation of my previous remarks.

I would be the last person to belittle the importance and usefulness of a measure of this kind. I believe it is conceived in the best interests of the State. What I intended to say and what I do say is, that it has not gone far enough. I shall only read to this Council some of the provisions to show that it makes the matter too mild so as almost to defeat the object in view.

Section 4 (1):—"Any of the following circumstances is a reasonable excuse for non-attendance:—

(*b*) that the boy is prevented from attending school by reason of.................... domestic necessity, the seasonal needs of agriculture...................."

Are these sufficient to prevent the parents from sending their boys to school? What I say is, that these things might well have been omitted so as to confer the fullest benefit of the proposed measure on the people at large. A certain amount of mildness is necessary, but I think we have conceded too much. That was what I felt when I said that the Bill was mild. Wherever there is a school, let us make the attendance thereat compulsory. If you make it compulsory, you will double or treble the numbers attending them. When new schools are established, it would be a pity if you don't make the conditions somewhat rigorous. If you excuse a parent from sending a boy to school on account of seasonal conditions, I fear the very object of the school would be frustrated. It would not be wise to grant exemptions so freely.

We know that the arguments which have now been used against compulsion are the usual ones used against every other measure of this kind. But we know that such compulsion has been used in other countries with success. Unless it is done in this manner, it will not have the fullest effect. Apart from saying this, I don't mean to say that the present Bill is altogether useless. On the other hand, I do hope that the day is not far distant when the learned mover of the Bill would bring forward a much more comprehensive measure before this Council. I should say that the backward classes should not be exempted. They are the very classes whom we wish to touch by this measure and they need it more than the higher classes on account of their backwardness. If the lower classes become literate, Government would be much easier, you would need less Police, and altogether the millennium for which every one is hoping would arrive much sooner than it would otherwise be.

MR. S. SEETHARAMAIYA.—The Bill has been well threshed out by my learned friends here. It had already been considered very thoroughly when the Report of the Select Committee was submitted.

Having regard to the present state of society it is quite impracticable to make the measure more stringent. We cannot make people take interest in this matter by compulsion all at once. We must create interest in the matter by introducing schools here and there and make people love education and be benefited by this measure. When people are not prepared to consider these healthy measures as beneficial to them and particularly when they are not accustomed to this kind of life, and when raiyats consider their usual avocations more important and immediately beneficial to them than attending schools, we cannot make more stringent measures to compel them to send their boys to schools in spite of their domestic necessity or other inconveniences.

Having regard to these circumstances, an enabling provision has been made that in case of any such domestic inconvenience or seasonal periods of cultivation and such other occasions when there is sufficient cause, they may keep their children away from the school. I think a more stringent measure cannot be introduced into the State at present. Of course as time goes on, more restrictions suited to the state of the society may be introduced later on. At present, I think the present measure is sufficient.

MR. C. S. DORASAMI IYER.—There is really very little to be said upon the subject as all possible views have been already placed before the Council. I may remind this Council that this is the Elementary Education Bill primarily intended for the elementary education of the masses and not to bring education compulsorily without exceptions to the door of every person. A certain amount of compulsion is necessary, a compulsion which will not be felt by parents, which will not harass them to any extent, but which will in course of time be felt by parents as intended to enable them to discharge a part of the parental duty that is due to their children. The interest which will be created by the measure will, in course of time be such as to enable parents to conceive that it is intended for the benefit of their children and as such, it ought to receive support at their hands. It is with a view to create such an interest in the parents, that the Bill has been conceived. A measure of this kind which means the spread of elementary education or in other words, spread of knowledge among the masses, is one that should receive the hearty support of this Council.

DEWAN.—Before putting the motion to the vote, I wish to observe that the percentage of literate persons in Mysore is only 6. We may be a little better than we were many years ago but that does not show that we are making any appreciable progress.

I am glad to notice that some of the non-official members think that the measure is not sufficiently strong. Mild as it is, it is a measure full of possibilities and our sincere congratulations are due to the mover of the Bill for helping us to carry through this important piece of legislation.

The motion was put to vote and carried unanimously.

## The Bill to further amend the Mysore Municipal Regulation, 1906.

MR. M. KANTARAJ URS, in moving that the Bill to further amend the Mysore Municipal Regulation, 1906, with the Bill as amended by them be taken into consideration, said.—

SIR,—I now beg to place the Select Committee's report on Municipal Regulation Amendment Bill. The Committee have made only one important change in the Bill and that is to insert a clause that the provisions relating to the notice to be given to Municipalities of all transfers of title by the transferer and transferee of houses and lands shall apply to any Municipality, only if they are specially extended thereto by a notification of Government. This has been inserted in view of the fact that these provisions are somewhat exceptional in character and hence require to be applied cautiously in selected places. You will see from the Select Committee's report that a note of dissent has been made by one of its members expressing his inability to support the provisions of clause 3 of the Bill. I shall reserve my remarks on the matter as there is a direct motion in Mr. Venkataramaiya's name to omit the clause altogether.

2. I may perhaps explain the circumstances which led to the Select Committee's recommendation with regard to clause 2 of the Bill and to the next motion on the agenda in my name to restore the phraseology as it originally stood. Clause 2 of the Bill in its original form proposed to exempt one bicycle and one horse belonging to the members of the Police force of the City or the Civil and Military Station, Bangalore. The Select Committee had no definite information as to the nature of the concessions allowed by the Civil and Military Station Municipality and it recommended that either a bicycle or a horse may be exempted, if a similar concession will be shown by the Civil and Military Station Municipality. It has

now been ascertained that the new bye-law of the Civil and Military Station exempts both a bicycle and an animal belonging to the members of the City Police force. This has been passed by them on the understanding that the City Municipality grants a similar concession. It is therefore necessary that a similar provision should be made in our Municipal Regulation and hence the word "and" is proposed to be substituted for "or" in clause 2 of the Bill.

MR. K. P. PUTTANNA CHETTY, in seconding the motion, said.—When the report of the Select Committee meeting was held, I was unavoidably absent, but I wrote to the Second Councillor communicating to him my inability to attend the meeting. When the Select Committee's report was published, I thought it was desirable that a bicycle as well as a horse should be exempted because Police Officers keep a bicycle and also a horse and wrote to the Second Councillor on the subject. To exempt only one of the two would not be sufficient. I am glad that the Second Councillor has seen fit to adopt this suggestion of mine. I heartily support the motion.

The motion was put to vote and carried.

MR. M. KANTARAJ URS then moved that the word "and" be substituted for the word "or" substituted by the Select Committee in clause 2 of the said Bill.

MR. K. P. PUTTANNA CHETTY seconded the motion.

The motion was put to vote and carried.

MR. D. VENKATARAMAIYA, in moving that clause 3 of the said Bill relating to registry of names be omitted, said.—

To the reasons that I have already stated in my minute of dissent, I beg to add one or two more.

On 4th July 1893, as a member of the Bangalore City Municipal Council, I submitted a proposition to the following effect:—

"That it is necessary that a regular survey of the lands, houses and buildings within the Municipal limits shall be made before the revision of the taxes." This was carried by the full Municipal Council and a survey or list as required by the Regulation in force in 1871, was prepared and afterwards a revision also took place in the City in all the Divisions. There was not a single doubt expressed either on that occasion or on any subsequent occasion in the Municipal Council that a measure of this kind was necessary. It is not stated while asking for a provision of this kind whether the Municipal Council of the City of Bangalore or for the matter of that, the Municipal Council of the City of Mysore, in meeting assembled, asked for a provision of this kind. Even in the existing Regulation, there are ample provisions for the preparation of lists. Under Section 11, "the Government shall, from time to time, generally or specially for each Municipal Council......................(c) make rules consistent with this Regulation, for (i) fixing the dates and the time and manner of holding elections....................(ii) prescribing the number to be elected by the ratepayers or by sections of inhabitants...............and the qualifications of candidates and of voters other than as hereinafter provided."

In this, before the election takes place lists are required to be prepared and published. If any omissions are to be found in the lists or if certain names are not to be found, time is given to the ratepayers to go and state their objections and the lists are amended or corrected. And then Section 12 (*c*) says "Every person who for the like period, has been paying taxes, other than octroi or toll, imposed in that Municipality, of an amount not less than such minimum as shall, for the time being be fixed for that Municipality by the Government shall be qualified as a candidate............".

Again under Section 68 of the existing Regulation "every tax imposed in the form of a rate on buildings or lands or on both shall be leviable primarily from the actual occupier of the property upon which the said taxes are assessed............".

"Provided that on failure to recover any sum due on account of such tax from the person primarily liable, such portion of the sum may be recovered from the occupier of any part of the buildings or lands in respect of which it is due as bears to the whole amount due the same ratio, which the rent annually payable by such occupier bears to the aggregate amount of rent so payable in respect of the whole of the said buildings or lands or to the aggregate amount of the letting value thereof if any, stated in the authenticated assessment list whichever those amounts is the greater". While each provision goes far enough and the above section makes provision for maintaining an authenticated assessment list which is to be prepared once in four years at least under Section 67, I don't see any necessity for the new provision suggested by the Select Committee. In Section 63, ample provision is made in cases of doubt where the executive find that the name is not known or that it is not capable of being known. In such cases, they can take the help of the Councillor of the Division or any person who can give the information and prepare the list every year. Under clause 3 of Section 63 ".on the requisition of the Municipal Council or of such person, the owner or occupier of any such building or land shall, within such reasonable period as shall be specified in the requisition, be bound to furnish a true return to the best of his knowledge or belief and subscribed with his signature:—

(*a*) as to the name and place of abode of the owner or occupier or of both,

(*b*) as to the dimensions of such buildings or land and the annual letting value or other valuation thereof."

Section 64 provides:—

"When the assessment list has been completed, the Municipal Council shall give public notice thereof and of the place where the list or a copy thereof may be inspected; and every person claiming to be either owner or occupier............shall be at liberty to inspect the list and to make extracts therefrom without charge."

Section 65 says:—

"The Municipal Council shall, at the time of the publication of such assessment list, give public notice of a time not less than one month thereafter, when they will proceed to revise the valuation and assessment............"

All these things do exist. If the executive did not look into the provisions for these things, it is no excuse for them to come before this Council to plead for such a Regulation.

I wish to draw the attention of this Council to the fact that such a measure nowhere finds a place throughout India except in the City of Bombay. And that the other councils that exist in India in large numbers do not require a measure of this kind is plain proof that they do not see the necessity for it. If such a provision is necessary or needed, I think the first duty of the Municipal Executive is to place the matter before the Municipal Conncil and call for their opinion and then judge the need for legislation. In this instance, it is not stated, in the objects and reasons given for the provision that any Municipal Council in the State required a provision of this kind to be inserted in the Regulation. Even if it is inserted, what is the benefit after all? It will only import doubts where none existed and who is to decide the question as to who is primarily liable to pay the tax? If the owner is not forthcoming, we look to the occupier. Why should we under these circumstances make provision for some other name being given? Suppose there is some delay in giving the name, should the executive then take advantage of this for delaying collection of revenue? We find cases in which transfers of pattas for some reason or other was delayed for years together. Many of these cases may refer to a question of right of ownership of the property requiring the decision of a Civil Court. If the power such as is proposed in the measure is given to the executive, it is now likely that it would be abused, with the result that while doubts as to ownership are created, no revenue is collected.

There is yet another aspect. Even under the Revenue law, although there is a provision that receipts should be granted only on the patta book and not on any other paper, shanbhogs in many cases, violate the rule and issue pattas on small bits of paper which are lost or mislaid very soon, thus throwing doubt on the question of the actual payment of the revenue. If such loopholes are allowed, it will be extremely difficult to rectify them and the collection of revenue would be considerably delayed.

I do not see any necessity made out for a provision of this kind and if it is now brought into existence it would create more dilatoriness in the collection of revenue rather than accelerating it which latter ought to be the prime object of the provision.

I may refer to one other aspect. The Land Revenue Code makes the payment of revenue a primary charge on the property, which may be sold if need be for the recovery of the taxes. But here, if it is left in arrears, we have only to resort to Civil Courts. Hence, the sooner the Municipal taxes are collected, the better it is for the Council to maintain the affairs of the Municipality in an efficient standard. If it is allowed to fall into arrears, probably the Council would be required to go to Court to recover the amount by a decree of the Court. If once a loophole is created in the Regulation itself tending to delay in the recovery of the revenue, the Municipal Council will be subjected to law's delays. This is a serious aspect. If this measure is viewed with favor by Government we will find very soon that the Municipal Council will have to file hundreds of suits againt owners for the recovery of arrears which was never the case before in the Municipal Administration of the Bangalore City. I consider that it is a waste of Municipal money to spend on going to Courts for the recovery of small arrears which will have been left uncollected after the passing of this measure. It may be that during some part of the Municipal Administration, there was laxity on the part of the Executive, but that should not be the reason for passing a measure of this kind when we have better officers as we have at present, under whose management, our affairs are bound to improve; and with the preparation of the lists now ordered to be prepared, the collection also is bound to improve.

On these considerations, I propose that this clause be omitted.

MR. S. SEETHARAMAIYA.—In seconding the amendment, I wish to submit that there must be a necessity for introducing a measure of this kind. Such necessity has not been made out. For some reason or other, owing perhaps to want of activity on the part of the Municipal Executive, the collection of taxes in the Bangalore City seems to have remained unsatisfactory.

DEWAN.—Now in fact, the complaint everywhere is that the taxes are collected more rigorously.

MR. S. SEETHARAMAIYA.—The complaint of want of activity may have disappeared now after the new President took charge of the Municipal affairs. But at any rate, if this measure is introduced, we will have to consider whether it will help the collection of arrears in any way. The measure provides that within three months after its introduction, the transferers and transferees of lands or houses must report in the prescribed form, or rather give notice of such transfer to the Municipal Council. There may or may not be transfers within three months. By virtue of this provision, no help can be expected in the matter of collecting the arrears. This measure, moreover, cannot have retrospective effect. So that, practically, this measure cannot meet the necessity for collecting the arrears due. But, for the future guidance at least, is there any necessity for the provision? The provisions of the Municipal Regulation read out by my Honourable friend Mr. Venkataramaiya clearly show that every provision is made for the collection of arrears and the current dues. There is no difficulty for collecting current taxes now. A little more activity on the part of the collecting officers, such as ascertaining the details of the properties from the persons liable to pay the taxes, will easily tend to prompt collection. There is thus neither a necessity for introducing this measure nor would it help the collection of arrears. The provision is quite unnecessary to the Municipal Executive while on the contrary, the inconvenience and disadvantage to the public would be very great.

There may be persons who cannot ordinarily be expected to give notice of the transfers, to the Municipality conveniently within the period prescribed or even with double or treble that time given them. There are a good many ignorant people who cannot be expected to know the technicalities of law, and submit the required information in the prescribed form and within the prescribed time to the Municipal authorities.

There is an analogous instance of a more important nature, namely in the matter of transferring holdings. Unless the people are intelligent and active and have got facilities for attending Courts and having their *vargs* (holding) transferred, these are not transferred at all even long after the lands are transferred. When such is the case, in the matter of these houses owned by poor and illiterate people it is very great hardship to them to get hold of prescribed forms, get them filled up in time, produce them before the authorities and so on. There may also be instances of a more difficult kind. The owners of certain lands may die leaving helpless widows and children who may be minors. They may be concerned with the miseries of their lot and cannot be expected to attend to these matters and fulfil these formalities. In so many ways, it would work hard upon the people and would be very disadvantageous to them. The advantage to the Municipality too is very little, in fact it is nil. So, I submit that this measure may not be approved but eliminated as proposed.

MR. K. P. PUTTANNA CHETTY.—Sir,—I think there is an undercurrent of feeling in this Council that I am in some way responsible for this measure. It is far from it. But since the Honourable the President wishes to know my own views, with due deference to the mover, I would submit what I think to be the present aspect of affairs.

I do not know if the measure is aimed at the Bangalore City Municipality, or at all the Municipalities. Evidently, it is not intended to extend it to minor Municipalities but only to the two premier Municipalities of Bangalore and Mysore.

Mr. D. Venkataramaiya took us into all the mazes of the Municipal Regulation and very lucidly explained that the Municipality has got to maintain what is called an assessment register. I am not here to tell tales about my Municipality or any other. But since you have pressed me to express my own opinion about this clause, I may say that such assessment register is not maintained in the Bangalore City Municipality. We have been in existence for 40 years and the register required to be maintained under the Regulation has not been maintained, and the shanbhogs collect the taxes—Heaven knows from whom—because the names of the people who are responsible for the taxes are not shown in any register of the Bangalore City Municipality. The shanbhogs are the repositories of all the secrets about the lands and buildings and about their owners or occupiers. If the lists under the Regulation showing the name, door number, street, rental value and the assessment had been prepared from time to time, a great step would have been taken to make the collection work easy. But such is not the case at present and I am sorry, we have to depend on the personal knowledge of the shanbhogs for every little thing. The Municipal assessment is recoverable not only from the owner primarily, but also from the occupier or other person, and a department which cannot say to whom a particular property belongs can do very little in the way of collecting the arrears. There are thousands of instances in which the properties have changed hands and nobody knows about them. We have entirely to depend upon the personal knowledge of shanbhogs. Suppose we have now an assessment register prepared for the whole city—of course a work of great labour—and transfers take place almost every day. It is a very difficult thing to know how these properties change hands. This duty cannot be shifted on to the shanbhogs. Once in a way, they come to know that the property has changed hands. But they cannot know how it has come about. Suppose a man sells a house to another person, does he not execute an instrument of transfer, a sale-deed and does he not go to the Registry Office? We do not even want him to go to the Municipal Office. We only ask him to send an intimation of the transfer in any form. To simplify matters, a certain form has been prescribed in which the intimation is to be given What harm is there in this? When a man takes the trouble of going to the Registry Office and does many other more troublesome things which the Civil Law requires him to do, can it be hard for him to do a small thing—to merely intimate the transfer to the Muncipal Office? Where is the necessity for lament and for assuming all those disastrous consequences so vividly depicted by my friend? I think a provision of this kind will facilitate collection and will not place the executive entirely in the hands of the shanbhogs as at present. Then again why should the obligations be all on one side? Why should not the public also have some obligations cast upon them? The Municipality should do this and the Municipality should do that; but why not the public help the Municipal officials by sending them intimations of the changes of title? It is a very simple thing and one which does not impose any fearful amount of work upon the people.

Secondly, I know it has nothing to do with the collection of arrears. We want to maintain a register in a complete form, for which purpose we want to know what changes take place in the titles. If the owners are required to do it, and if they do not do it, some penalty should be imposed on them. The penalty may be small, but some penalty should be imposed.

Then, as regards the other observations made by my friend about the Municipal officials, I beg to say that these officials are certainly not perfect and are full of human imperfections and that a general need for an amendment like the present measure is much felt by them. And as for doubts being created where none existed, it is not a question of creating doubts, but we do not want to act upon the verbal statements of shanbhogs but upon the written statements of the parties themselves; so that from the present unsatisfactory state of dependence on the shanbhogs, we resort to a system of dealing direct with the parties concerned and not submit the Municipal Office to the mercy of its shanbhogs.

It is stated that the Municipal Regulation does not give power to the Municipal Council to recover dues by summary process. But it has to be stated that the Municipal Law has a much more summary process now available in the Regulation than is to be found anywhere within the four corners of the Land Revenue Code, *viz.*, distraint and sale of property.

It has also been said that a provision of the kind under consideration does not exist in any other Municipality than Bombay. It is true. But our Regulation is based upon the Bombay Code and so there is nothing very much out of the way, when we accepted the provision in force in the Bombay City. But at this stage, we need not compare ourselves with the Presidency towns.

For these reasons, I would say that there is nothing very formidable in the very simple proposal put forward and which has been passed by the Select Committee. The Select Committee has further modified the proposals by saying that it is applicable only to such of the Municipalities to which it may be extended by an order of Government, and any fear that may be entertained is laid at rest by this provision.

I therefore think that there is no fear in accepting the opinion of the Select Committee. But as regards the penalty, I am agreeable to reduce it so as to bring it down even to Rs. 5. Taking all things together, I think we need not entertain any great anxiety as to its consequences.

MR. D. VENKATARAMAYYA.—Sir,—With your kind permission I beg to say a few words. Mr. Puttanna Chetty has touched upon only one point out of a hundred. He touched upon the point of transfers by a written instrument or by registration. But what is the law that we have before the Council now? It reads as follows:—

Whenever the title of any person primarily liable for the payment of a tax imposed on any premises in the form of a rate on buildings or lands or with, to or over such premises is transferred, the person whose title is so transferred and the person to whom the same shall be transferred, "shall within three months after execution of the instrument of transfer, or after its registration, if it be registered or after the transfer is effected, if no instrument be executed, give notice of such transfer in writing to the Municipal Council". That is one portion. Another portion is.—"In the event of the death of any person primarily liable as aforesaid, the person to whom the title of the deceased shall be transferred, as heir or otherwise, shall give notice of such transfer to the Municipal Council within one year from the death of the deceased". Here the law requires notice to be given not only in the case where there is a written instrument executed and registered but also in other cases where the law does not require a transfer to be made in writing.

Under the Hindu law, a property may pass from one to the other without any writing at all. Is not then, a duty cast by the proposed revision on every individual living in the city, quite opposed to the Hindu law? The Mohammadan Law also does not require a thing like that. Why should such a duty not required by the Civil Law, be cast on the people? The duty which this law requires is that such a thing should be given notice of within three months. That is a duty which no other law in the Mysore State casts upon a citizen in the city of Bangalore. If the Civil Law does not require a document to be registered, how can such a duty be cast when the Municipal tax is not paid?

The second aspect is—suppose a man in the Hindu family dies, who is the man that should give notice after the death? Can Mr. Puttanna Chetty give an answer in the present state of Hindu society or Mohammadan society or for the matter of that in the state of society where there is marriage from one caste to another or where there is concubinage whether recognized or unrecognized? Thus, therefore, duties are cast upon individuals where the caste injunctions do not require them. In highly civilized societies where the people are sufficiently educated, it is easy enough, although it must involve complicated inquiries and other considerations before the necessary transfer is effected. But the question is whether a provision such as this is quite necessary for the collection of taxes. Our Regulation expressly states that in the absence of the owner, the occupier has to pay the tax. When we have an actual provision like that, why go in search of a phantom?

Mr. Puttanna Chetty said that all that was required to satisfy the provision was to give an intimation to the Municipality of the transfer, etc. But suppose somebody for a joke sends a letter by post to the Municipality intimating a certain transfer of a particular property. Would he act upon it and proceed upon the owner for failing to pay the tax?

It is not possible for any Municipal official to undertake to settle questions of title, and other attendant circumstances involving trouble and complications of inquiry. If it is only a question of posting a letter of intimation any mischief-maker can do it. Can you act upon it is the real difficulty.

MR. A. RANGASWAMIENGER.—I think what fell from Mr. K. P. Puttanna Chetty himself is a sufficient argument against this provision. The provision seems to imply that the Municipality had to maintain a register for recording the alterations and that it has not been so maintained. Mr. Puttanna Chetty made a fatal admission when he said that he had no register and that the shanbhogs were the repositories of all the secrets of title. What will the Municipality do if a notice is received? The best plan would be to wait till the register is prepared and then take action. The wording of the section itself is objectionable. There is no object gained and the penalty proposed is altogether incommensurate. The code assumes the liability of the owner to pay the tax, and in his absence, of the person who is actually in occupation. Failing to recover the tax from the owner the Municipality is authorized to collect tax from the occupier. Before this can be done, the Municipality has to give notice. How will it give a demand notice unless in some form or another, it is in possession of some information as to the owner or occupier? If this be the position, the Municipality has only to proceed against that occupier; and in order to escape the liability, that man will, of his own accord, come forward and say "I am not the occupier, he is somebody else." You have got the whip in your own hand. Until he shows he is not responsible, you can easily throw the burden on him. Instead of doing that, you want to make somebody else responsible. Even under the Revenue law, Kabuliyats and Vargrajinamas are not presented at all for years together. Still the Revenue officials are able to collect the assessment. Why should a Municipality—treated like a private individual, which should go to law like all others—why should it have a luxury of a written notice sent to it; and as pointed out by Mr. Venkataramaiya have a dubious notice? I think, the provision is, objectionable in many ways. And the section itself is badly worded.

I therefore think that the Council will do very well to allow this to be more clearly worded in a workable manner and only after the register is maintained in such form as is required, consider the necessity of granting further relief.

MR. H. V. NANJUNDAYYA.—We are disposed to accept the substance of the discussions here. But as it will become necessary to omit the whole of Section 3 and by this step some of the other useful provisions will also be left out, we are disposed to recast the provision by omitting the penalty clause.

I therefore beg to move that the discussion of this question be postponed till the next meeting.

MR. K. P. PUTTANNA CHETTY.—I second it.

The motion was put to vote and carried unanimously.

## The Mysore Muzrai Bill.

MR. H. V. NANJUNDAYYA, in moving that the report of the Select Committee on the Mysore Muzrai Bill and the Bill as amended by them be taken into consideration by the Council, said.—

I rise to move that the report of the Select Committee on the Mysore Muzrai Bill with the Bill as amended by them be taken into consideration.

The Committee unfortunately missed the valuable co-operatian of Mr. A. Rangaswamy Iyengar who was not able to attend the meetings, but the other members (Messrs. C. Srinivasa Iyengar, Amir Hassan, K. P. Puttanna Chetty, C. Srikantesvara Aiyar, Seetaramayya and myself) have been able to submit an unanimous report. This is a matter for some satisfaction, for the measure is somewhat novel in its provisions, and has been criticised from different points of view.

When I had the honour of introducing the Bill at the last meeting of this Council, I described at some length the different subjects dealt with therein. For the sake of making the arrangement clearer the Bill has been divided into five chapters. The chief alterations made by the Select Committee are contained in clauses 13, 18, 21, 23, 25, 26, and 28.

A new provision has been inserted for inspection and verification of accounts kept by managers of charitable institutions.

The rules for the investment of trust money have been made more exact and securities of the Government of Mysore and investments authorised by the said Government are included among those allowable for the investment of trust funds.

Appeals from the decisions of Assistant Commissioners which under the original draft went before the Government are made to lie to Deputy Commissioners.

The provisions contained in Chapter III are made applicable to institutions similar to Mathas such for example as Musalman Religious Institutions.

In dealing with mismanagement of Mathas it was intended to give power to Government to take cognizance of complaints about gross dereliction by a Mathadipathi of the Dharma of his Asrama. It was not meant that Government should give ear to petty or frivolous complaints under this head; for that would entail an intolerable amount of interference in the religious concerns of such an institution —a task for which moreover the machinery of Government is quite unsuited. The reference was to cases of such a gross and notorious character as to deprive the Mathadipathi of the right to continue in his exalted position in the eyes of the whole world. A few cases of this kind have occasionally come before the Courts and been decided against the Mathadipathies. It was considered while framing the Bill that it would be more in the interests of the Mathas and in keeping with the high esteem with which they are regarded by the general public to keep even such exceptional cases outside the cognizance of the ordinary tribunals, but it was felt by the majority of the members of the Select Committee that the subject was one of peculiar delicacy and so far removed from the ordinary sphere of a secular Government that it should be left to be dealt with by the body of disciples owing allegiance to the Matha concerned. Accordingly this clause has been removed from the Bill.

In dealing with enquiries about mismanagement of these institutions, it was considered more in keeping with the status of these institutions and the exceptional nature of the proceedings that the enquiry should always be held by a special tribunal and accordingly the distinction between major and minor institutions has been removed in clause 26.

One of the sub-clauses of clause 28 was to the effect that Government may take such steps as are necessary in accordance with law and usage to appoint a proper Mathadipathi. It was not the intention of this clause to introduce any innovation into the method of electing Mathadipathies or to assume any power on behalf of Government in that respect; but as however the provision has been widely misunderstood, the Committee has omitted it altogether.

I may as well take advantage of this occasion to notice some of the more important criticisms that have been directed against the measure as now placed before the Council.

It has been said that there is no need for such a Regulation, that the rules and orders of the Muzrai Department of Government are sufficient to conserve the interests of such institutions if properly administered. It is sufficient to meet this objection by the fact that the Bill has been welcomed by many others as a useful piece of legislation which has been long felt to be needed. In fact, Government had the subject long under consideration, and the desire was the result of a wish to supply a desideratum. Moreover the objection loses all its force when it is seen that a regulation is merely a more formal and exact way of giving force and precision to rules and orders.

The next objection deserving notice is that too much power has been reserved for executive officers of Government. The provisions of the Regulation referred to are contained in clauses 9, 10, 11, 14, 33 and 36. The first remark I wish to make about such provisions generally is that in the absence of such power, the only course left to the Muzrai officers for achieving the objects aimed at will be to go to Courts for enforcing them. The Code of Civil Procedure contains a provision that suits of this kind may be filed by an officer of Government or by two or more persons with the consent of such officer. I am not aware of a single suit filed by the Deputy Commissioner and I know of but one or two cases filed by private parties with his consent. In respect of public charities, in which the interests of individuals are not intimately involved, the trouble generally is not that steps are vexatiously taken by public officers or by private persons acting in public interests, but that the persons who might vindicate such rights are apathetic and indifferent and do not care to undergo the worry and expense of litigation. We have therefore thought that if power is given to the officers of the department to institute an enquiry and take the required steps to safeguard the public interest, there would be more likelihood of such misdeeds being brought to book. No injustice to private individuals need be apprehended in such a course. In the first place, the revenue law and procedure supply many analogous instances of such proceedings, and it has not been found that they result in any substantial hardship or injustice to private persons. Muzrai Officers like Revenue Officers are responsible public servants and they may be trusted not to seriously abuse their powers when dealing with such quasi-judicial cases coming before them. The Regulation has created at the same time sufficient safeguards to prevent the injustice to individual rights. Clause 12 provides that the party against whom an order has been passed under clauses 9, 10 and 11 may file a suit in the District Judge's Court within six months, and that the order of the Muzrai Officer should not be brought into force for such period or except in accordance with the result of such suit; and also that such orders in important cases shall be brought into effect only after obtaining the sanction of Government.

Clause 14 refers to the wrongful alienation of charitable inams. Under the Inam Rules, the Deputy Commissioner has at present the power of taking action in such cases. The object of this provision is to transfer such power in ordinary cases to the Muzrai Officer. This is not a new provision and does not create any new hardship. In fact, objection has been taken in various quarters to the limitation put in that adverse possession shall not be disturbed after 12 years, as being unduly against the interests of the institutions concerned. The limitation, it may be observed, refers only to proceedings in the Muzrai Department under this provision and does not affect whatever power the Revenue Officers may at present have under the Inam Rules.

Clause 33 regarding the adjudication of pujari rights is not a new provision. It only renders the existing provision more regular by inserting it here. Clause 33 is a new provision of the same nature, and properly finds a place in this chapter.

Moreover, in all these cases, it should be remembered that Government has the power of correcting errors on appeal or revision.

The next important point that I shall notice is that we have not struck any new lines of improvement, but have satisfied ourselves with mainly reproducing the orders already in force. This criticism is to some extent neutralised by those that I have already noticed, but it deserves some further consideration. In matters of this nature touching the interests of a great portion of the public, it is necessary that we should be cautious and that, if we err, we should err on the side of conservatism. It has been said, for example, that we should have created an electorate of disciples for the selection and appointment of new Mathadhipathis and created committees of management for the affairs of all Mathas. I have already noticed the objection raised that we were attempting to arrogate too much for the State in the matter of appointing new Mathadhipathis, and shown that the view was baseless, and that notwithstanding, we had modified the offending clause. The opposite view is likewise one that Government finds it impossible to countenance at present. Whatever the law or usage may be about the election of new Gurus for Mathas, Government has no more wish to assume any power for itself, in this respect, than to hand it over by a positive enactment to an electoral body among the public or among the disciples of the institution. Perhaps the provision may be efficacious, whatever may be said of its expediency, if all our Mathas had their following and their property exclusively within the State; though even that would be doubtful where the religious beliefs and ceremonies of the adherents come in conflict with the ordinances of the State. But when it is seen that our most important institutions of this class have wide and important interests outside the State, the inexpediency and uselessness of our making an attempt in these directions is quite clear.

Wherever possible, we have made provision for taking the popular side of these institutions into account in the provisions we have made. The institution of Dharmadarsis is meant to enlist the help of local men of standing in the work of management. Whether such men are elected by the public of the places concerned or selected by Government is a subordinate matter. If election should be felt to be better, Government may at any time by an executive order direct that Dharmadarsis to be appointed may be ascertained by election, as has been done in the case of members of this Honourable Council elected by the members of the Dasara Representative Assembly. The rule of election has been adopted to some extent in clause 35 concerning the appointment of pujaris.

I venture to trust that these observations will convince the Council that we have not, on the one hand, introduced any revolutionary rules in this Regulation, and that on the other hand we have not refrained from inserting new provisions considered expedient or useful. This is the first attempt at Legislation on an important and delicate subject and it is therefore necessary that we should be cautious; but I am sure that as we have further experience in working the provisions we shall discover and be able to adopt such improvements as may be found necessary or desirable.

I now beg to move that the Report of the Select Committee and the Bill as amended by them be taken into consideration.

MR. C. SRINIVASIENGAR.—To me has been assigned the formal duty of seconding this proposition which has been so ably moved by the learned member in charge of the Bill. In rising to discharge that duty, I beg to say that the measure is practically a piece of original legislation dealing with a subject of considerable difficulty and complexity. Attempt has been made to steer clear of the shoals and quick-sands with which the subject is surrounded and it is my humble opinion that this attempt has been a success. The Bill was drawn up with considerable care and at the several meetings of the Committee, it received more than the ordinary amount of scrutiny; and the wonder is, considering the importance of the subject, that the alterations made to the original Bill are so very few.

If I understand the literature on the subject aright, the measure has been subjected to criticism on several grounds. One criticism advocates a policy of inaction and noninterference and adopts for its motto, the principle of "let alone." It seems to me that if this criticism were adopted, we would be no wiser and no better than we are, whereas there is an urgent call for codification, for systematization and for laying before the public, in an easily assimilable form, the law on the subject of Muzrai Institutions in the State.

Another criticism is strongly in favor of proceeding at a breakneck pace, irrespective of local conditions and reasonable requirements. The last one which I prefer to the other two recommends our hastening slowly having regard only to the present needs of the country.

The Bill as at present before the Council seems to me to be eminently calculated to meet a long-felt want. It is as unambitious as it is likely to be beneficial. Particular care has been taken to avoid wounding popular susceptibilities or going beyond the necessities of the case. Very little that is likely to be objectionable has found a place in the Bill which I submit has been drawn up with all the care and consideration that its importance demanded.

With these observations, I commend the measure to the Council for adoption without hesitation.

MR. D. VENKATARAMAIA.—I heartily approve of every observation made by my learned friend before me on the subject. It gives me very great pleasure to give my hearty support to the measure before the Council. Hitherto, the institutions which could be brought under legislative influence did exist and disintegrating causes which made people not to take much interest in them, brought about their ruin in many a large town. A measure like this creates interest in the people of the locality to take care of their institutions in some form that could be acceptable not only to the people of the locality concerned but to the people who would be affected by these institutions. No rules or regulations existed hitherto; a kind of custom or practice alone prevailed. But on account of differences among the men of the locality or on account of other causes, splits arose and many good institutions came into disrepute. Any measure which would go to improve the existing conditions would be most welcomed by the people as a whole and by the community which would be particularly affected by it. Especially a measure of this kind is the first attempt made to regularize the custom, in a most careful manner. For defects which are not now quite apparent, time will come for amendments being brought, if good reasons are shown for that purpose. It may not be perfect, but so far, all the attention bestowed on it has been careful and conducive to the welfare of the community.

MR. A. RANGASWAMIENGAR.—Sir,—With your permission, I would first observe that I was selected as one of the members of the Select Committee. Unfortunately owing to my absence from the station, I had not the privilege of co-operating with my colleagues and so, had no opportunity of explaining my own views so as to make such modifications as, in my opinion, would make the measure more useful and workable.

However, in the present case, I welcome the measure; as it is, the proposal to have a Regulation is certainly commendable, and the drafting has been very ably done; but all the same, I wish to place before the Council that it has not been drawn on the most desirable lines. For instance, I would say that as observed by Mr. Nanjundayya, the need for the Bill has not been clearly made out. It is nowhere said what the number of institutions is, nor the amount of bequests and endowments or in how many cases, there has been gross mismanagement which has not been capable of being efficaciously dealt with under the present conditions. There is no explanation at all on these points.

Another point on which I would speak is: hitherto, the Government had the sole power of management of the Muzrai Institutions. The Deputy Commissioner was the Muzrai Officer. We had and we have a Muzrai Superintendent. And how have we progressed? There are only a limited number of institutions dealt with even now. But this Bill provides for wholesale jurisdiction over all institutions that can be called charitable or religious institutions. Where is the agency, how is the Regulation to be worked if it should become law? And after all, is this the best method of dealing with them? Everywhere the general tendency has been to criticise the vesting of too much power and responsibility in the executive. Especially in Mysore where the right of a private individual to resort to Court is very much limited against Government Officers although I notice here a provision for these people going to Court—still there is the same amount of absolutism which detracts from the usefulness of the measure.

Again, although Dharmadarsis are referred to, they are only required for attending to the ordinary duties, and as we know, they know very little and do very little. In an institution under our very nose in the Fort, I find that Dharmadarsis of good position and standing, men of sound education, have very little power. The Amildar's clerk is more powerful than the collective body. In a measure of this kind which touches the religious and charitable instincts of the people, the better plan would have been to enlist the co-operation of private agency, what I would call "Village Panchayets," local bodies, etc. If, in this measure, an attempt had been made to constitute committees to deal with Muzrai Institutions, we would have proceeded upon more enlightened lines. That is another point.

These are the general considerations which I would place before the Council.

The next point is, as I said, the Bill is too ambitious. In the definition about "Muzrai Institutions," every temple, mosque or other place of worship or religious service, and chatra or house of feeding or rest for travellers without charge, or other institution of a religious or charitable nature which is now actually in the sole charge of Government or for the support of which any annual grant in perpetuity is made from the public revenues or an inam has been granted and is recognized and registered at the Inam Settlement as a Devadaya or Dharmadaya grant, etc., etc., has been included. There is no limit as to the magnitude or as to the amount of the funds of an institution which can be taken up for enquiry. The Amildar is the Muzrai Officer for the taluk and the Deputy Commissioner is the Muzrai Officer above him and there is no other agency which can deal with the investigation. What establishment have they? Are they likely to do justice to the duties expected of them? It is this that makes me feel that the Bill as it is, is open to serious objection.

Again, about the pujaris and others, who are the voters? There is the same vagueness in this particular as there is in the Municipal Regulation which we discussed a few minutes before. Where is the guarantee that the man will not be a renegade afterwards? It is all good enough on paper. But whether it is likely to be free from corruption and mismanagement should be the first thing to be considered. Unscrupulous and dishonest officials will have means and opportunities of interfering with the institutions and bringing them to trouble. On the whole, therefore, I have got very serious doubts about the efficiency of this measure. The lines to be adopted for dealing with such institutions should be quite different. If I may quote for instance, the practice in British India where they want to enlist the co-operation of respectable men of standing, I may refer to Conjeevaram where they have got a Board of control from Madras and other places, consisting of men of position and enlightenment.

I would therefore strongly urge for the consideration of the Council that this Bill be allowed to go back to the Select Committee for adding certain provisions with regard to empowering committees of respectable men in each district to devote some sufficient time for institutions within each district and in order that they may have a list of institutions that are likely to be affected by the measure. As it is, is the mover of the Bill able to say how many institutions there are in the State? and what is thier worth? are they worth Rs. 50, or Rs. 5 or less a year?

As regards the inams, they are of various kinds, some are *padithara* and some are endowment grants; there is no clear law on the point and it is left to the sweet will and pleasure of the Muzrai Officer. Have you got clear Muzrai Rules? If so what departures are made from them in the Regulation? In what respects have we improved upon them? The Bill, I admit has been drawn up by an intelligent mind. But it is all *a priori*. Is this the way to legislate? A legislation must take into consideration the previous laws and the existing rules and the bodies or institutions which it proposes to deal with. On all these points, there is no information. I think this is not the way to proceed with legislation. It is not my object now that the whole thing should be upset. I only say that it is not a proper piece of legislation and that it should not be passed in this form.

Mr. B. Narasinga Rao.—This is a measure, no doubt, as submitted already, a novel one. But after all, the Bill does not enact any new law which did not exist hitherto. All the old circulars and standing orders which were a forbidden fruit to the public have been put in a proper form so as to define the duties and rights in a proper manner. We wanted that the Muzrai Laws should be understood by all, for which purpose the rules and regulations have been systematized. It is not necessary for us to know the number of Muzrai Institutions or the number of instances of gross mismanagement. We are not unaware that there has been mismanagement at least in some of the institutions and as such the Council will be pleased to note the measure is not an uncalled for one. This Bill has been before the public for a long time. I believe, it was also placed before the Representative Assembly and it elicited an unanimous approval. We are aware, especially in small villages, there are inams which are being enjoyed by patels and shanbhogs – inams intended for the temples which are not now in existence. It is impossible for the Government to move in the matter or for the people to take the initiative without a codified law defining rights and privileges. It was submitted that there will be a lot of worry to the people. Of course there is no worry at all except it be to the people who are abusing the trust. If they misbehave still, then alone Government steps in to set them right. It is the interest of the Government to see that these charities are properly administered and the intentions of the donors are carried out. I therefore submit that the Bill has my hearty support.

MR. C. S. DORASAMI IYER.—I also rise to support this Bill which has come in its present form from the hands of the Select Committee, which consisted of many able members competent to deal with the subject. Objections have been put foward for the Bill not being acceptable in this form, on various grounds, one of which is that the legislation does not in any way throw more light than the existing rules. But the fact is that much light is not thrown by the executive orders now in force. The preamble itself clearly states what the object of the Bill is. It may be seen that this Bill was introduced for the purpose of "consolidating and amending the law relating to the Muzrai Institutions in Mysore and to provide for certain remedies................" This is not a consolidating Act in the sense that previous acts and statutes consolidated. There was an absence of any legislative enactments hitherto on the subject and consequently the publicity required for the law regulating the management of the Muzrai Institutions was not present before the public in the form in which it was till now. It is far more satisfactory to have a legislative enactment to guide than the executive orders on the subject. Having resolved to achieve the object, how best could it be done, except by a codification of the existing rules both written and unwritten? It was a mystery to most people, as to what was being done with the endowments which the religious and charitable institutions in the State were endowed with. They did not know who managed them and how they were managed. Now, we have a Regulation in which all these points are cleared. It is not intended that every institution will be dealt with, but religious and charitable institutions on which the Government have a hold by reason of acts to be done by them are primarily within its purview.

From para (1) of section 2, it will be seen that the definition of Muzrai Institutions is intended to bring within its scope those institutions on which Government have a hold. So that, it is the object of Government to see that institutions over which it has got a hold and institutions which are within its temporary management are conducted in a way which people can know. With this object essentially in view, the Regulation has been drafted.

I will not be a party to the statement that this is a novel Regulation. It may be so perhaps with regard to British India. I believe we have such a Regulation in two other Native States, namely, Cochin and Travancore. Such a Regulation has been found to exist there and to result in the good which the executive orders could not bring about. How far Regulation would succeed time will show. But this much may be said that it will do so much more than what the executive orders have done before.

As regards the details of this Bill, there were certain provisions which might have been considered I will not say obnoxious but inexpedient and were on that account considered unnecessary to be introduced in Regulation which has to pass through its experimental stage for some years. Such matters on which the Executive Government in its executive capacity did not want to intefere or exercise any powers have been left out of account. The object has been so well explained by the learned speaker on the subject, that I would only express to add my support to it.

MR. H. V. NANJUNDAYYA.—Mr. A. Rangaswamiengar complains that this legislation is an *a priori* legislation not drafted on the consideration of facts. I ask him in all seriousness if that is a valid objection to it. Most legislative measures are *a priori* deductions helped by as many facts as have come to light. For example, if this Council has to pass a law for prohibiting murder, is it necessary that statistics should be taken before a punishment is proposed to be meted out for murder? So, then, I would disimiss that statement from consideration. As a matter of fact, I would say that it is not *a priori* in the sense of being drawn mainly from imagination.

Another criticism was that we were attempting to take within our wings too many institutions and that we have no machinery able to cope with their management. Mr. Rangaswamiengar referred to the definition of "Muzrai Institution" in Section 2. I admit at once that that definition is very comprehensive and may include for instance, the Melkote temple for which about Rs. 20,000 are alloted by Government and the Kalasa temple which gets an income of about Rs. 20,000, as well as any village temple which received only a few annas from the Government. But what do we propose in this legislation? We do not say that we take all these under our direct management. The only use of the term is found in Section 19, and it is to meet this section that that definition was inserted. Section 19 runs as follows:—"Arrears of rent of revenue due from tenants in respect of property belonging to a Muzrai Institution may be recovered by the officers empowered to recover revenue due to Government in the same manner as arrears of land revenue due to Government." That is all that we are required to do by this Regulation—to do anything important on behalf of the institutions. We can at once see that this is not very formidable.. Persons interested, who are in direct charge of the institutions will apply to the Revenue Officers concerned and it will not be impossible to extend this help to them. What is it that we are prepared to do under the Regulation that is impossible of achievement? For example, we say in clause 3.—"Government may undertake the management of a religious or charitable trust—." It is not *shall* undertake but it is only *may*. Of course, we will undertake this, if the institutions require such a treatment only in cases which we can effectively manage. And then Sections 4, 5, 6 and 7—all these refer to references to Civil Courts by Muzrai Officers. A similar remark may be made about Section 8. We will not utilize the provisions of the Regulation in every case, where a private man has dedicated anything for the use of the public. But we will take only cases in which large amounts are involved and I for one, do not see anything impossible of achievement in all this. I may go over all the provisions in that way to show that we have not undertaken anything very arduous or beyond our capacity to take.

Mr. Rangaswamiengar complains that we should have created local bodies to interest themselves in this matter. About this, I have only to say, that the institution of Dharmadarsis is wide enough to constitute local bodies anywhere we want. We are not in the least anxious to interfere in matters of administration of such charities and religious institutions. We may also frame rules about Dharmadarsis in such a manner as to allow for the action of such popular help and sentiment as is desired.

Another objection is that we are wanting in definiteness in the introduction of the popular element and in this connection reference was made to the election of pujaris. He asked who were the voters. Provision is there made for Government to issue rules on the subject. Of course, we will do our best and after all, it does not matter if, in the matter of voting a few persons who are not devotees come in. They will soon be swamped among the larger number of devotees. The difficulty here is not that people will take too much interest but that most people will be apathetic. Whether in the case of Government Officers or the local public opinion concerned, the complaint in respect of all these institutions is that they take far too little interest in such institutions. You may have observed the extremely unsatisfactory state in which small temples are now. We have only to compare for instance a church kept up by a Christian and a temple kept up by a Hindu. In the latter case, you will find that the place is not kept clean and proper use is not made of it for the purposes of devotees, as we should expect in such institutions. It is not so much that the Government is unwilling in any way to share these responsibilities. They are only too anxious to do it. If only the public of each place will come forward and take the management of the institutions into their own hands, Government will consider itself amply repaid for the trouble it takes in bringing in such a measure; and they would not try to administer these themselves for the public use.

Reference was also made to Committees' responsibilities in districts. In fact, that was the reason which induced me to put in a clause for the constitution of such Committees. In Section 17, we have put in a provision that "Government may also appoint a Committee of persons chosen by election or otherwise with such powers of management and supervision as may be prescribed by rules, over one or more religious and charitable institutions," and we may entrust these powers to the Committees under the rules to be framed.

THE DEWAN.—Before putting the motion to vote, I wish to compliment the members of the Council who took part in the debate on the high level maintained throughout the discussion of this important question.

The motion was then put to vote and carried unanimously.

MR. H. V. NANJUNDAYYA next moved that the figure "1913" be added at the end of the word "Regulation" in, and the words and figure "1st January 1914" at the end of, sub-clause (1) of clause 1 of the said Bill.

MR. C. SRINIVASIENGAR seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA next moved that the word "and" be added at the end of sub-clause (3) of clause 9 of the said Bill.

MR. C. SRINIVASIENGAR seconded the motion.

The motion was put to vote and carried.

MR. B. NARASINGA RAO, with the permission of the President, moved that in clause 33 of the Bill in the last line after the word "interested" the words "and after making such further enquiry as he thinks necessary" be inserted.

MR. S. SEATHARAMAIYA seconded the motion.

The motion was put to vote and carried.

MR. B. NARASINGA RAO then moved that in clause 37 in the first line, the figure '26' be omitted.

MR. S. SEATHARAMAIYA seconded the motion.

The motion was put to vote and carried.

MR. H. V. NANJUNDAYYA then moved that the said Bill as amended be passed.

MR. C. SRINIVASIENGAR seconded the motion.

MR. PUTTANNA CHETTY.—Sir,—As this is the final stage of this very weighty and important discussion, I hope you will permit me to say a few words.

I think, the Mysore Government should be congratulated on bringing forward a bold and salutary measure of this kind. It has been demanded by public sentiment for a long time past. Abuses and mismanagement of religious and charitable institutions have not been unknown in this State. Many cases have been brought to the notice of Government and in order to check such abuses, a Government Department has been specially created and that is the Muzrai Department of Government and a Muzrai Superintendent has been appointed and executive orders have been issued by him from time to time. But then, the Government have not been able to put an end to all the malpractices and irregularities that have been found to exist. Not only the temples and chattrams have been brought under the purview of this Regulation but also the matts. The Select Committee has bestowed special consideration upon this part of the Bill. It was very anxious to avoid treading upon the tender sentiments of the mathas. At the same time, it set itself resolutely to work to prevent any undue alienations of property and so on. And I think the result of their deliberations was that they arrived at a happy mean, that is, the Bill does not interfere too much with the affairs of mathas, at the same time it does not leave them to themselves entirely. I daresay, as this Bill becomes law and its effect is felt all over the Province, a time will arive when a larger measure under which even the *Mathadhipathis* will be brought under control, such as is advocated in the public press, will be demanded by the people. Until that time arrives I think such a measure as is at present before us will be very much appreciated. We are not singular in this respect. Similar legislation has been undertaken in

Cochin and Travancore and it is working there with great success. I think they framed their measure upon our own model. As such, they ought to have followed us while it looks as if we were following them. I should not be surprised if British India should follow our example in this most important matter which touches the everyday life of the people of India.

I heartily support the motion that this Bill be passed into law.

The motion was then put to vote and carried unanimously.

The council then adjourned *sine die.*

Period of restriction—From 1st to 12th January 1914, (inclusive).

Reference—Memo No. 1469—P., dated the 24th November 1913, from the First Assistant to the Hon'ble the Resident in Mysore.

### *No.* 5871—*San.* 1-13-50, *dated 5th December* 1913.

The following notifications of the Madras Government are republished for general information:—

I.

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Chidambaram in the Chidambaram Taluk of the South Arcot District, if persons from the infected portions of the Anantapur, Bellary, Coimbatore, Nilgiri, North Arcot, Salem and South Canara Districts, the Mysore State, the Bombay Presidency, and other parts declared to be infected with plague are permitted to visit that place on the occasion of the ensuing Arudra Darsnam festival:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council prohibits the attendance at the said festival, from the 26th December 1913 to 11th January 1914, inclusive, of persons from the said parts and further directs that between the said dates no tickets to travel by railway shall be sold at the stations of Mangalore, Madukarai, Podanur, Singanallur, Coimbatore, Tudiyalur, Kakankarai, Kandikuppam, Bargur, Periyakandili, Periyagaram and Tirupattur on the South Indian Railway, the stations of Karteri, Coonoor, Wellington and Keti on the Nilgiri Railway and the stations of Daroji, Gudupalli, Kuppam, Mulanur, Patchur, Jalarpet, Vaniyambadi, Vinnamangalam, Ambur, Mailpatti, Valatur, Gudiyattam, Kavanur, Viranchipuram and Latteri on the Madras and Southern Mahratta Railway for the stations of Alappakkam, Puduchattiram, Porto Novo, Killai, Chidambaram, Vallampadugai, Coleroon, Arasur and Shiyalli on the South Indian Railway to any person intending or believed to be intending to be present at the said festival.

All persons proceeding to the said festival in contravention of this notification will be turned back.

II.

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Trichinopoly and Srirangam in the Trichinopoly District, if persons from the infected portions of the Anantapur, Bellary, Coimbatore, Nilgiri, North Arcot, Salem and South Canara Districts, the Mysore State and other parts declared to be infected with plague are permitted to visit those towns on the occasion of the ensuing Vaikunta Ekadasi festival at Srirangam:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council prohibits the attendance at the said festival, from the 19th December 1913 to 18th January 1914, inclusive, of persons from the said parts and further directs that between the said dates no tickets to travel by railway shall be sold at the stations of

Mangalore, Madukarai, Podanur, Singanallur, Coimbatore, Tudiyalur, Kakankarai, Kandikuppam, Burgar, Periyakandili, Periyagaram and Tirupattur on the South Indian Railway, the stations of Daroji, Gudupalli, Kuppam, Mulanur, Patchur, Jalarpet, Vaniyambadi, Vinnamangalam, Ambur, Mailpatti, Valattur, Gudiyattam, Kavanur, Virinchipuram, Latteri on the Madras and Southern Mahratta Railway, and the stations of Karteri, Coonoor, Wellington and Keti on the Nilgiri Railway for the stations of Trichinopoly Junction, Trichinopoly, Palakkarai, Trichinopoly Fort, Srirangam Road, Murungapettai, Tiruchandurai, Elamanur, Perugamani, Sholagampatti, Tiruvarambur, Manjattidal, Pungadi and Kolatur on the South Indian Railway to any person intending or believed to be intending to be present at the said festival.

All persons proceeding to the said festival in contravention of this notification will be turned back.

III.

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council hereby appoints the Trichinopoly Fort, Trichinopoly Junction, Srirangam Road and Trichinopoly-Palakkarai Railway Stations to be inspection stations from the 19th December 1913 to 18th January 1914, under Rule 16 of Madras Plague Regulations in force outside the Presidency Town.

IV.

Whereas the Governor in Council is satisfied that there is danger of an outbreak of plague at Samayapuram in the Trichinopoly Taluk of the Trichinopoly District, if the annual cattle fair is permitted to be held at that place on the occasion of the ensuing Ekadasi festival at Srirangam:

In exercise of the powers delegated to him under the Epidemic Diseases Act, 1897, the Governor in Council prohibits the holding of the said fair from the 2nd to 18th January 1914, inclusive.

*No.* 6001—*San.* 85-12-4, *dated* 10*th December* 1913.

In exercise of the powers conferred by Section 2 of the Epidemic Diseases Regulation, II of 1897, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following rules for the prevention of epidemics in the vicinity of the Cauvery Reservoir Works at Kannambadi. The rules will come into effect from the date of this notification and shall remain in force until further notice:—

1. All labourers and artisans newly arriving in the area will be kept in quarantine for a period of fourteen days.

2. If any person or persons among the new arrivals be observed to be suffering from any disease of a contagious nature, the patient or patients shall immediately be removed to the isolation camp for treatment. The contracts shall also be isolated and kept under observation, due facilities in respect of accommodation being provided.

3. The new arrivals in the quarantine sheds will not be allowed to visit or be visited by persons permanently encamped in the area, during the period of observation.

4. The Sanitary or Assistant Sanitary Inspector shall, in the course of his daily itineration, visit every hut and report cases of illness to the Medical Officer.

5. In case of death due to epidemic diseases, especially cholera, all clothes belonging to the patient shall, if possible, be burnt, or if washed, they shall be washed in the house itself and not under any circumstances in the river.

6. Houses in which a case of plague, cholera or small-pox has occurred shall be disinfected chemically as well as by dessication and such huts or sheds as do not permit of disinfection in a satisfactory manner shall be destroyed.

7. Persons infected or suspected to be infected with cholera, small-pox, plague, etc., and persons residing in a locality in which such diseases have occurred may be prohibited by a written order of a Sanitary Officer from leaving such locality unless and until the Sanitary Officer certifies that they may safely be permitted to leave such locality.

## DEPARTMENTS OF EDUCATION AND AGRICULTURE.

*Notification No.* 5791—*Edn.* 8-13-4, *dated* 3rd *December* 1913.

The following revised rules for the award of Secondary School-Leaving Certificates sanctioned by Government are published for general information:—

### RULES.

I. *To whom awarded.*—These certificates may be awarded on the completion of their school course to boys or girls who—

(1) have attended one or more recognized secondary schools from at least the fourth form upwards,

(2) have attended each of the fourth, fifth and sixth forms for not less than sixty per cent of the number of working days in each term and for not less than 120 working days in each school year, unless specially exempted by the Board, such exemption being however granted only in the case of candidates who have attended the school regularly, but whose attendance falls short of the required minimum by only a few days.

II. *By whom awarded.*—

(1) The certificate shall be awarded by a Board consisting of the Inspector-General of Education as *ex-officio* President, six officers of the Government Educational service and six others, and the Secretary.

(2) The members of the Board shall be appointed for a period of three years and shall be eligible for reappointment.

(3) The Assistant to the Inspector-General of Education shall be Secretary to the Board.

(4) The Board shall arrange for the award of the certificate in accordance with the provisions of the scheme.

III. *Scope of the certificate.*—The certificate shall take into account the school work done by the pupil from the fourth form upwards, and shall also contain the results of the Inspector's Examinations every year and those of the public examination conducted by the Board. It shall show exactly what subjects pupils have studied and discriminate fairly between one pupil and another as to the benefits each has received from the school course.

The subjects of study will be those specified in Group A and at least two to be selected out of Groups B and C, provided that in the case of candidates wishing to take up a collegiate course both the electives are from Group B. It is open to a candidate to take a supplemental course in any number to gain a supplemental certificate.

### A. COMPULSORY.

IV. *Preparation of certificate.*—(1) The certificate shall be in the form shown in the appendix to this scheme. Every pupil on entering a fourth form shall be provided with a blank certificate to be kept in the custody of the school so long as he remains there, the entries in the certificate for each term being made in due course by the headmaster.

(2) The results of school work done shall be entered against each subject taught in the school in the form of the number of marks gained out of a maximum of 100 for each subject, except in the case of physical training, where a general remark will be entered.

(3) The certificate will also show the total number of marks obtained by each candidate at the end of the year in an examination conducted chiefly orally by the headmaster of the school and the Inspector of the Division, the help of the master in a special subject being called in, if necessary.

(4) The school work of a year in which the pupil is not promoted to a higher form shall not be taken into account; and no term certificate shall be accepted which is not gained in one and the same school.

V. *The Public Examination.*—(1) At the end of the course in the sixth form, the headmaster shall forward to the Secretary to the Board a list of names (the certificates following at the end of the term) of such of his pupils as wish to complete the certificates by appearing for the public examination conducted by the Board and as are, in his opinion, competent to appear for that examination.

(2) The certificate of no pupil shall thus be forwarded whose age is less than fifteen years unless the pupil will complete the age of fifteen years on or before the first day of the month in which the examination is to be held.

(3) A fee of Rs. 12 shall be sent along with each pupil's certificate.

(4) The Public Examination will be a Written Examination conducted by the Board and will include in addition to the selected subjects :—

A. English Essay (on subjects selected from Text-books), and Grammar, Paraphrase, etc., based on Text-books prescribed for detailed study.

B. Vernacular Essay (on subjects selected from Text-books in English or Second language).

(5) It will be held at such places and on such dates as may, from time to time, be notified.

(6) The marks obtained out of a maximum of 100 in each subject at this examination will be entered by the Board on the last page of the certificate and the Board shall also be competent to moderate the marks obtained in school work.

VI. *Award of the certificate.*—(1) The certificates thus filled in and completed shall be returned by the Board to the headmaster of each school for delivery to those who are leaving the school.

(2) The certificate of a pupil who is not, in the opinion of the headmaster, competent to appear for the Public Examination shall, if he is leaving the school, be endorsed to that effect over the headmaster's signature on the page relating to the term, column III, and then forwarded to the Secretary to the Board for inspection. When it is returned to the headmaster, it shall be handed over to the pupil.

VII. *Supplementary certificates.*—(1) If a pupil wishes to improve the certificate thus awarded to him, whether in regard to its quality in one or more subjects already brought up or by bringing up additional subjects under list B or C, he may go back to the same or any other recognized school and appear at a succeeding examination conducted by the Board in any subject or subjects in which the examination is held.

(2) There shall be no limit to the number of times which a pupil may thus be re-examined.

(3) The fee for the re-examination shall be Rs. 6 if the re-examination be in a subject or subjects in which a pupil has already been examined by the Board, and if otherwise, Rs. 3 for each new subject under list B or C.

(4) In either case, a further endorsement shall be made on the pupil's original certificate with regard to his progress in a manner similar to that laid down for the entries in the original certificate.

VIII. *Subsidiary Rules.*—The Board shall be competent to frame such subsidiary rules as it thinks fit for the estimate of school work done, the conduct of the Public Examination and other matters connected with the award of certificates subject to the provisions of this scheme. Such rules will be notified from time to time by the Inspector-General.

IX. *Transitory Rules.*—The scheme having been brought into force from the academical year 1912-13, the school work in connection with the Public Examination of 1914 shall cover only 4 terms, *viz.*, 2 in the VI and 2 in the V Forms. Candidates of the VI Form of 1912-13 who could not appear for the Public Examination of 1913 will be allowed to appear for the Examination of 1914, provided they have kept 2 more terms in the VI Form of 1913-14.

By Order,

C. S. BALASUNDARAM IYER,

*Secretary to Government, Education Department.*

*No.* 6001—*San.* 85-12-4, *dated 10th December* 1913.

In exercise of the powers conferred by Section 2 of the Epidemic Diseases Regulation, II of 1897, the Government of His Highness the Maharaja of Mysore are pleased to prescribe the following rules for the prevention of epidemics in the vicinity of the Cauvery Reservoir Works at Kannambadi. The rules will come into effect from the date of this notification and shall remain in force until further notice:—

1. All labourers and artisans newly arriving in the area will be kept in quarantine for a period of fourteen days.

2. If any person or persons among the new arrivals be observed to be suffering from any disease of a contagious nature, the patient or patients shall immediately be removed to the isolation camp for treatment. The contacts shall also be isolated and kept under observation, due facilities in respect of accommodation being provided.

3. The new arrivals in the quarantine sheds will not be allowed to visit or be visited by persons permanently encamped in the area, during the period of observation.

4. The Sanitary or Assistant Sanitary Inspector shall, in the course of his daily itineration, visit every hut and report cases of illness to the Medical Officer.

5. In case of death due to epidemic diseases, especially cholera, all clothes belonging to the patient shall, if possible, be burnt, or if washed, they shall be washed in the house itself and not under any circumstances in the river.

6. Houses in which a case of plague, cholera or small-pox has occurred shall be disinfected chemically as well as by dessication and such huts or sheds as do not permit of disinfection in a satisfactory manner shall be destroyed.

7. Persons infected or suspected to be infected with cholera, small-pox, plague, etc., and persons residing in a locality in which such diseases have occurred may be prohibited by a written order of a Sanitary Officer from leaving such locality unless and until the Sanitary Officer certifies that they may safely be permitted to leave such locality.

*No.* 6011—*San.* 1-13-52, *dated 12th December* 1913.
